Are you Worried about Baby?

HOW to feed Baby is often a great worry to mothers who are naturally nervous. But babies are not so delicate as they are supposed to be. There is a safe and reliable substitute for the mother's milk. It is used in practically all hospitals for the purpose and forms these articles in the stomach that cannot be digested. Decide to use the 'All-Baby' Food which is the only article of Food scientifically adapted to the digestive requirements of the child. You will be delighted when you see how well your baby thrives on this form of Infant Feeding. The 'All-Baby' Foods are free from all dangerous poisons; they are portable, being in small form and in sealed packages. The Milk Food Nos. 1 and 2 require the addition of hot water only.

The True Safeguard of Baby's Health

Allenburys Foods

THE milk of a healthy mother confers a degree of immunity to infection by the young infant. Many mothers, however, are unable to procure enough milk for their babies for various reasons. In such cases the greatest care should be taken in procuring a proper substitute. Only pure milk can be used for this purpose, and a safe food for infants is one that contains no bacteria and is almost invariably contaminated with harmful germs. By using the 'Allenburys' Foods, which are free from all dangerous organisms, and effectually replace human milk, security for baby is ensured and vigorous growth and health are promoted. The 'Allenburys' Foods are largely used and recommended by the Medical and Nursing Professions; they have stood the test of time and have become a household necessity all over the world.

The 'Allenburys' Infant Dietary

MILK FOOD No. 1. Malted Food No. 2. Malted Food No. 3. The 'Allenburys' Foods are all sterilized by machinery, and are entirely unspiced by hand. WESTERN FRONT. Germans Fail to Make Good. THEY ATTEMPT VIGOROUSLY MET. French Gaining Upper Hand.

[FRENCH BETTER'S AGENCY.]

London, March 31. A correspondent in Paris states that the French troops were encouraged by their fighting at Arras.

A committee reports that the barbed wire has been renewed with reinforced wire at Maldoon.

London, April 2. After a despatch through some Maldoon, which lasted throughout the night and took out the German heavy steel, the French troops were seen to be in the village of the Meuse, the night was dark.

The Germans in Werde made some attempts to carry the works to the east of the Heudun, but these were all repulsed.

The night of the Meuse, the Maldoon region, the army attempted to follow the river to the north of Arras.

The Germans in the Marquette region, after a violent bombardment, strongly attacked at six o'clock in the evening, but were repulsed by the British.

The French army, which was engaged in a battle on the night of the Meuse, was repulsed by the British.

There has been no serious fighting since the night of the Meuse and in Werde. A series of strong attacks were made on the night of the Meuse, but these were all repulsed.

A British communication reports that the French army, which was engaged in a battle on the night of the Meuse, was repulsed by the British.

Mr. P. Milling's Questions.

MR. TENNANT'S REPLY.

ANTI-AIRCRAFT DEFENCES.
WESTERN FRONT.
Verdun Battle.
FAVOURABLE TO FRENCH.
 (TENNANT'S ANSWER.)

London, April 5. A Paris telegram was effectively confirmed by the following cable from the French Government at Verdun.

An enemy plane was observed to the west of the Meuse, about 10 miles from Verdun, on the 4th inst. The German launched a very heavy attack on the 4th inst. The French were successful in repelling the attack by the use of their anti-aircraft defences. The French were also successful in establishing a much larger number of anti-aircraft defences than the Germans. There were great hopes that it would be possible, in future, to protect the country more readily than had been the case in the past.

ITALIAN FRONT.

Italian Artillery Details.

London, April 6. A Rome communication reports Italian artillery details between the Apennines and the Tiber Valley, and to the north-west of Ancona.

Small Italian attacks at Monte Corno, near the Tiber, were reported. A number of dropped air bombs were reported to have been seen.

An Italian aeroplane dropped bombs on Civita, near Ancona.

TEA PLANTING.

Prospects in B.E.A.

COMPREHENSIVE REVIEW.

INTRODUCTION.

It is not possible to imagine that the tea plant is to be grown in the B.E.A. in any large quantities. The tea plant is a native of the world's tea countries, and it is not possible to grow it in any other country, unless we have the same conditions as those which exist in the tea countries. We have the same conditions as those which exist in the tea countries. We have the same conditions as those which exist in the tea countries.

How to make good tea.

It is not possible to imagine that the tea plant is to be grown in the B.E.A. in any large quantities. The tea plant is a native of the world's tea countries, and it is not possible to grow it in any other country, unless we have the same conditions as those which exist in the tea countries.

NOTES OF THE WEEK. It is not every week with such a quiet morning that a host of our women are doing something for our race...

Very little if anything is done for them, as I hope these ladies who are going round in several firms for gifts for our hospital friends will not condemn their work...

I would also like those among us who have some few hours to spare to devote a little of these to the sick...

How to Make Our Charming Dress. The making is simplicity itself, as a plan at the diagram will show.

A welcome mat has arrived at last. It was a pleasure to robe everyone in the hospital yesterday, reading letters...

Nairobi is distinguished itself by the fact that it is the only town in the country...

Our usual paper pattern has arrived now, and I am glad to be able to start again with welcome aid to our people.

Tea

The higher altitude tea grows at the better
its flavour. Tea grown on the plains is strong and
deep coloured, but lacks flavour. The finest flavoured
tea is Darjeeling tea. Darjeeling is a tea district in the
Himalaya Mountains many thousand feet above sea
level. But neither Darjeeling nor any other kind of
tea is palatable unblended. Brooke Bonds are blenders
whose business it is to select, blend and render tea
in its best possible form. Their Red Label quality
is Indian tea at its best. Brooke Bonds cannot blend
better tea than their Red Label quality, neither
can better tea be bought.

In this market there are two qualities of Brooke Bonds
tea. Red Label is the first quality, and Green Label the
second. Both are packed in ½-lb and 1-lb air-tight canisters,
which contain full net weight of tea.
