A COUNTER-MEASURE AGAINST THE AUSTRO-GERMAN CUSTOMS UNION.

Discussions are going on behind the scenes at Geneva on a plan put forward by France for the creation of an economic bloc in Central Europe. The main feature is a scheme of mutual preference tariff rates embracing a number of Central European countries.

These proposals are believed to be a counter-measure against the Austro-German Customs Union.

### Syncro - Mesh Gear Shifting

The transmission unit of the 1932 Chevrolet has been designed to meet the needs of modern-day traffic. In practice it automatically permits even the most inexperienced driver to shift gears smoothly and noiselessly. No longer is there any need to fear the criticisms of your fellow-motorists, just push your gear-lever straight through from top to second and you will find that your change has been made absolutely noiselessly because with Syncro-Mesh.

YOU CAN'T CRASH YOUR GEARS.

LAIKIPIA SETTLERS' ALLEGATIONS AGAINST GOVERNMENT.

Convention of Associations adopted on Tuesday as comprehensive resolution criticising the Joint Committee's doubts concerning the success of white settle-ent in Kenya.

Convention pointed out that the economic results alone justified the belief that the experiment of white sense in the belief that the experiment of white states in meeting the country's financial commitments was increased European enterprise.

this connexion allegations were made that Government was attempting to turn into a native area a large part of the district of Laikipia promised for white settle-ment as long ago as before the War.
