### SETTLER DELEGATESEAT THE JOINT COMMITTEE!

Evidence Creates a Good Impression.

DUEL WITH LORD PASSFIELD.

Secretary of State Regrets Use of Words "Immigrant Races."

["STANDARD" CORRESPONDENT.]

Joint Committee to-day. The proceedings were lengthy and up to the present only four mem-bers have questioned the wit-nesses. Lord Francis Scott made a good impression with his friendly and moderate tone. There was nothing exciting ex-cept a duel with Lord Passfield, who insisted that the policy of the present government regarding settlers participating in trusteeship was not different to any other Government. He insisted that the Agricultural Board and the Native Land Act was evidence of that trusteeship.
Mr. H. E. Schwartze thought
that there had been no advance
in trusteeship since 1920, when

the settlers were granted elected representation. Since it was thus impossible to visualise setting up proposed the control of the presentation of the control of the con any board without unofficial re any board without unofficial re-presentation nothing new had been given. He was prepared to agree that the setting up of the Board of Agriculture with an unofficial chairman was the only example of the definite ad-

Lond Francis Scott, Mr. H. E. Papers came in, but since the Schwartze and Mr. J. F. H. Labour Governments. Paper was Harper gave evidence before the Joint Committee to-day. The presily identical, there was an really identical, there was an immediate outery.

Lord Francis Scott and that no hit was intended at the Labour Government, Policies in Britain did not affect them in Kenya.

Sir H. Leggett's Evidence.

Answering a further question, Lord Francis Scots said he did not agree to the stidence given by Sir Humphray Leggett. He pointed out that he had received a tele-gram from the Nairobi Chamber of Commerce sent by the Associated gram from the Nairobi Chamber of Commerce sent by the Associated Chambers entirely repositiants. Sif-Humphry Legaritz evidences and saying that anyone with wund-visars was quite unfitted to repre-sent their views in Lendon. The Chairman thought that it would be a good thing if the Com-mittee in the report could evolve most parameters of the word parameters of the word parameters.

### GOVERNMENT DECLINES TO RE-DISCUSS ECONOMIES

Elected Members' Motion for Select Committee Defeated.

GOVERNOR'S APPEAL.

Withdrawal of Their Help and Co-operation Would Be Deplorable.

In accordance with notice of notion given the previous day, the public which was bound to be. Prichay's utility in Noricol, of it was kept in the dart of the Kenya Legislative Council, morred — the control of the council of the cou

tatives of the Arabs and native tatives of the Arabs and natives— agreed in Government's estimate at present and in the future finan-cial position during the year, and with the steps that had been and should be taken towards putting things jield. That the Estimates of 1931 Budget prospects as at 31st May, 1931, be referred to the Select Committee on the estimates, for examination things right

Government, however, declined to accept it, and after a division, the motion was negatived by 20 votes to 12.

Not Vote of Censure.

Seconding. Hon Conway Har-vey (Lake) emphasised that there was no desire whatever on the part of clotted members to em-learness tovernment in any way, nor did they challenge the consti-tutional more the motion, in any west me nor did they abslicage the small content of the c should the smergerery continuation of the control o

imbued with the same spirit : to see he Colony through extraordinarily afficult times with the minimum difficult times with the minimum: timount of damage, so that the more information they could get as to what steps should rightly be taken was all to the good. Mr., Mitchell emphasised his point by saying he believed that before many months far more drastic steps in economy would have to be taken than had already been he case for conditions were going the case for conditions were going to be much worse.

Major the Hodi R. W. B. Ro-bertson Eastace (Coast) supported the motion, again not in any spirit of antagonism to Government but in order that they might get in-formation.

