CHAMPIONSHIP RUGBY MATCH

Railway Battalion at
Nairobi.

SPORTING TAUGHT UPON HOMEKEEPERS.

Muthiga had a runaway steed over Holloway in a Nairobi race. The horse was from the former's ground last night. The horses that took the field with the best chance were the ones that had been trained in the home of Mr. Muthiga. He is a breeder of thoroughbred horses, and in his opinion, if we are only taking two such animals, we might as well let them go. If we are going to have a race, then it is surprising that they would not be trained. They would not be trained because they owned their horses, and the horses were not worth more than four hundred francs. It was a good horse, but he was not a spelling buster rather than a racing animal. He was not the first best, but they were not in the racing period, when they galloped on the track for 1000 yards.

Muthiga played well, and he was not the best. He was not as much a forward as a runner, and he was not as fast as a runner. The letter is a horse and seems to go on through the field.

The winning horse was the one that won the race. It might have been there was also a horse that had a better chance. These three headed the annual play of the racing season as a whole, that kept coming up in the racing period. The first was the second. Muthiga was clever, and he was not the best. He was not the best.

The third was the best.

Muthiga had a great start at the beginning of the race, and he was the best.

Oiling and Greasing of Cars.

It is a great pity to let a car go on cracking and squeaking it's way through life, when by laying out a few shillings, you can have it back to a perfectly quiet and efficient state, by being oiled and greased all over by our new high pressure plant.

Two tips are available, so there is no need to wait and the expert suggestion we have, get the full value for your money and we guarantee our work.

Bring your car in regularly to have work carried out and you will be surprised how much better it will run and have much quieter and smoother. A car is to drive that has been properly looked after.

PASSING OF LORD BRUNSWICK

(Continued from page 1)

corded hand was thrown a little back, head slightly forward, and while every limb was still, only his eyes moved, showing a look of quiet determination and a faint smile of contentment. Lord Brunswick had been a man of integrity, who was ever troubled by the fear that when he saw a man of ill repute, he would be compelled to speak his mind. He was, however, a man of great honour, had built his own side of the argument, and was recommended to the Governor by Sir Edward Mountbatten.

Lord Mountbatten has asked the Governor to make arrangements for nomination. Mr. Cooper is in an interview with the Governor at the moment, and will give him information in order to what extent the nomination will be accepted. Two letters published in the "Standard" yesterday criticising the Government's handling of the case have been referred to the Governor by Sir Edward Mountbatten.

INDIAN INFORMAL ELECTION

Congress Reply to Criticism

The H. R. Federal National Committee, through one of its John W. Stenhouse, Senator from the state of North Carolina, has informed Congress that he has been approached by his constituents and a group of prominent citizens concerning the proposed legislation to prohibit the importation of Indian goods.

Mr. Stenhouse has advised the Congress that he has been approached by his constituents and a group of prominent citizens concerning the proposed legislation to prohibit the importation of Indian goods.

THE MOTOR MART

and Exchange, Ltd.,

Mombasa, Nairobi, Nakuru, Eldoret, Tanga, Dar es Salaam.

Oiling and Greasing of Cars.

It is a great pity to let a car go on creaking and squeaking it's way through life. After laying out a few shillings, you can get it brought to a point where it is efficient state, by being thoroughly oiled and greased all over by our new high pressure plant.

Two lifts are available, so there is no need to wait and have expensive services we have, because the price is left untouched. You get the fullest value for your money and we guarantee our work.

Bring your car in regularly to have this work carried out, and you will be surprised how much better it will perform and how much quieter and pleasanter a car is to drive that has been properly looked after.

THE P.W.D. COMMITTEE
OF ENQUIRY.

(Continued from page 1)

the mafikis maintained each year the cost per head and how these were spent.

"It is my opinion that during the period of the enquiry there was no improvement both in the head count and in the amount of food per head of staff."

In a concluding paragraph in his report, Mr. G. H. Clegg, the P.W.D. Commissioner, gave the following recommendations:

"That a new and more systematic approach be made to the improvement of new posts and also in the training of existing posts."

He quoted evidence that the P.W.D. Engineer states that he prefers to have a detailed working knowledge of the work he is to do before commencing it.

The Director of Public Works has stated that he would prefer a detailed working knowledge of space in a detailed and systematic manner before he could make any suitable undertaking by contract.

The P.W.D. Commissioner, in his review and while referring to the question of posts, said that, with regard to the present staff, he considered that the best course would be found in making a systematic approach to the organization of our road works, any part of the Colony.

A Tribute.

"The present Head Engineer, Mr. G. H. Clegg, has given excellent service to the Department having remained with us during the difficult period when, with one or two exceptions, we had to start from scratch in the construction of the Kerey, from personal observation and from the reports of others, the engineer has done the best he could have done under the circumstances involved in road construction and maintenance on this scale. He has done a great deal which has yet to be done and which will be done in the course of his examination by the Committee. His services to the P.W.D. were sound and that he had a good group of men."

Water Branch.

In the Water Branch all management and administrative services are dealt with by the P.W.D. Engineers who also deal with the Water Works.

Although it appears that the Water Law, although it applies to the whole Colony, is administered by the Committee to all parts of the Colony, the Water Law is administered by the P.W.D. Engineers and it is their duty to see that a due care is exercised in the carrying out of its provisions.

It is the opinion of the Committee that the Water Law has been administered well and that the Committee has done a good job.

It is to be remembered that the Water Law has a more general application than any other branch of the P.W.D. and it is not possible into the internal affairs of the Colony to give any recommendations submitted to Government."

In a final paragraph the Director of the P.W.D. said:

"It is to be remembered that the Water Law has a more general application than any other branch of the P.W.D. and it is not possible into the internal affairs of the Colony to give any recommendations submitted to Government."

Changamwe Reservoir.

On the constructional side, nothing can be made by the P.W.D. Engineers to add to an error in structural design or to any other fault in the construction of the Changamwe Reservoir, with its consequential loss to the Colony; and to the delays and

inadequate arrangements not to keep in view the fact that the water was mounting in new gravels and that the water was rising.

In their investigation the Mafikis Water Works they found satisfactory although they recommended that a new post be created of Head of Quantities.

In a concluding paragraph in his report, Mr. G. H. Clegg, the P.W.D. Commissioner, gave the following recommendations:

"That a new and more systematic approach be made to the improvement of new posts and also in the training of existing posts."

Oiling and Greasing of Cars.

It is a great pity to let a car go on chugging and sputtering it's way through the streets, when by laying out a few shillings you have got it brought back to a perfectly quiet and efficient state by being thoroughly oiled and greased all over by our new high pressure plant.

Two lifts are available, so there is no need to wait for your car to be repaired. We have ensured that no point is left untouched. You get the full value for your money and we guarantee our work for one year.

Bring your car in regularly to have this work carried out and you will be surprised how much better it will perform and how much quicker and pleasanter a car is to drive that has been properly looked after.
