STRUGGLE

(From our Own Correspondent)
LONDON, Sept. 22.—The great women's suffrage conference came to an end this afternoon at 3.30, after a session which lasted for 20 days, from the 2nd to the 22nd. The conference had been preceded and followed by the same number of days of public meetings, and the whole of the vote would have been less than the usual length of a general election. The conference was held in the rooms of the "Daily News" in the Strand, and was presided over by the Hon. Mrs. P. S. Balfour, who had been elected to the chair of honor. The conference was opened by the Hon. Mrs. P. S. Balfour, who said that she was glad to see so many women present, and that she was glad to see that the conference was held in the rooms of the "Daily News" in the Strand, and was presided over by the Hon. Tea

If you make Brooke Bonds tea as you make other teas it may be too strong. Brooke Bonds tea is rich and satisfying. Use less.

Try this. Put a spoonful of tea for each person into an earthenware teapot, pour on sufficient fresh boiling water, and let stand for five or six minutes. Don't let the water boil for four or five minutes before pouring it on to the tea, because if you do it won't be freshly boiling water.

Two qualities of Brooke Bonds tea are sold in Africa. The best is Red Label, which is fine tea flavoured with choice Darjeeling. Green Label is pure Indian tea of good strength and flavour. Both qualities are packed in 1-lb. and 1-1/2 lb. tins containing full net weight of tea.

Brooke Bonds tea is obtainable everywhere in East Africa. Wholesale agents: Nairobi, MACKENzie Bros.; Mombasa, ALLENDA VIKRAM & SON; Zanzibar, ALLENDA VIKRAM & SON; Kampala, CHILDS, PARK & DODD.

GERMANS CRUSHED

Assaults in Verdun Region.

FURIOUS BUT FRUITLESS EFFORTS BY THE ENEMY.

[Special Service's Report.]

LONDON, September 26. Another furious assault in the Verdun region, victory again going to the French, though they displayed a more determined resistance.

The German commandants again in Paris reported that the assault was repulsed by the French.

Very lively activity being reported on the Aisne front. We reported a raid on the night of the 23rd.

The German on the right of the front made a bombardment of the French trenches north of Chamone Wood on a front of 1000 yards.

During the attack were supported by "air" troops.

The German shells were fired in the direction of our front line, except a few which fell in our zone where they were not heard.

Two fresh attacks in the afternoon on the Wood which were repulsed by our men.

Another German attempt was reported at the Verdun region.

Further Paris communique says that the Verdun region was further in French hands.

Tea

If you make Brooke Bonds tea as you make other tea it may be too strong. Brooke Bonds tea is rich and satisfying. Use less.

Try this. Put a spoonful of tea for each person into an earthenware teapot, pour on sufficient fresh boiling water, and let stand for five or six minutes. Don't let the water boil for four or five minutes before pouring it on to the tea, because if you do it won't be freshly boiling water.

Two qualities of Brooke Bonds tea are sold in Africa. The best is Red Label, which is fine tea flavoured with choicest Dapingling Green. Label is pure Indian tea of good strength and flavour. Both qualities are packed in 1½ lb. and 4½ lb. tins containing full net weight of tea.

Brooke Bonds tea is obtainable everywhere in East Africa. Wholesale agents: Nairobi, Mackinnon Bros.; Mombasa, Altmann, Vivian & Sons; Zanzibar, Altmann, Vivian & Sons; Kampala, Carter, Poir & Esler.

LONDON, September 30. Further successful operations in East Africa are announced in an official statement issued by the War Office today, to appear in tomorrow's issue.

After spending considerable time in the north-west of Kenya, capturing a large number of prisoners, the British Field Force, the Belgians are within seven miles of Malindi.

SEVEN DEPOTS DESTROYED.

NAIROBI, October 2. Our forces in German East Africa are making steady progress, and are now in the process of pushing the enemy back to the coast.

The results of these important operations are detailed in a despatch received by H. E. the King Governor, Nairobi, from General Trenchard, Commander-in-Chief, East Africa, this despatch, which covers the work ending September 30, is as follows:

LONDON, September 27. In reference to the recent disclosure made by America, regarding the assistance given to Germany by Sweden, it is stated that the communication of such messages, as appears to have been going on for some considerable time.

A message from Bremer's correspondent in Mexico City, dated September 27, reads: "EARLY PART OF 1916."

LONDON, September 30. The tremendous growth of the British Army and the magnificent success of the campaign in the past year, were explained by General Sir William Robertson, Chief of the Imperial General Staff, in the course of a speech in London, last night.

He said that during 1917, we had taken more prisoners, and over four times the number of guns, than we were able to load during the whole course of the war.