Canon the Hon. G. Burns (re-Canon the Hon. G. Burns (re-presenting the African community) resenting the African community of could not see the -purport of the motion, whather it was to examine, in detail the considerable savings made or whether in the opinion of Elected Members still greater eco-nomies could be effected by their investigation. He was, he confess-ed, rather in the dark. At this stage the Hon. T. J. this stage the Hon. T. J. At this stage the Hon. T. J.
O'Shes said he wanted to speak,
but he would first like some indi-cation of Government's intentions regarding the motion, and Lord Delamere expressed the same

### An Explanation

The Commissioner for Local Government, Lands and Settle-ment (Hon. H. T. Martin) then said that having been Chairman of the last Estimates Committee of the last Estimates Committee be would speak with a certain amount of freedom and not as re-plying directly or formally on be-lial of Government. The econo-mica had been divided into two the nature of retrenchments a cer-tain amount of reduction in estab-lishment was involved These comomies were all on the lines of

that Government had no desire to dissociate unofficial members from the fullest co-operation with Government in dealing with the present difficult problems. He, for this part, and he was veleing His Escollency's opinion, felt that in the next few mouths the more Government could get the collective wisdom and assistance of all the contract of the co

The primary object of the Select Committee on Estimates was to associate with Government the Unofficial Members and obtain their information and advice as to the best manner in which the finance of the Colony could be conducted. In this case, broadspeaking, the economies wn had actually been effectahown had actually been three-ed, or the necessary steps taken to put them in train, and any alteration of that programme was out of court. For that rea-

RE-DISCUSS ECONOMIES (Continued from page 14). Select Committee on these eco-

nomies was really asking them to go carefully over a dead No New Principles.

SATURDAY, JUNE 13, 1931

Mr. Moore then gave the assurance to the Elected Members that the principles on which the 1931 budget was constructed had not been departed from. Continuing, he quoted from Hanmade by Mr. Harvey at the time the budget was finally sdopted: "I trust Government will exereise every possible economy, starting right away." That was precisely what Government had done, added the speaker, and by precisely what Gerermont the construction of the control creation and by the control creation equal the abstance of the control creation of administration of the control creation of the contro

eason, that as a result of the economies to date it was obvi-ous that if the 1932 budget were to balance it was possible that still further retrenchments with radical alterations of police might be necessary. The econo-mies up to date had been made miss up to date had been made with one eye on the 1932 bud over, but he wanted to say one or two words. "The first is, I should get. For example, it had been freely suggested, and not with he colleagues for the very consiget. For example, it has been freely experted of and with a freely experted of and with a fine of the first o

### BADLY PREPARED SCHEME FOR SETTLEMENT

Major Crowdy Criticises Kenva's Past Efforts.

CAUSES OF E.A. "NERVES."

Another Opponent of Any Large-Scale Closer Union.

London, May 8.
On behalf of the "Associated Producers of East Africa", a 3 The financial reason ago undertaking a big and indefini-Producers of East Africa, a London organisation, which repre-sents the Convention of Associa-tions at Home. Major W. H. Crowdy gave evidence before the Joint Committee this week. He followed the Tanganyika native to me to be decisive. appears to have been made would be difficult to arrive at, but at the present time to enter into unknown commitments would be incredible folly In the course of a short memo-randum submitted to the Com-mittee, the following appeared:— Any scheme to be fixancially sound must in effect reduce the

mites, the following appeared:
The producing community of
East Arica does not consist only
to those who are actually on farns
and plantations in the country. As
targe, and for the economic progress of the country important,
soons are supported to the country of the
country, are still supporting and
directing undertakings, there, and
collers who have contributed the Amalgamations.

Though not in favour of a big scheme of Federation, I do think that there is a prima facial case for the amalgamation of certain services proxided that as in many instances will 1 certain services promptes una-as in many instant's will I think be found to be the case, it can but clearly show that the efficiency of the service will be increased without an increase in callers who have contributed the funds for starting enterprises in these countries and sending out in the countries and sending out in the countries and sending out in the countries and the funds through country has been probed cortward from the railbuy tracks through reads into spaces where 23 years sentered. To them it is due that such crops as coffee, sized and wheat have become stagle, products of verhead charges for the same service. These services will be frequent recommendation which I Railways and Main Roads

have become staple products of the country. They may often have wasted their resources, but the net effect of these efforts is that in 80 years and less the un-fruitful No Man's Land has be-come as important as Uganda to which it leads.

No Big Scheme.

