CANCELLATION OF WAR DEBTS AND REPARATIONS.

A Hopeful Outlook.

FRANCE EXPECTED TO ACCEPT PROPOSAL WITH CERTAIN RESERVATIONS

re is a more hopeful outlook for the Lausanne Confer-ence as a result of the week-end discussion between the British and French Premiers at Paris.

It is believed that France may accept the British proposals for the complete cancellation of war debts and repara-tions, provided that the principles of the contracts are upheld and that America also agrees to the cancel-lation.

Mr. Ramsay Macdonald will, it is stated, attempt to meet the French view by proposing the handing over by Germany of railway bonds in final settlement of her obligations. It is considered that Germany will accept this for the sake of reaching finality.

Buy Goodyear Tyres. Don't take our word for it. Take the public's. The public knows. The public USES tyres all makes. And the world over, the public buys-out of its experience with all tyres-more

iyears by millions than any other make. And this year, when you buy Goodyear Tyres-you get better tyres, greater values than ever before.

You get 10 per cent. extra thickness in the famous All-Weather Tread-extra wear, extra safety, extra puncture protection. You get the superior vitality of Supertwist Cord in the carcasstesting up to 6) per cent. greater elasticity than the cord used in other tyres. You get mileage averaging 30 per cent, greater than heretofore—the most for the money ever built into tyres.

Is there any wonder then, that " the world over more people ride on Goodyear Tyres than on any other make ?"

BUILT WITH SUPERTWIST CORD ... exclusive to Goodyear

The rugged and powerful Goodyear carcass is made of extra-cles Supertwist Cord, which stretches up to 61 per cent, more than coused in other tyres. In continued fiexing or sudden road she stretches and recovers like a rubber hand, where ordin a tendency to fatigue and snap. Ask your Goodyear and explain the superiority of Supertwist Cord.

brisk gosisk Reparations and Disarmament.

PROMISING PRELUDE TO COMING CONFERENCES.

cording to the optimistic tone of an official communique seused in Paris, considerable success has attended the nehimary discussions between the British and French Premiers, as a result of which practical results are expected from the Lausanne and Geneva Conferences.

chief subject under discussion was that of reparations, and it is believed that France has agreed that an actension of the moratorium to Germany is inevitable, and will agree to such an actension provided the United States adopts a similar attitude towards her European dostors in regard to war debts.

regard to disarmament, France is also believed to have veered round towards the British idea of a military holiday.

Ramsay Macdonald in a statement to the Press said that they were determined to reach decisions at Lausanne which would remove for good many of the economic troubles of Europe.

PITILESS SERIES OF EXAMINATIONS BY THE POLICE.

The general opinion in America is that the suicide of Vielet Sharpe, the young English maid employed by Mex. Dwight Morrow, Col. Lindheigh is nother-in-law, was glovoked by pittless "third degree" methods of the police. She was suspected of having a guilty knowledge of the kidnapping of the Lindheigh baby, but the case against her subsequently broke down.

Her employer stated that the girl became more nervous at each police examination, and she added that the "poor girl was simply frightened to death."
