"They say Chevrolet has become
the world's most popular car"

"YES BUT THAT'S
ONLY ONE OF THE
REASONS WHY I
BOUGHT IT."

In the new 1928 Chevrolet you find the
latest models of the car that has won the
heart of the world, leading all others
in sales.

At the curb you will admire their smart
modern beauty. On the road you will
marvel at their effortless control, the
easy smoothness of performance, and the
luxurious comfort with which they ride.

Every modern improvement is at your
command. Increased power, cushioned
spring vibrations. The victory smoothness
of the famous synchro-mesh gear
shifting. The thrill of coasting along on
momentum whenever you wish—con-
trolled by the touch of a button.

Truly 1928 Chevrolet values are unparal-
leled. They are carrying Chevrolet to
greater popularity than ever.

Native Agriculture in Kenya

THE EAST AFRICAN FRIDAY, 1935

THE "WAV" IN THE HIGHLANDS

IMPROVED FARMING REPLACES THE DEMONSTRATION PLOTS

Improved Marketing Methods

SMALL HOLDINGS THE REMEDY FOR DEPLETION OF SOIL FERTILITY.

During 1931 considerable progress was made in the development of native agriculture in the Reserve. It is the policy of the Department of Agriculture to encourage the farmer to improve his land. Deputy Commissioner outlines the work to be done.

The old system of a large number of small demonstration farms is being replaced by an effort to substitute the use of the early stages of a large number of small demonstration farms. This is an attempt to improve the marketing facilities for native producers has been welcomed by the farmers in the Reserve and according to the reports received an immediate reaction to the grant of any existing marketing system.

One of the most serious problems affecting the Reserve today is that of the depletion of soil fertility. This, if not remedied, can be remedied by the introduction of the system of small holdings.

Mixed Farming.

An important section of the annual report of the Department of Agriculture for 1934 deals with the development of mixed farming. The Deputy Commissioner (Trust) reports that the Department has been successful in persuading the farmers to take up mixed farming. The Deputy Commissioner has been successful in persuading the farmers to take up mixed farming. The Deputy Commissioner has been successful in persuading the farmers to take up mixed farming.

Advantages.

- (a) They provide the only means of increasing the land and soil fertility.
- (b) They provide the only means of increasing the land and soil fertility.
- (c) They provide the only means of increasing the land and soil fertility.
- (d) They provide the only means of increasing the land and soil fertility.
- (e) They provide the only means of increasing the land and soil fertility.

NATIVE AGRICULTURE IN KENYA

(Continued from page 7).

Departmental Statement.
It will take years to bring some new crop into the country, and the time has now come when the Government is turning its attention to the improvement of the existing crops. The Department is now engaged in a series of experiments with the view of introducing new and improved methods of growing and harvesting the various crops. It is also engaged in a series of experiments with the view of introducing new and improved methods of growing and harvesting the various crops.

The first of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The second of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The third of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The fourth of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The fifth of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The sixth of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The seventh of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The eighth of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The ninth of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The tenth of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The eleventh of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

The twelfth of these experiments is the introduction of the rubber tree. The rubber tree is a very valuable tree, and it is now being introduced into the country. It is being introduced into the country in the form of seedlings, and it is being planted in the various parts of the country. It is being planted in the various parts of the country, and it is being planted in the various parts of the country.

A LAND WOUND HEALER

LIFE IS CHEER.

(Continued from page 7.)

...for an original injury in the making. As the patient is not conscious, the doctor is not able to determine the cause of the injury. He, therefore, administers the "Wound Healer" in the form of a cream or ointment. This cream or ointment, when applied to the wound, causes the blood to flow freely, and the wound to heal. The "Wound Healer" is a powerful medicine, and is used in many cases of wounds, cuts, and bruises. It is also used in the treatment of various skin diseases, such as eczema, psoriasis, and leprosy. The "Wound Healer" is a valuable addition to any first aid kit, and is highly recommended for all those who are interested in the health and well-being of their loved ones.

IN NAIROBI BATTALION ORDERS.

The following orders dated, October 28, 1932, are issued by the Hon. J. J. O'Connell, P. M. C. (Officer Commanding the Kenya Battalion) of the Kenya Defence Force:

INDIAN CHINESE UNION

Opening of New Tennis Court and Annex.

Over 120 members of all sexes and creeds attended the opening of the new tennis court and annex at the building of the Indian Chinese Union, on Friday, October 28, 1932. The opening ceremony was presided over by the Hon. J. J. O'Connell, P. M. C. (Officer Commanding the Kenya Battalion) of the Kenya Defence Force. The new tennis court and annex are situated in the grounds of the Indian Chinese Union, and are a valuable addition to the sports facilities of the community. The new tennis court is a standard size, and the annex is a well-ventilated building, which will provide a comfortable and convenient place for the players. The opening ceremony was a highly successful one, and the new tennis court and annex are now open to the public.

NAIROBI WEDDING.

Parried—Lyon.