As far as I can gauge the general opinion of these people is that the time has not arrived for any big or long-distance schemes for Federation to be unbeautiful to the control of the co

the numericalism existings:

1. Each After as while to be located by the latest by the

2. An atmosphere of chilliness towards Federation on a wide basis has been intensified by the publica-tion of C. M. D. 3573 and 3574 tohas been interestined by the publica-guider. The ordinary conception of good preventures is than it should be a supersymmetry of the con-traction of the consumently as a to pose hypotheteses as a principle of the consumently of the con-traction of the consumently of the consumently of the con-traction of the consumently of the consumently of the con-traction of the con-traction

Lord Dicknow (Labour) one timed the quantizing about East Micros being white mark country. Micros being white mark country where the white popular being the property of the district flowers in respect of (1) a women's being white production white products have children and grandshiften mad (2) as country where the white popular have children and grandshiften mad (2) as country when there were the production of the producti

Major Crowdy thought so. Given good economic conditions he

Green good economic constitions ha agreed there would be a continual flow of white people to the coun-tries. He did not think there would be a flow of white labour into Kenya. His remark applied also to other European nations. also to other European nations. He did not know about the Ita-He did not know about the Ita-lians. In America the Italian was competitor to the negro and ces-tainly on the Mississipi Delta could stand the climate quite as well as the negro and was able to do better work. He would imagine Italians will do available to Italians would do excellently. He agreed that the Indian would always be able to live in East Africa; so far as the climatic conitions were concerned there was

Lord Dickinson questioned Major Crowdy on the proposed Major Crowdy in the course of his reply said he did not contem-plate him having anything to do with native policy. Lord Dickinson pointed out # would be a little difficult to see what his relations with the Gover-

what his relations with the Gover-nors might be.

Major Crowdy admitted there might be a little friction. That was always likely to be the case.
You had either got to reduce your.
Governors to Provincial Commisernors to Provincial Commissioners and have a Governor at the head of everything or you had got to have something which might give each individual country mos-any. He was definitely at present opposed to the first. He would suggest that the headquarters should be for the first year in Nas-robi but a more central position

Lord Lugard questioned the wit-

well thought out and had been threahed out by more than the Local Authority. Lord Lugard said he thought the final solseme, which had been arranged more or less, as it stated, with the Overseas Bettlement De-partment, was supposed to be a thoroughly thought out seleme. Major Crowdy said it may have been but he did not himself know

neough about it.

Lord Lugard pointed out it conproposition, or was there a danger of creating "poor whites?" Major Crowdy thought it de-pended upon the conditions entire-

men he had known who had done best out there had not been men with large capital; there had been men with about £1,500 who had gone out there third class, gone to somebody to learn a job, acted as Manager for somebody else, and then after a couple of years they had decided what they wanted to do and had taken it up. They had made god made good.

Oreastioned on the ex-service

Oceationed on the exacuries settlers scheme, Major Crowdy and he knew the land they went on but the people were not of the right sort. You had no be very mertful. It was no use sending Questioned on the Publicity Office in Cockspur Street, Major Crowdy until it had nobling to death of the country and the sending the country and the country and the country and the country and the country were not be enough, or they did were not bell enough, or they did there and were told about the country and if their resources were not big enough, or they did not seem the right person, they were told they had better not se. It was difficult to lay down a schedule of qualifications for an emigrant. He wanted sufficient capital, some knowledge of agri-culture; you show wanted a man who was a desirable colonist, and a man with intelligence.

Badly Prepared Scheme For Settlement (Continued from pace 18)

Major Ormsby-Gore, who has Major Ormaby-Gore, who has been one of the porminent ques-tioners during the sitting of the Committee, sought from Major Crowdy information on the eco-nomic condition of the erops. Answering Mr. Ormaby-Gore en prices for European-grown Kenya coffee Major Crowdy said, although he was no coffee about £70 or £80. The peak price was £150, and the fall was not so great as in other crops. He agreed the most important eron up to the present had been coffee and as regards the future ten was becoming a very im-portant one. He agreed that tea was limited to the areas of higher rainfall, while it required more labour. He agreed also that the greatest depreciation was in maire. A considerable

SATURDAY, JUNE 13, 1931

was in maire. A considerable number of the white settlers in Kenya were maine farmers. He did not know but he thought something like 14 per cent, to 20 per cent. Speaking on live-stock he said they did very wel with their stock at 9,000 fee: but when they got down to lower Stitudes they become misting of actions they became victims of tick diseases. The future of livestock depended on an export trade. With regard to sheep be trade. With regard to sheep he thought the people who had imrted merinos were doing well thought there was a great future for sheep, also in Tanga-

was inclined to hang on to his stock but he should in time make good. He agreed the only way the natives could learn was

erop to grow and the price might improve to what it had been three years ago. A man should however look to high grade erops.

