THE GENERAL OPINION

The three names given above were the only ones registered yesterday at Nairobi This falling-off in recruiting is directly traceable to two causes

The first and most important of these is the fact that no definite decision has been announced as to whether Government Servants will or will not be allowed

The second cause is the lack of any definite information as to the manner in which officers for the new corps will be appointed

Recruiting is paralysed until these two vital questions are settled The community is anxiously waiting for the Government to lead the way

Replying to a query put by the Standard on the telephone yesterday the Chief Secretary said that he was not at present in a position to discoss the question of Government Servants and recruiting but that the matter would be dealt with on the return of General Wapshare to Nairobs and orders would then be
