PROHIBITIVE DUTY WILL BE PLACED ON BRITISH PRODUCT.

Irish Free State Government's plan to stop the importation of British coal by dieans of tariffs has failed. The coal merchant state that it is cheaper in Long the better duty, rather than buy e long run to pay the extra duty rather than

has prompted Mr. de Valera to warn the merchants that unless they buy from the Continent, he will apply a prohibitive fariff on British coas. | The gas companies have warned the dovernment that they will have to increase their prices unless British coal is well and the continuous transfer of the continuous transfer o

tariffs are being successful in other directions, how-ever, as two British chocolate firms are building factories in Dublin in order to avoid the duties.

ing a debate in the Senate, the Postmaster-General said that Mr. de Valera's ultimate polley was an Irish Republic embracing the six Northern counties. This polley would remain until it was achieved.

#### THE PUBLIC PAYS THE PIPER.

And Will Insist on Calling the Tune.

The "East African Standard" launches to-day an economy campaign. The campaign is directed against the imposition of further taxtlen in any form until the country is completely satisfied that all possible economies in Government expenditure have been effected.

After three years of steadily deepening depression caused by falling world markets and aggress and by the increasing depressions of locates, no further revenue in the form of taxation can be extracted from the community without arisent weakening the country's resuperative capacity.

Only when it has been demonstrated to the satisfaction of the people of the Colony that all necessary economies, have been carried oot, even at the cost of many desirable and normally executial services, will there be a general willingness to bear additional sacrifices represented by an illercise in traction.

Below appear comparative figures showing the revenue and expenditure over a decade. It will be sent that the cost of Georemment has increased from \$2.17, 622,56 192, to \$3,38,477 (estimated) (in year. The high water mark of expenditure was reached in 1929. EVIDENCE TAKEN AT THIKA.

The Ukamba Reserve.

UNECONOMIC METHODS IN DEVELOPMENT OF COUNTRY.

The Kenya Land Commission commenced its enquires on Friday, when evidence was taken at Thike. After a private sitting at the District Commissioner's Office, a public session took place at the Thika Club, where three local settlers, including the member for the district on Legislative Council, gave evidence.

The evidence chiefly concerned the Ukamba reserve, and the necessity or otherwise for extension. The general opinion of the witnesses was that at the present time the land in the reserve was not used to its best