Answering Sir John Sande-man Allen (Conservative) on questions of railway control.

Major Crowdy agreed that one of the advantages of putting the whole of the railway sys-tem under one management would be the utilisation of uniform material in the way rolling stock and so on.

same applied to main roads.

He thought it would be de The able to have some form of eco nomic closer union, unless is could be shown on careful examination that it would in-volve too much expense.

Cattlement Tendencies

asked the witness if he thought the native labour obtainable would stand an advance in the agricultural output Major Crowdy said he thought

the tendency would be to con-centrate on produce which did not require a very large amount of labour. He would himself ttlement.

Asked if he condemned th

Asked if he condemned the colonization system as against the plantation system he replied "certainly not", and that there was no proof at all that the plantation system had better results, although good in itself. There was a chance for selected men to go out and grow selected erops, but it was not necessarily true to may that there was a danger of a poor white popula tion coming into being, owing to men going out to work on their own account with only a very small capital. There were other specific causes, such as disease, and a man who west out with a fair amount of capital was just likely to go down in the social

gesting that the railways should be committed to a High Commis-sioner. Was he to have com-plete control of railway adminis-

Local Wedding

RELARY - TOTER

There was a large gathering of friends at All Saints' Cathedral, Nairobi on Tuesday on the occasion of the wedding of Mr. Ernest Belart, Manager for East Africa of the British-American Tolurce. Company Man. Tobacco Company, and Miss Dorothy May Tozer. The bride arrived in Kenya from England on Thursday of last week by the sa. "Matians."

The ceremony which was fully

choral was conducted by Bev. G. B. Carlisle. The bridegroom was attended by Mr J. Collies as best man.

The bride wore a shell pink satin dress, with train, trimmed with orange blossom; head dress of seed pearls and tulle veil to tone. She carried as a bouquet a sheaf of lillies. The bride was attended by Miss Betty Barth and Miss "Banty" Grogan, who wore pale green erepe-de-chine dresses in Empire style, with green turbans; and they carried bouquets of pale yellow carna-

tions.

The bride was given away by Sir Jacob Barth. After the ceremony a recep-tion was held at the residence of Sir Jacob and Lady Barth, where the happy couple were the recipients of congratulations from

recipients of congratulations from their large circle of friends. The boneymon is being spent at Limuru, the bride's going away dress being of old rose crepe-de-chine trimmed with erepe-de-chine trimmed squirrel, with hat to tone.

Whiteing vs. Van Dyk. The middleweight contest be tween Whiteing (Kenya Police) and Van Dyk (Nakuru B.C.) was one of the star items on the programme Both of these lads have been seen previously to advantage in the Kenya ring and many looked forward to their meeting.

They wasted no time as the

They wasted no time as the first round was called and got stuck into each other right away in a whirlwind scrap. Van Dyk's strong suit is in-fighting, and during the first round bore

(K. D. F.), the flyweight cham-pion of Kenya. Both lada made it willing, with Wight having the heavier punch. Coulter, however, covered up well and took most of the blown on his glores, although he had to hold one or two jabs to by neaf flips of the head or turn of the body, thus causing Value and in this Bernideshour Dyk to lose otherwise good points. As the fight went on the best of the points of the fight went of the best of the points of the fight which is left and the fact it did far more of the 1 traight left to greater advantage, and while they did out throughout the context. are, and while they did not consider the content food proposes. The content food proposes from the notice of the content food proposes, and the content food proposes from honours were easy and the content, together with the content, together with the content, together with the proposes of the content, together with the content food proposes of the content food proposes with the content food propo was successfully kept at a distance. The last round was definitely Whiteing's who thus got the decision, after a really good

> McLeod vs. Peverett. McLeod vs. Peverett.
> After the interval there was
> another welterweight contest between McLeod (Nakuru B.C.)
> and Peverett (Nakuru and
> Kenya Police). This was a most attractive contest, open boxing being the feature. The pace was rapid although little damage was done. They both possessed use-ful lefts and know how to use

ful lefts and know how to use them. McLeod had generally the better of the exchanges as he had an additional right hook in his bag. In the third round the pace began to tell and both howed signs of tiring, al-though nice lefts to the jaw were seehanged.

