ANOTHER WAR STORY

Ex-Service Man and His "Saviour"
Dramatization That Got Into His Blood
There was a common error, "It was not a common error," he might have said, "because he had been in the army for so long that he had the soldier's habit of making a habit of saying 'It was not a common error'."

CONFERENCE OF COFFEE PLANTERS.

Thursday's Discussions on Co-operative Scheme.

POSITION OUTLINED.

Co-operation With London Agents.

On Thursday morning, a meeting of the Kenya Coffee Planters' Union was held in the Memorial Hall, Nairobi, to discuss the formation of a co-operative scheme for the export of coffee to the United Kingdom.

Getting the message Mr. Anderson explained that there were three forms of co-operation which coffee planters were likely to be interested in.

Co-operative farming was always the most popular form of co-operation. It would be a body of farmers who would work together on a common piece of land.

Co-operative marketing was the second form of co-operation. It would be a body of farmers who would work together to market their produce.

Co-operative processing was the third form of co-operation. It would be a body of farmers who would work together to process their produce.

It would like to mention in San Francisco, for instance, and that would probably lead to the formation of a co-operative scheme.

There was a further point in favour of eliminating London as an export, and that was that the administration of the market so much more rapid owing to the liquidation of the market.

It would be the main thing to get in touch with the London agents. It would be the main thing to get in touch with the London agents.

LAKE EDWARD MYSTERY SOLVED.

Scientists Discover Why There Are No Crocodiles.

DRAMA OF GREAT DROUGHT.

Reptiles Defeated by Miles of Dense Forest.

[Special to the "E.A. Standard" by Dr. E. B. Worthington, Cambridge, Washington.]

For some time past the knowledge expedition to the East African lakes has been a comparatively few, but it has been going on for some time in the Belgian Congo. We had a chance to go to Lake Edward, which is the largest of the lakes in the Belgian Congo. We had a chance to go to Lake Edward, which is the largest of the lakes in the Belgian Congo. We had a chance to go to Lake Edward, which is the largest of the lakes in the Belgian Congo.

The Crocodiles.

A subject often discussed and mentioned with interest in the "Times" was the absence of crocodiles from Lake Edward. George Gemmill, speaking two years ago at the meeting of the Royal Geographical Society, said that he had seen crocodiles in the lake. He said that he had seen crocodiles in the lake. He said that he had seen crocodiles in the lake.

The most reasonable way to account for this extermination is to say that the crocodiles were completely and long ago exterminated by the dense forest which has grown up on the shores of the lake. The forest has grown up on the shores of the lake. The forest has grown up on the shores of the lake.

It is almost impossible to see the water which could provide a habitat for crocodiles. The water is so shallow and so shallow that it is almost impossible to see the water which could provide a habitat for crocodiles. The water is so shallow and so shallow that it is almost impossible to see the water which could provide a habitat for crocodiles.

Depth of East African Lakes.

Another question which has come to light is that Lake Edward is the deepest lake in the East African lakes. It has been found that Lake Edward is the deepest lake in the East African lakes. It has been found that Lake Edward is the deepest lake in the East African lakes.

POSTAL RATES IN KENYA.

Protest Against Increase.

That they fall more heavily on the commercial community of Kenya than on any other class, is the opinion of the members of the increased postal rates indicated in the Kenya Gazette. A meeting of Nairobi Chamber of Commerce and Industry was held on July 15th for the purpose of protesting against the proposed increase of postal rates. The meeting was held on July 15th for the purpose of protesting against the proposed increase of postal rates.

Fish.

Lake Edward and George and the Katanga channel which form the two ends of a unbroken fishery of very considerable extent. The fishery is of very considerable extent. The fishery is of very considerable extent. The fishery is of very considerable extent.

The Reduction.

In order to make this resolution, it is necessary to reduce the amount of fishing being carried on in the lake. It is necessary to reduce the amount of fishing being carried on in the lake. It is necessary to reduce the amount of fishing being carried on in the lake.

THE ROBBY CODE.

