THE EAST AFRICA NURSING ASSOCIATION.

Dear Sir or Madam, The Nursing Association was inaugurated in August, 1906, by a small number of those who had the urgent need for skilled help in the various hospitals, clinics and districts.

Though it was hoped to make the Association a year, this expectation has not yet been fulfilled. All those here for attendance have been charged. Since they have never been returned, these communications the reduction of these communications has been considered, thus putting in the hands of the members services of a trained nurse. This is a scheme which is being carried out in the near future, if it takes upon itself the responsibility of its own funds which the patient was not a member of the Association has had an equal claim to the services of its members who were not taken provisionally and were in all cases made a member of the Association.

On Saturday, 26th July, At 9 p.m. The Programme will include—Glee by the Y. W. C. A. Choral Society. SOUGS by Mr. DODD & Mr. DEBTS PHIPPS.

THE EAST AFRICA NURSING ASSOCIATION.

Dear Sir or Madam, The Nursing Association was inaugurated in August, 1906, by a small number of those who had the urgent need for skilled help in the various hospitals, clinics and districts.

Though it was hoped to make the Association a year, this expectation has not yet been fulfilled. All those here for attendance have been charged. Since they have never been returned, these communications the reduction of these communications has been considered, thus putting in the hands of the members services of a trained nurse. This is a scheme which is being carried out in the near future, if it takes upon itself the responsibility of its own funds which the patient was not a member of the Association has had an equal claim to the services of its members who were not taken provisionally and were in all cases made a member of the Association.

CLOSER SETTLEMENT FOR BEA.

By A. A. Macdonald.

WHAT IT MEANS.

The state of affairs in Albania and the reasons for it are probably best understood when Dr. Dibra's recent telegram...

Special Articles of Particular Interest to East Africans.

"Jubaland. Its Peoples and Future"

By Cecil Wightwick Haywood

We have made arrangements for the publication of a series of articles on this little known province of the Protectorate. The peoples will be dealt with under three heads: (1) the Hamitic Tribes (2) the Cushitic Tribes (3) the Galla or mixed Galla Tribes, considering ability of peasant or illiterate South Africans. The matters and customs of these tribes will be treated as well as their political and economic importance. The future of Jubaland will be dealt with (1) the development by a District Commissioner in Jubaland who has been spent nearly three years. He has been connected with the Administrative Services of the Protectorate some thirteen years, and is therefore fully qualified to give an authoritative opinion on these subjects.

## "Jubaland. Its Peoples and Future."

By Cecil Wightwick Hayward

We have made arrangements for the publication of a series of articles on this little known province of the Protectorate. Its peoples will be dealt with under three heads (1) the Hamitic Tribes (2) the Coastal Bantu Tribes (3) the Galla or mixed Bantu Tribes, occupying chiefly or occupied or liberated Somali slaves. The manners and customs of these tribesmen will be touched upon as will their political and economic importance. The future of Jubaland will be dealt with (1) the development by white competition (2) the political possibilities. The author was formerly a District Commissioner in Jubaland where he has spent nearly three years. He has long succeeded with the Administrative Service of the Protectorate some thirteen years, and is therefore fully qualified to give an authoritative opinion on these subjects.

## "The Snow-Capped Peaks of the Equator," Kenia

By John W. Arthur, M.D. (Glas.)

This article will be especially illustrated and will contain an introduction by "Aranda," who is arranging the series. Mr. Macgregor Kete, the Director of Public Works, has also kindly supplied us with M.S.S. and many other photographs, some of which will be reproduced. In addition to those taken by Dr. Arthur, arrangements are also being made to publish an illustrated article on the Ruwenzori Range.

The above articles shortly will appear in the columns of the

## Modern Agriculture.

This new work shows how every East African Farmer can now take advantage of the latest discoveries of science and adopt the most successful modern methods.

Those farmers who are disappointed with last year's results, and wish to do better this season, would do well to at once secure the free booklet we offer before describing THE STANDARD CYCLOPAEDIA OF MODERN AGRICULTURE, Edited by Prof. PATRICK WRIGHT, F.H.A.S.

This great work treats some 5,000 subjects of paramount importance to farmers—Tillage and Farming—Moulding—Sowing—Fertilising—Dairying—Eggs—Landscape Gardening—Insecticide and Weeding—Poultry and Bee-keeping—Cattle Farming—Dry Farming—Irrigation—Fruit Farming—Horses and Cattle Breeding—Veterinary Science and Practice—Agricultural Geology and Soil Physics—Entomology and Zoology—Botany and Horticulture—Agricultural Chemistry—Agricultural Law—Economics and Bookkeeping—Agricultural Books—Biography—Dogs—Game—Horses. There are a few of the leading order which the contents of the complete work fill.

Fall of reliable advice.
