MANCHURIAN PROBLEM.

Dispute Rapidly Nearing a Crisis

JAPAN REJECTS THE LYTTON REPORT.

Pessimism at Geneva.

CHINA PREPARED TO RESIST IAPANESE AGGRESSION.

- It is stated from Geneva that the dispute between China and Japan over Manchuria is rapidly moving towards a crisis, in view of Japan's rejection of the report by the Lytton Commission. The subject will be debated by the League on November 21.
- reasons for the Japanese rejection of the Lytton Report are that the demand for self-determination as a spontaneous act by the Manchurians themselves and that Japan's recognition of and co-operation with the may regular did not violate any treaties. Further, Japan states that the recommendations by the Com-nision are not adapted to realities in the Far East.
- In a statement to the Press, a Chinese representative declared that China was prepared to resist any Japan-ese aggression, even to the extent of embracing the horrors of militarism.
- The possibility of China invoking Article 16 of the League Covenant is also foreshadowed. Should China take this line of action the League Council would be powerless and would have no alternative but to refer the Lyston Report to a special commission established by the Assembly.

POLITICAL OUTLOOK AT GENEVA VERY OBSCURE.

The report of the Lytton Commission of Enquiry, into affairs in Manchuria, was discussed on Monday by the Council of the League of Nations, when Mr. de Valera presided over the gathering.

The case for Japan was submitted by Baron Matsuoka, whose statement followed the general lines of the Japanese memorandum published yesterday, in which Japan rejected the report. Dr. Wellington Koo replied on behalf of China.

The Japanese spokesiman dwelt on the present discognined state of China and the orderly organization of Manchuria during the past 11 months of Japanese influence. The Chinese representative replied that Japanese policy aimed at the domination and conquest of Asia.

No. 5856. RECEIVED AT THE CENERAL POST POLICE RETRENCHMENTS.

Criticisms from Up-country Districts.

THE INCREASING DEMANDS OF KAKAMEGA.

Menace of Cattle Running.

EFFECT OF REDUCTIONS ON MORALE OF FORCE.

Criticisms regarding retrenchments in the Kenya Police Force are made in the following contri-butions by up-country correspondents of the "East African Standard". It is proposed to close down the Police Posts at Molen and Donyo Lessos and to substitute Indian Sub-Inspectors for European Pelice Constables at Kiminii and Chernagam.

s maintifined that as a result some hundreds of square miles will be left without protection, and it is stated that a considerable increase in cattle run-ning may be expected.

s also suggested that the morale of the Force may be adversely affected by the lack of stability and freedom from uncertainty regarding the position of its personnel. There is said to be a general feeling of dissatisfaction at what is considered to be false economy.

EXPEDITION TO THE LAKE RUDOLF AREA.

To Search for Fossils.

ARE THERE ANY PREHISTORIC ANIMALS ALIVE TO-DAY ?

A party of scientists from Europe is leaving Nairobi shortly on an expedition to the Lake Rudolf area and Abyssinia in an endeavour to pick up the threads of an adventure that commenced some thirty years ago.

In those far-off days a French scientific mission dis-covered tossils of large prehistoric animals includ-ing a kind of croepdile similar to the Gavial of India.

This, it is stated, shows the one-time existence of a junction between Asia and Africa—a lost continent known to geologists as " Gondwana".

The principal object of the present expedition is to make a complete study of the fossils found at that time. "Of course" said one of the scientists, in the course of an interview, "I don't know, but there may be some of those prehistoric animals alive to-day; you never can tell. But we shall see."

KIKUYU AND MASAI COUNTRY IN THE NINETIES.

Historical Review.

MEMORANDUM PRESENTED TO THE LAND COMMISSION.

- A very valuable memorandum dealing with the early history of white penetration in East Africa, was pre-sented to the Kenya Land Commission vesterday by Dr. H. A. Boedeker. a settler of Kabete, who first came to the country in the nineties and was a medical officer in the service of the old Chartered Company.
- memorandum was in the form of an historical review from 1890 when Fort Machakos was first established up to 1901 when Nairobi came into being as a town-ship.
- Boedeker stated that it was very singular that in Ketya there were no authenticated records left to posterity regarding definite territorial rights of occupation by the native tribes and that there were no definite agreements as to tribal boundaries.
- In the early days, he states, the Massi occupied the country for many miles, including the Nairobi township area, the whole of the plains as far as Donyo Sabulc and to the south side of the Tana. The Kikuyu, however, had more or less packed themselves in the Dagoretti area where they were protected by a Forest best from the Massi.