A splendid exhibition of box-ring week in favour of McLeod

Baidall vs. Hamer and Haner (Randall (Nanyuki) and Haner (Nanyuki) and Haner (Nanyuki) and Charles (Nanyuki) and Charles Charles Charles (Nanyuki) and Cha

welterweight hout between Uya (Nakuru) and Grant (Kenya Police) and was more willing

good boxing in the third round with that selectifie. But mixed it Replay faring the better of an interest, the selection of the favour of Hopley.

Gray vs. Finch.

Gray vs. Finch. The contest between Duncan dray (Nakuru B.C.), and Finch (KD.P.) was billed as welled specified as well as the point convard both dammed seek, other wight, but Gray was 6ths, eyes, anight is weighing in Principal Contest and the upper contest as man to the contest and the property of t magat is weighing in Finch, corners to cover up. Ura nose catchweights.

This was a mixing contest.

lowers of boxing in Kenya, while Hopley-has been frequently seen lowers of boxing in Kenya, while Hopley has been frequently seen in the ring. Hopley was giving away quite a few years, but has retained his form enough to retained his horm enoextending himself

Ellis vs. Bezuldenhout.

The last contest of the programme was between Ellis (K. D. F.) and Bezuldenhout (K. D. F.), both Nairobi lade, at in a whirlwind scrap. Van
Dyk's strong suit is in-fighting,

ANTESTIA BUG

ON COFFEE. Experiments with New Control Method

stock of pyrethrus powder in the country at the present disc. it may be neutrinosed the extraction proprietary aprays have read proprietary aprays have moderately effective, though where very high kills have been obtained with them in than usually been with the use do. a large volume with the use do. a large volume and the proprietary apray and the proprietary apray and the country and the count Serious damage is at present being done in several of the coffee districts of the Colony by Astestia. The following article by Dr. R. H. E. Pellsy, entitled have been made and most of the have been made and most of the experiments have been a com-parison of this with the pyreth-rum-navaffin mixture. Though parison of this with the pyreth-rum-parafilm mixture. Though less effective than the latter, some fairly promising results were obtained. The names of the proprietary sprays used may be obtained on application to the Senior Entomologies. The following are some of the "Preliminary Report on the First Experiments with a new Method for the Control of An-First Experiments with a new Method for the Control of An testia", and which has been re-ceived from the Department of Agriculture should be of parti-cular interest to coffee planters cular interest to coffee planters throughout the country.

First Experiment. While experimenting with the 3 gallons per sere, Duco by the experimenting with the pyrethrum-paraffin spray for the control of the Capsid bug Lygns simonyi, an account of which was recently published. sprayer, with cover, wind slight, ground not sprayed; Spray 1-lb. S.A.L. pyrethrum a 1-gall paraffin, 53 per cent. Spray Proprietary No. 1, 83 per ent. kill.

Spray Proprietary No. 2, 67
per ent. kill.

As above, but without coverSpray S.A.L. pyrethrum-paraffin, 80 per cent. kill. is still in the preliminary experi-Second Experiment.

is still in the preliminary experi-mental stage, but owing to the seriosuress of the pest at the present time, it is considered ad-visable to publish this account 3 gallons per acre, Duco sprayer, with cover, wind slight, ground not sprayed: rather than to delay it, pending further work. Spray S.A.L. pyrethrum-pare irther work.

