The meeting at the Memorial  
Hall, Nairobi, today will give the  
public an opportunity of learning  
how the Kenya Tourist Board  
is planning to increase its business  
and what it hopes to accomplish  
in the next few years. The  
Board, which was formed in 1947,  
has been a great deal of success  
in its efforts to develop the  
tourist industry in Kenya. It

# The Economic Side of Agriculture.

## A RECENT DEVELOPMENT IN THE COLONY.

### Production Costs.

#### INSPECTOR STRESSES THE NEED FOR EVERY POSSIBLE ECONOMY.

One of the most interesting developments in the Kenya Department of Agriculture during 1913 was the attention which has been given to the agricultural industries of Kenya. Considerable attention was given during the year to the production of the colony which previously had been imported. Partly as a result of this, the value of imported foodstuffs declined by nearly a third as compared with the previous year.

The Director of Agriculture emphasizes that with the increasing severity of the struggle for economic survival an avenue of economy must be left unexplored by the farmer. The possibility of establishing a factory for the manufacture locally of condensed milk is suggested.

### Another New Industry?

Some and though following the usual report for the year, the Inspector stresses the need for every possible economy. The need for a considerable amount of manure has been pointed out. It is suggested that a factory for the manufacture of condensed milk be established. The Inspector stresses the need for every possible economy. ### Field Investigations into the

Field investigations into the condition of the soil in various parts of the colony were conducted in the Kilbury Reserve. The results of these investigations are being used for the purpose of determining the best methods of soil cultivation. The Inspector stresses the need for every possible economy. The need for a considerable amount of manure has been pointed out. It is suggested that a factory for the manufacture of condensed milk be established.

BUICK CARS

The most up-to-date feature in any modern car, which is the ability to control the action of the shock absorbers from the dash, is to be found on the latest Buick models.

The riding of the car can therefore be immediately adjusted to any condition of road surface, in like, and a tremendous advance on the old form of compromise that had always to be adopted between the other having very slightly on smooth roads and with much greater effort when traversing rough and corrugated roads.

At the wheel of the world's most popular car

very modern improvement is at your command  
 You and your friends have made Chevrolet the most popular car in the world. For you are the people who have always appreciated Chevrolet's fine performance. To you are dedicated the most modern driving improvement of the 1934 Chevrolet. Now you have the dynamo, new gears on your Chevrolet. You don't start the motor as you start up and progress to high speed or change gears at once. Changing is always effortless, without clutch. These new things have happened to the Chevrolet motor. Although it is so large and still an economical, it is more powerful.

puts you away quicker and maintains a higher speed. And it delivers low speed power, you take hills easily. And here is the "free wheeling" thrill of coasting. A touch of a button and your car glides on momentum when the motor idles, ticks up speed the instant power is applied. The constant safety of the clutch safety, it permits you to change gears without touching the clutch. These and many other improvements make the new Chevrolet a joy to drive. Why not get the joy of a trial drive without the slightest obligation.

Thoughtfulness and Appearances. A FEW DODGY IDEAS.

It is an obvious fact that the golfer who plays the game with a little knowledge of tactics is bound to be more successful than the one who does not.

There are many things which a golfer should know about the game, but the most important of these are those which relate to the etiquette of the game.

John Beyer Cup. The final of the John Beyer Charity Cup will be played today on the ground of the Commercial Club, when Railway will oppose the Y. M. C. A.

On their eleven-day against the Civil Service on Wednesday evening, proving that they are no less keen on the field. It is quite possible that the game will be a very good one.

The Y.M.C.A. have a fast young forward line, but their front line should have a shot more often than they do, for the sake of taking the ball so close to the field. It is quite possible that the game will be a very good one.

Brookly, in Clow and Brooks, has perhaps the best pair of backs in the group today. Brooks is expected to start at all costs, while Clow always endeavours to place the ball in advantage.

Brookly, who played centre for the Civil Service last Wednesday evening, was one of the best players on the field. It is quite possible that the game will be a very good one.

There are few easier ways of winning than by playing the last few yards for the Civil Service last Wednesday evening, was one of the best players on the field. It is quite possible that the game will be a very good one.

Brookly played a sound game at right half for Berens. A good player, he has set to learn the art of back kicking.

The best ground which ever existed here is expected to be a very good one. It is quite possible that the game will be a very good one.
