THE REPUTATION OF REPARATIONS.

More Recent Than Ever for Lausanne Conference.

PREMIER'S VIEW.

A Unique Opportunity for the World's Statesmen.

The Prime Minister considers that the German Chancellor's declaration on reparations, which was not altogether unexpected, makes the Lausanne Conference more than ever necessary.

A general view in Britain is that the opportunity is afforded for statements of the interested Powers to show their collective wisdom by a complete cancellation of war debts and reparations.

While the United States Congress has voted against such a course, there is no doubt that many informed Americans favour it, believing that the trade boom which is confidently thought would result, would more than compensate America.

STRONG RESOLUTIONS.

"Government by Agreement" Stated to be a Mistake.

(THROUGH REUTER'S AGENCY.)

It has been decided by the Executive of the Convention of Associations that the next session shall open at Nairobi on March 8 next at 10.30 a.m. Resolutions are expected to be adopted on or before February 8.

A number of resolutions have already been submitted from certain Associations, indicating strong criticism of the present political situation.

One resolution from the Lessors Farmers' Association regrets the weak standpoint of the Elected Members during the Budget debate. It also expresses the opinion that "Government by Agreement" is a mistake, and urges a stronger policy of resistance towards the Government.

Objection is taken to any form of further taxation in the Colony on the ground that the present incidence of taxation is too high.

At a meeting of the Executive of the Convention of Associations held on December 11, 1951, the following resolutions were adopted:

The Executive is of the opinion that the Government is conducting the matter further at its own cost.