The spray used is the same Spray S.A.L. pyreinrum-para-ffin, Average number of bugs brought down per tree 45, 50 per cent, kill, The spray used is the same as that for Lygus, consisting of the liquid produced by filtering a mixture of 1-lb, of pyrethrun, powder and 1. gal, of parafin (preferably Silverlight or Crown, for minimum scorehing of fol age). It is necessary here t

age). At m necessary acre a stress the importance of obtain ing a high quality of pyrethrum powder. The powder used in the following experiments was pro-duced from plants grown at the ot: Agricultural Scott Agricultural Laboratories and the spray produced from it has been consistently more effective not only than any proprietary spray tried, but so Loste effective than sprays made with pyrethrum powders from other sources. The quality of such imported pyrethrum has a distinguishment of the spread of the sp et bearing on the effectiveness Fourth Experiment.

of the spray.

In the experiments the spray has been applied to the tree effectively with a small size 'Filt' sprayer. This has been no less effective and conscienably more conomical of liquid then the large hand sprayer. However, the most successful sprayer, the most successful sprayer, 3 gallons per sere, Duco sprayer, without cover, wind fairly strong, ground not sprayed:
Spray S.A.L. pyrethrum-paraffin, average number of bugs
brought down per tree 45, 70
per cent, kill. which is more expensive, was the Duco' spray pistol.

Tree Covered with Sheet.

In order to prevent waste by the spray being immediately blown away from the tree, an americani sheet 2 ft. by 12-ft. was placed over the tree allow-ing it to hang down lower on the leeward than the windward side. The tree was then sprayed from the windward. The cover

serves to retain the light volatile mist for a short white. This cover was first suggested and tried by Mr. M. D. Treuch of Nexas fine, 100 per cent. kill.

Since Properties Va. 1, 56

Sports Clothes.

Sports clothes give a wide work and satin and sa

c a wide satin, and satin and chiffen. Two innition of yard-long pieces are staken, each two feet wide at one end, tap-ary wash. Since off to not more than a mitted or in the satinfaction of the satinfaction of the satinfaction of in, a point. The satinfaction of the well-etting the satinfaction of the well-etting the satinfaction of the well-etting the satinfaction of the satinfact Sports clothes give a wide scope for the combination of materials. The newest tennis frocks are made of heavy washing silk and hand-knitted or crochet-wool. The skirt part is silk, pleated onto a well-fitting hip yoke; the top is wool, made like a double-breasted wais-ceat. like a double-breatted waist-ceat, aderveless or with inset elbow sleeves. This is a very useful and comfortable shape for a cream slub tussore skirt, pleaded in panels at the sides, sold with four finest wool lace waistcoats, in white tussore, and are charm, in white tussore, and are charmed to be supported by the strength of the s

material, and loose overblouses, eut a little on Russian tunic lines, of flat creps-de-chine in the same or a contrasting shade. Or you could have plain fine wool tuck-in blouses, pleated at the The Evening.

The vogue for nower trim-mings is at its height, and here are some monestral ways of using the silk and saits belominar; on a capand-capa-set of block suits, faced with consideration of the white saits create a very man't effect, and on a hat and-carf set of deep bronze taffetts appear pale yellow roses—mader the pale yellow roses—mader to to fasten the seart in front.

materials in at leave three do-ours, if you want an up-to-date and successful toilette. Take, for example, a tunie three-plee. You will, perhaps, have a well-cut elevelar shirt of dash, navil-go a long tunie of printed blue, rose and black crepe-de-chine, and to complete the suit, you will have a fong; alim coat in dark navy fine woollen'material. That is a well-balanced three

That is a well-balanced three-piece.

Another, yersion calls for a non-piece dress made of two dif-ferent materials, the skirt and spirt of the boldlee being of dail marceain, the alseres and a V-shaped inset, yoke of creped-chlin or lace in another tone. The cost is of fine wool romain, wood marceain, or finest face love.

## Texaco Motor Oil Forms No Hard Carbon

### Forms No Hard Carbon

Here's a test anyone can make! Drop a few drops of golden Texaco Motor Oil on a hot pan. Many motor oils burn and leave a tell-tale smudge of black, hard carbon. Texaco Motor Oil leaves only a faint tracebarely visible to the eye.

The purity of Texaco, as evidenced by its clear, golden colour, means a cleaner, smoother-running engine and a longer-lasting car.

To-day, drain your worn oil and refill with the golden Texaco, the longer-lasting motor oil. Sold where you see the Texaco Red Star with the Green T.
