Limiting Powers of Uganda Courts.

LAWYERS DENOUNCE NEW BILL AS UNCONSTITUTIONAL.

British Birthrights.

TURNING ADMINISTRATIVE OFFICERS INTO SECRET APPEAL COURTS.

The Law Society of Uganda have laid before the Legislative Council a petition objecting to the terms of a new Bill introduced by Government which would remove the native courts from the present judicial structure, make them part of the administration, abolish the right of appeal to the High Court, and the Courts of Appeal that participate in a system of appeal through administrative officers to the Governor.

The Bill described as "an attempt, not only to check the increased importance of the Judiciary but very definitely and drastically to curtail the powers and jurisdiction they have at present exercising... and to give the Executive much greater powers than they had prior to the establishment of the courts in Uganda."

The Bill has not been explained to the natives (apparently the Buganda Provinces and the Kabaka objects) and the Law Society maintain that the Government has no right to deprive the Africans of the birthrights of British subjects.

Employment of Counsel Barred.

Some years ago during the Government of the Donald Cameron, the Government of Uganda, in the interest of economy legislation which defined a revolutionary change in the judicial system in the Uganda Territory. It was to be set up as a judicial system which was self-contained and self-sufficient in nature. Some were placed in the hands of the Governor. A fixed number would be made from lower posts and a few from the High Court of the Territory.

The Brain of the East African Native.

9 PER CENT. LESS "MIND" BUT 6 PER CENT. MORE INSTINCT.

Comparison with European.

KENYA DOCTOR'S RESEARCHES STARTLE THE BRITISH PRESS.

The fact that Africans have 9 per cent. less "mind" but 6 per cent. more instinct than Europeans has started the English Press and medical opinion into a discussion of race and brain power in relation to East African policy, particularly education.

At the end of March a number of British newspapers devoted special articles to comments upon the results of recent research in Kenya and arrived at the general conclusion that although brain measurements may not be taken humanity very far in making starting points this emotional assertion.

It is commonly recognized that further research is necessary and that the results should be of great value to Colonial Governments.

The "Yorkshire Post" declares that the human family has higher "abovate" values than any other and the African brain may equally be superior to the European in its practical adaptation to local problems.

More Research Needed.

Dr. J. H. Rees, of the Kenya Institute of Education, has written an article in the "British Journal of Psychology" which has attracted the attention of the "Daily Express" and the "Daily Mail". The article is a study of the "Brain Power" of the East African native and is a study of the "Brain Power" of the East African native and is a study of the "Brain Power" of the East African native.

DEPUTATIONS TO THE GOVERNMENT.

Owing to the resignation of the Chancellor of the Exchequer, Mr. Neville Chamberlain, the duties on an offer imposing the new import duties recommended by the Tariff Advisory Committee has been postponed. Meanwhile, a deputation representing the textile industry, headed by Mr. Stanley J. Bayly, was the possibility of imposing duty on imported textiles, goods higher than the 20 per cent. proposed by the Advisory Committee. He advised them to take their grievances to the committee and arrangements were accordingly made.

George's Day Dinner at Mombasa.

GOVERNOR CHIEF GUEST AT ENJOYABLE FUNCTION.

The Turning Point?

H.E. BELIEVES WORST OF THE DEPRESSION IS PAST.

The Hon. the Governor was the chief guest at the annual dinner of the Mombasa Branch of the St. George's Society of the late afternoon.

Addressing the guests Sir Joseph Byrne expressed his belief that the worst of the economic depression would be observable a return of some life in the land there and that there would be some increase in production of merchandise at present so abnormally low.

The Speeches.

Mr. Cresswell (Mombasa) (by invitation) said that the St. George's Society had been formed in 1825 and that its object was to assist the poor of the district. He stated that the Society had for many years been successful in its efforts to relieve the distress of the poor and that he believed the worst of the depression was past. He then read a paper on the "Mombasa Branch of the St. George's Society" and after discussing the work of the Society for the year he proposed a vote of thanks to the Governor.

He then read a paper on the "Mombasa Branch of the St. George's Society" and after discussing the work of the Society for the year he proposed a vote of thanks to the Governor.

Why Buy Your House Half a Dozen Times?

Your year after people go on paying high rent for their houses, until the property has been purchased outright and over again. When rents fall then they hand over the money without bringing themselves any more to ownership.

- REMEMBER -
You can have your own house built to your own taste, planned by an architect. Every time you pay that rent you are coming nearer to complete ownership of the property.

SAVING COUNTRY CRICKET.
Conditions for Grave Anxiety.

THROUGH THE WITNESSES FACTOR.

In the first-class cricket world, it is a question of how to play, to think and to be answered only one way. That is to play to the best of one's ability, and if one is to play to the best of one's ability, one must play to the best of one's ability.

More Modern Requirements.
Kings' mode of affairs cannot be viewed with equanimity, although we have the historical record to support us largely regardless of the conditions which were in effect this year, and so on. Unhappily, however, the conditions which would be the result of a constructive policy in the future, would have to do with our share of the game and our share of the game.