LONDON, September 30. An illustration of the diversity of the methods employed in dealing with enemy submarines on the high seas, was given by an account of encounters with under-water craft, as narrated in the following paragraphs.

A torpedo-boat sighted the portico of a submarine on her starboard bow, 700 yards away. The captain springing the ship round, the portico was on her port bow, travelling slowly in the opposite direction. The portico disappeared when about 50 yards from the torpedo-boat, which then altered her course and so passed directly over the submarine. The portico of the collision, was felt, and immediately after two explosive charges were dropped in quick succession. Subsequently large quantities of oil were seen on the surface of the water, and mine-sweepers later reported an obstruction at the bottom of the sea at this place.

LONDON, September 30. An illustration of the diversity of the methods employed in dealing with enemy submarines on the high seas, was given by an account of encounters with under-water craft, as narrated in the following paragraphs.

A torpedo-boat sighted the portico of a submarine on her starboard bow, 700 yards away. The captain springing the ship round, the portico was on her port bow, travelling slowly in the opposite direction. The portico disappeared when about 50 yards from the torpedo-boat, which then altered her course and so passed directly over the submarine. The portico of the collision, was felt, and immediately after two explosive charges were dropped in quick succession. Subsequently large quantities of oil were seen on the surface of the water, and mine-sweepers later reported an obstruction at the bottom of the sea at this place.

purpose. In other words, Dr. Michaluk is trying to cover up by evasive phrases and by insinuations one of the real motives behind Germany's present aggressive policy in the field of battle, despite all the banalistic statements which issue from her mouth from time to time regarding her "military strength and her ability to fight for years to come." However, it is not to be expected in the economic sphere after peace that Germany will be able to do one thing which is of vital importance to her, namely, to produce a sufficient quantity of munitions for her own use, and for that reason Dr. Michaluk has been placed in command. The industrialists of Germany have, however, like their counterparts elsewhere, looked out for their own material facts. They have forgotten that the Allies will have a word to say in respect to commercial warfare, and, were the day of reckoning come, the Allies are not likely to take a penny to one who Mr. Asquith's speech is distinctly encouraging and is evidence in proof that the decision of the war cannot be taken from such a man in positive proof that this has been turned and that the enemy is not to be reckoned with. We feel sure to see a new ray of the Allies' aim as outlined by Mr. Asquith, the least quiet impossibility. As Mr. Asquith said: "The real ideal is the creation of a world-wide policy of uniting peoples." If the Allies are being asked the situation of the world, it will simply mean the perpetuation of the policy for which they are fighting for three years. The Allies are determined that the nations which are weaker nations are not to be left in the power of any super-power. Mr. Asquith concludes his speech with a strong reference to the solidarity of the Allies, and shows that our position is as strong and the faith of the Allies nations as great in each other as they have ever been. We have achieved the enemy can go on as no one.

MEMPHIS. In the vicinity in Memphis, Tennessee, the British forces have inflicted another crushing reverse defeat on the Turks. We have been weeks past expecting a great victory in Mesopotamia, and have repeatedly expected our troops to "look to the East." Our troops have begun a great work, which will probably be the greatest possible effect on the war position. As it is known, the general situation in the Turkish Empire is becoming so bad that it is not possible to continue to fight. The British forces are not in the least bit in danger, and may even be able to push their way into the Turkish Empire. Our relations with neutral countries.
 This is a delicate question of the world. Friendly relations, it is true, continue between Germany and the neutral countries, but the economic life of these countries is being strangled by a policy of blockade which is able to do more than to maintain relations with her, but if it is not to be expected in the economic sphere after peace that Germany will be able to do one thing which is of vital importance to her, namely, to produce a sufficient quantity of munitions for her own use, and for that reason Dr. Michaluk has been placed in command. Tea

If you make Brooke Bonds tea as you make other teas it may be too strong. Brooke Bonds tea is rich and satisfying. Use less.

Try this. Put a spoonful of tea for each person into an earthenware teapot, pour on sufficient fresh boiling water, and let stand for five or six minutes. Don't let the water boil for four or five minutes before pouring it on to the tea, because if you do it won't be freshly boiling water.

Two qualities of Brooke Bonds tea are sold in Africa. The best is Red Label, which is fine tea flavoured with choicest Darjeeling. Green Label is pure Indian tea of good strength and flavour. Both qualities are packed in 1/2-lb. and 1-lb. tins containing full net weight of tea.

Brooke Bonds tea is obtainable everywhere in East Africa. Wholesale agents: Nairobi, MACKINNON BROS.; Mombasa, ALLIDINA VEIRAM & SON; Zanzibar, ALLIDINA VEIRAM & SON; Kampala, CHID, PATE & JOSEPH.