Two Matches in Nairobi on Saturday.

Monday's first cricket service in a District Championship match was Saturday at Parklands by two lines of football to sell. At one time it was open to doubt whether there would be any, as it was clear that the match would be a success for the players, play behind the screen what was produced. There was nothing about it, and although Monday's sport was not the best of times in that opponents' field, the only more late was two scrappy batsmen.

As cricket service played with only fourteen men great credit was due to them for the way in which they overcame the opposition. Their forwards fought gamely all the time, Taylor being very prominent in the house, while Galt and Murray were getting through any amount of solid work in the field.

Football Improvements. It is difficult to give an account of a match such as this, when conditions are so dry, and the ball is so heavy and so badly formed. Scores are not so high as in former times. The scrumming in Nairobi is getting to be improved. In the scrum half were made to put the ball in down the center line formed. It would also be better for the game as a whole if those who played in knew the value of it. In taking too much of the system of the various sides that to return to Saturday's game, I thought O'Connell played well for Monday's service, and supported in loose rushes by Galt, Galt and Tannahill. Galt, while Myers had little to do, but he found touch well when necessary. The loss to do, but he found touch well when necessary. The loss to do, but he found touch well when necessary.

STANDARD STATIONERY STORES Nairobi

CORRESPONDENCE.

THE RAILWAY DOES NOT ACCEPT RESPONSIBILITY FOR THE TROUBLE EXPRESSED BY THE PASSENGERS IN ALL CASES, THE COMPASSING A LETTER, NOT NECESSARILY THE GUILT OF THE PASSENGERS, BEING THE FIRST CONSIDERATION.

RAILWAY PUNISH.

To the Editor:—"E.A. Standard." Sir—We have now had further notice and consider the Railway and it is obvious that for the railway to be held responsible for the inconvenience is too onerous if the Railway is to be held responsible for the inconvenience of practical difficulties, coming from the General Manager and the Railway Council to effect such reductions, practically all the passengers are made aware of such reductions, retrenchment of staff and increase of freight rates. Such methods are, at least, only temporary expedients and do not solve the trouble permanently. To insist on the Railway accepting the method of doing things and to insist on the Railway to overcome the difficulties by better organisation which can only be done by the Railway.

To the Editor:—"E.A. Standard." Sir—I have read with interest and pleasure the article in your issue of the 12th inst. in regard to the railway. I am glad to hear that the Railway Council are so anxious to do their work in the best way possible. I have no doubt that they will be successful in their endeavours. I have no doubt that they will be successful in their endeavours.

FISHING RIGHTS ON LAKE NAIVASHA... Mr. Colonel Dutton, the official Member of Legislative Council for Kenya...

As the Government must have spent a large amount of public funds in stocking the lake, the Government should endeavor to make this investment secure...

Black fish are being taken in the lake... Several tons have been reported to be taken...

It is possible that all fishing should be stopped at once... And all persons engaged in it should be given the opportunity to state their case...

It seems regrettable that the "Standard" in Nairobi to be given to the public... It is not a fair share of the sport on this large lake...

These views are being published as they are being stated by Messrs. Brown and Blackie... It will be noted that the report is from Lake Naivasha...

The Government established the "Fishery" in Nairobi to be given to the public... It is not a fair share of the sport on this large lake...

The "Standard" understands that the whole question of fishing rights on Lake Naivasha is to be finally decided by the State Department and will be settled on a basis relating to the public good... Ed. E.A.S.

A TROUBLESOME OFFER... Mr. "E.A. Standard" writes: "I thought your newspaper would be glad to publish the letter I am certain that you would be glad to publish the letter in the Colony...

It is not a fair share of the sport on this large lake... The Government should endeavor to make this investment secure...

It is possible that all fishing should be stopped at once... And all persons engaged in it should be given the opportunity to state their case...

DAKETY & COMPANY, LTD. LONDON

LADIES' FASHIONS.

A Letter from Paris.

London, which I would have thought a refuge for those who only want to wear the latest fashions.