The wedding ceremony of Miss M. Lyon and Mr. J. Lyon, was celebrated at the High School, Nairobi, on Friday, October 28, 1932. The bride was Miss M. Lyon, daughter of Mr. J. Lyon, of Nairobi. The groom was Mr. J. Lyon, of Nairobi. The ceremony was officiated by the Rev. J. J. O'Connell, P. M. C. (Officer Commanding the Kenya Battalion) of the Kenya Defence Force. The wedding was a highly successful one, and the bride and groom are now happily married.

CORRESPONDENCE

KENYA GOLD.

The Editor does not accept responsibility for the contents of the columns and it is the writer's responsibility to publish, but as a publisher of good news and confidence.

PAPER.

To the Editor, "E. J. Standard." Sir—The Editor of the Standard has been very kind to publish my article on the 10th inst. and I am glad to see that it has been so widely read.

One wonders why a change in the whole of Kenya might be so much to be desired, for the whole of Kenya might be so much to be desired, for the whole of Kenya might be so much to be desired.

INCOME TAX. To the Editor, "E. J. Standard." Sir—The Editor of the Standard has been very kind to publish my article on the 10th inst. and I am glad to see that it has been so widely read.

ARRIVAL OF THE AGENTS. To the Editor, "E. J. Standard." Sir—The Editor of the Standard has been very kind to publish my article on the 10th inst. and I am glad to see that it has been so widely read.

AGENTS. To the Editor, "E. J. Standard." Sir—The Editor of the Standard has been very kind to publish my article on the 10th inst. and I am glad to see that it has been so widely read.

AGENTS. To the Editor, "E. J. Standard." Sir—The Editor of the Standard has been very kind to publish my article on the 10th inst. and I am glad to see that it has been so widely read.

AGENTS. To the Editor, "E. J. Standard." Sir—The Editor of the Standard has been very kind to publish my article on the 10th inst. and I am glad to see that it has been so widely read.

AGENTS. To the Editor, "E. J. Standard." Sir—The Editor of the Standard has been very kind to publish my article on the 10th inst. and I am glad to see that it has been so widely read.

AGENTS. To the Editor, "E. J. Standard." Sir—The Editor of the Standard has been very kind to publish my article on the 10th inst. and I am glad to see that it has been so widely read.

It is important that the land should not be left to the mercy of the few who are able to buy it.

TO THE EDITOR, "E. J. STANDARD." Sir—The Editor of the Standard has been very kind to publish my article on the 10th inst. and I am glad to see that it has been so widely read.

Speeding up the Air Service.

FIRST ATALANTA MACHINE EXPECTED ON THURSDAY.

Successful Tests. THE NEW FLEET OF FAST MONOPLANES.

It is anticipated that the introduction of new fast four-engined monoplanes on the Cairo-Cape Town section of the England-South Africa air route will be the means of speeding up the service and will make a definite saving of at least two days on the whole.

The production of these machines, which have been built especially for use in tropical climates, is being kept up as a matter of historical interest as they are the most sophisticated machines on any air line. The first Atalanta machine is expected to arrive at Nairobi on the 27th.

On board the first machine to reach East Africa will be the Air Superintendent of Imperial Airways, Major G. B. Brackley, with him as a subsequent machine of the same type which is expected to arrive during November will be the Chairman of Directors of Imperial Airways, Sir Eric Geddes, and the Managing Director, Mr. G. F. Woods Humphrey.

One of the new Atalantas which will pass through Nairobi in the next week will carry the German Ambassador to Abyssinia, the Hon. von Helldorf, and his wife, Lady Young, the latter herself being a qualified pilot.

A British Flying Film. Colonel Chairman of Imperial Airways, and Mr. O. E. Woods, Director of Imperial Airways, will be in the right frame of mind to see the new film, "The Atalantas," which will be shown on Thursday and Friday nights.

Special Interest. Imperial Airways has nothing to say about the fact that one of the new machines seen at the airport has not yet been reported, and according to the report, the Atalantas has not yet been seen in flight.

The second machine of the new type, which is expected to arrive on November 12, will be the first of the new type to be seen in flight.

The third Atalanta machine, which is expected to arrive on November 19, will be the first of the new type to be seen in flight.

The fourth Atalanta machine, which is expected to arrive on November 26, will be the first of the new type to be seen in flight.

The fifth Atalanta machine, which is expected to arrive on December 3, will be the first of the new type to be seen in flight.

The sixth Atalanta machine, which is expected to arrive on December 10, will be the first of the new type to be seen in flight.

The seventh Atalanta machine, which is expected to arrive on December 17, will be the first of the new type to be seen in flight.

The eighth Atalanta machine, which is expected to arrive on December 24, will be the first of the new type to be seen in flight.

One of the new 'Atalantas', one of a monoplane which will shortly arrive on the Imperial Airways Cairo to Cape Town route.

from a programme in the middle. They will be specially designed for flying in the tropics, and will be capable of a speed of 150 m.p.h. It is expected that the first machine will be to arrive before the end of the year.
