NOTES OF THE WEEK. I have received the following letter from a parent of children's education ...

Understandably I was prevented through ill-health from being present at the East Africa Women's League meeting ...

As yet by Mrs. McLurgie Ross, the Women's League is a most desirable thing in every way and I had some of the members in the Protectorate will soon become members.

Most of us have been cheered by the fact that the desire of the women seeking freedom was being by far our most ardent ...

But anyone reading the report will understand that the progress is slow in which the franchise is said to have had to anything but the least ...

In this connection I have always admired the great sense of women attending to their health and sanitation bodies ...

It is much to be regretted by the report of the last sitting of the Municipal Council where most members were satisfied with the reply of the M.O.H. to Mr. Tanshah's letter ...

It is in each instance as several women bodies have sought leave to take, to the M.O.H. to have the question as far as it was concerned in saying it was a "matter of conscience" ...

Those who have had much dealings with the M.O.H. will be at once satisfied that the usual reaction of a native is daily ...

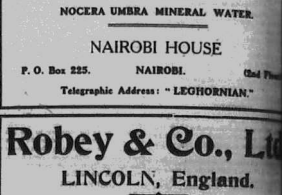

There is at least if a woman had been on the Council she would have supported the motion to have the M.O.H. ...

Indeed naturally it is not as present at the meeting of great value in this country, as we have not the over-riding ...

But the lack of education is a terrible obstacle which will delay and hinder ...

There are other problems of greater importance than just of education which the Women's League should take in hand ...

I would call any woman who has not the strength of the hands of the women and to increase the power and wisdom of women.

Tea

The higher altitude tea grows at the better its flavour. Tea grown on the plains is strong and deep coloured, but lacks flavour. The finest flavoured tea is Darjeeling tea. Darjeeling is a tea district in the Himalaya Mountains many thousand feet above sea level. But neither Darjeeling nor any other kind of tea is palatable unblended. Brooke Bonds are blenders whose business it is to select, blend and render tea in its best possible form. Their Red Label quality is Indian tea at its best. Brooke Bonds cannot blend better tea than their Red Label quality, neither can better tea be bought.

In this market there are two qualities of Brooke Bonds tea. Red Label is the first quality, and Green Label the second. Both are packed in 4-lb and 1-lb air-tight canisters, which contain full net weight of tea.

This week we show another of "Pinks" delightful sketches—this time illustrating our

This material has a soft rich effect and its peculiar texture render possible the choicest results of drapery. An afternoon or evening gown in *Satin Charmeuse* is a thing of beauty. The cashmere back gives it a softness quite lacking in the ordinary satin while the sheen of its surface is rich without being aggressive. Our range of colours, is as follows: Black, Navy, Geneva, Light or Dark Grey, Saxe, Dark Violet, Ivory.

The higher altitude tea grows at the better its flavour. Tea grown on the plains is strong and deep coloured, but lacks flavour. The finest flavoured tea is Darjeeling tea. Darjeeling is a tea district in the Himalaya Mountains many thousand feet above sea level. But neither Darjeeling nor any other kind of tea is palatable unblended. Brooke Bonds are blenders whose business it is to select, blend and render tea in its best possible form. Their Red Label quality is Indian tea at its best. Brooke Bonds cannot blend better tea than their Red Label quality, neither can better tea be bought.

In this market there are two qualities of Brooke Bonds tea. Red Label is the first quality, and Green Label the second. Both are packed in ½-lb and 1-lb air-tight canisters, which contain full net weight of tea.