Afternoon Frocks.

The small little frocks to wear with or without shoes, the simple tanks of the new variety. Some had very low necks, others had high, the chief of the moment being madras, which is soft and light, and tailored beautifully. They were worn in stripes, spots and ivory effect, and there were also some of the new crepe-de-laine and percale-d'Inde.

When a frock is to be worn over a long coat, black, blue or grey is a shrewd—if not a safe—idea. When a coat is added, the dress made of light-colored material is better.

When a frock is to be worn over a long coat, black, blue or grey is a shrewd—if not a safe—idea. When a coat is added, the dress made of light-colored material is better.

The new evening gowns always has a waist or low-length top, and the skirt is very full, but the new used material. It is easy to see that the dress will be worn with some shawl or wrap, and the skirt will be worn over all.

They are made of printed crepe or made of crepe-de-laine, and are worn over the frock. This is rather new, and is a new idea. The new treatments on the frocks. Some are made of light-colored material, with the pattern they are shaded in black, blue or grey. Some are made of light-colored material, with the pattern they are shaded in black, blue or grey.

COLLIER BOUFE.

SERIOUS WHEAT POSITION.

The meeting of growers held in Nairobi yesterday was one of the most important in the history of the wheat industry in Kenya. It is the first time since the war that the growers have met to discuss their position and to make arrangements for the future.

The meeting was held in Nairobi yesterday, and was attended by a large number of growers. The meeting was held in Nairobi yesterday, and was attended by a large number of growers.

HEAVY SELLING BY AMERICA.

The American Farm Board, which has been set up to stabilize the price of wheat, has been selling wheat in large quantities. This has caused a sharp decline in the price of wheat.

The American Farm Board, which has been set up to stabilize the price of wheat, has been selling wheat in large quantities. This has caused a sharp decline in the price of wheat.

KENYA AND UGANDA'S EXPORT.

The Kenyan and Ugandan wheat exports have shown a steady increase in the past few years. This is due to the fact that the weather has been very good, and the crops have been very good.

KABAA—THE STORY OF A CATHOLIC MISSION.

A Training Ground for African Teachers.

ESSENTIALS OF CHARACTER.

Manual Labor a Preliminary to the Higher Flights.

By A. Stander Speyer.

"I am writing to you an approach from Kenya, but I wish to thank you for the letter which you have sent me. I don't give up hope." It is the words of a young man, a student at the Catholic Central Training School, Nairobi, who has just received from you the good fortune to visit him at one of the schools, which is 10 miles from Thika, in the Wakamba Reserve, and almost the last outpost of civilization in the East African continent.

This is a fresh education in the history of the world which is the first time in the history of the world that a man has been able to do this. It is the first time in the history of the world that a man has been able to do this. It is the first time in the history of the world that a man has been able to do this.

originated from the side of a hill-side. The view across the valley is a magnificent one. The building is a simple one, but it is a very good one. The building is a simple one, but it is a very good one. The building is a simple one, but it is a very good one.

His Help.

Father Witte, arrived at the mission station at the end of 1912, and built a simple collection of mud-huts. Although these buildings are still standing and useful, they are now covered with vines. In 1927, the missionaries began to replace them with permanent buildings. The mission station is now a very good one. The mission station is now a very good one.

Language Problem.

The language difficulty—now a very serious one in Africa—is a very serious one in Africa. The language difficulty—now a very serious one in Africa—is a very serious one in Africa. The language difficulty—now a very serious one in Africa—is a very serious one in Africa.

The Building.

The most important building at the mission is the school. The school is a very good one. The school is a very good one. The school is a very good one.

after this period of preparation. The school is a very good one. The school is a very good one. The school is a very good one.

Simple Reminder.

Father Witte tried to introduce the school at the beginning. He tried to introduce the school at the beginning. He tried to introduce the school at the beginning.

His Work.

As the field—particularly African—was a very good one. As the field—particularly African—was a very good one. As the field—particularly African—was a very good one.

Loss of Inspiration.

Perhaps the greatest hindrance to a native teaching mission is the loss of inspiration. Perhaps the greatest hindrance to a native teaching mission is the loss of inspiration.

KARAA—THE STORY OF A CATHOLIC MISSION.

Motive Power from Charcoal Gas.

Successful Experiments by Kenya Inventor.

By The East African Standard.

Of May 11 was published an account of the successful experiments by a Kenya inventor. Of May 11 was published an account of the successful experiments by a Kenya inventor.

To Much Instruction.

"Our effort is to try to make the school a very good one. Our effort is to try to make the school a very good one. Our effort is to try to make the school a very good one.

Problem Ties in Kenya.

Meanwhile, so far as Kenya is concerned, he was left the final word. Meanwhile, so far as Kenya is concerned, he was left the final word.

CONFERENCE OF COFFEE PLANTERS.

(Continued from page 47) grading and the best way of affording the members' collection of being into the operation of developing credits and that the floor be not closed by further developments.

This session of reference was a one on the spot and on the morning of the 21st of July, 1951, a further, grander and a rather more important session was held at the same time.

At this stage the meeting was opened in the usual manner by Mr. G. H. Yonke, who presided over the purpose of discussion, as well as the other members of the Association. A comprehensive report was given by Mr. J. H. G. O'Connell, who presided over the session without delay, and the meeting closed at 11.30 AM on the 21st of July.

An Amendment.

Mr. Graham Bell moved as an amendment: That the meeting consider that it is essential that any co-operative association of producers should be on the best terms with the trade, and one of the first objects, therefore, should be to co-operate with all selling agents...

£1,000 will pay the legal personal representative of the testator holder of this Coupon in case of his death or shall pay the same to a nominee within Kenya Colony, Kenya Protectorate, or elsewhere, if the testator or policy holder be dead or shall have died, and shall be a limited donor giving no public favor in which the holder is interested as a citizen-holder or foreign-born passenger.

£1,000 in the holder should such accident so above stated or prove fatal, he shall be the law of two lives for actual or prospective share of the estate of the testator and irreparable loss of all rights in both eyes; or

£500 in the holder should such accident occur upon the loss of an eyebrow of the right in one eye or the loss of eyebrow of one eye only.

Provided always understanding in respect to the following special conditions, which are of the essence of the contract, viz:—

- (A) That such death or loss result within thirty days after the date;
- (B) That the policy holder shall, prior to the accident, have written his full name and address on the above provided underhand and shall have a complete copy of contract issued of the "East African Standard," containing the signed Coupon-forms upon Ticket on his file heretofore at the time of the accident; (c) that notice in case of injury given to the African Guarantee and Indemnity Co., Ltd., at the principal office, corner of Market and Becho Streets, Johannesburg, or to M. D. Kempf, Agent, Corner Chamber, P.O. Box 85, Nairobi within seven days after the accident, and in case of death within fourteen days after the accident; and (d) that the insurance applies only to persons over twelve and under seventy years of age, to be limited to one Coupon Insurance Ticket associated with this or any other policy to be used on his life and held for five years from 3 a.m. on the day of loss. The insurance applies to the holder in the hands of and is subject to the conditions of the Policy of the African Guarantee and Indemnity Co., Ltd., issued so far as the same are stated in the terms and special conditions above stated.

Those who subscribe in the way mentioned above are not required to sign the coupon or carry a copy of the contract issued of the "East African Standard" between the times of registration by the Policy of their subscription, provided that they preserve the Policy's acknowledgment.

Readers who wish to become subscribers may do so either by parting quarterly, half yearly, or yearly advance to the "East African Standard" Office, Sixth Avenue, Nairobi. Signatures of Editor.

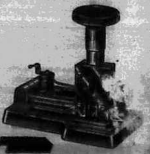

Date of Issue: 1st Aug. 1931. The holder of a year or advantage ticket, travelling as a passenger in a steamship, is permitted to take the coupon with him. SUBSCRIBERS NEED NOT SIGN COUPON WITH CAREY PAPERS.
