ALLIED BLOWS
Advances in Flanders
SANDS OF PRISONERS CAPTURED

London, October 30. The Allies in Flanders were pushing ahead, and a number of heavy blows have been delivered against the German defenses. The efforts have not ceased to be complete.

London, October 30. Following reports upon the front of the line in the West, the Franco-British forces were seen coming up in great numbers to the north and south of Ypres. Early weather conditions hampered the advance, but the heavy artillery position have fallen into their hands.

The British High reports say:
The British and French troops launched an attack of 5,000 men to the north and south of Ypres, and are making satisfactory progress. The British High reports say:

COFFEE EXPORT Shipping and Storage QUESTIONS DISCUSSED AT MEETING OF PLANTERS

An important meeting of the B.E.A. Coffee Planters' Association was held at the New Society Hotel on Monday morning, October 29. Mr. Fenton presided.

The principal business of the meeting was the shipping and storage of coffee beans. Mr. Fenton stated that the B.E.A. had been recently formed and that the members had been asked to contribute towards the maintenance of the coffee export trade.

A NOTWORTHY FACTOR The problem to be solved was to reduce the 1,200 tons to 500. The speaker stated that the best way to do this was to reduce the percentage of such commodity, and a reply was received from the Secretary that the 500 tons of coffee was green with some reference to coffee and exporting the lowest sort of coffee at present.

PLANTERS AND THEIR COFFEE Mr. Fenton pointed out that the position was that the coffee planters were being asked to contribute towards the maintenance of the coffee export trade. He stated that the coffee planters were being asked to contribute towards the maintenance of the coffee export trade.

DR CLEARKIN'S ADVERSE REPORT ON SCHEME

At Tuesday's meeting of the Nairobi Municipal Council, there was an animated debate on the question of erecting shops on the Wash Estate.

Dr. Clearkin's report was read and it was found that the scheme was not approved.

The following report by Dr. Clearkin on the question was read:

"I beg to point out that the proposal made in the report is to alter the character of the Wash Estate from a residential to a commercial area."

The following report by Dr. Clearkin on the question was read:

"The latter alteration was proposed originally by the Nairobi Municipal Council in 1914."

The following report by Dr. Clearkin on the question was read:

There are two reasons why the alteration is not desirable in the development of my report.

1. It would result in a loss of residential character to the Wash Estate.

2. It would result in a loss of residential character to the Wash Estate.

It is to be noted that the Wash Estate is a residential area and it is not desirable to alter its character.

UGANDA TRADE.
Report for 1916-17.

DECIDED PROGRESS MADE
DURING YEAR UNDER REVIEW.

The Trade Report of the Uganda Protectorate for the year 1916-17 is the most interesting and important that has been received. It is the first report since the Uganda Protectorate was established in 1900, and it shows a decided increase in the value of the trade. The value of the trade in 1916-17 was £1,200,000, as against £1,000,000 in 1915-16. This increase is due to a number of causes, the most important of which are the increase in the value of the exports, the increase in the value of the imports, and the increase in the value of the transit trade.

B. E. A. Saw Mills

Steam Joinery Works, Builders & Contractors.
ESTABLISHED 1905

We specialise in settlers' Bungalows made to your own design, made of machined weather boarded walls and cedar shingle roofs or (Rubberoid) excellent durability.

We have designed a coffee drying shed to accommodate 10 special (equal to 50 ordinary) trays at a very moderate cost, which will prove a very valuable asset to your estate.

Our cedar wood fermenting tanks are half the price of stone or concrete tanks, and give double the results. They are more durable and have greater warmth, which is essential in quick treatment of large crops.

We are much gratified with the reception that has been accorded our building and contracting department. We are receiving letters of appreciation from our many clients, who receive all the advantage of our years of experience as builders and timber experts in South and East Africa—consequently we are working on what is called trade knowledge which is at your disposal today. Consult us, we can render good service.

THINK DIRECT PLANTERS AND OTHERS.

Please note that our firm is erecting a number of buildings in your district to-day; will you take advantage of this opportunity of having storage accommodation for your produce before it is sent to the coast?

*Thanks to our clients' recommendations orders are speeding up consequently we are increasing our staff of workmen.

SOAP.

To those who have once
tried Royal Vinolia Soap
the pleasant anticipation of
the feeling of freshness and
cleanliness that follows a
wash with this delightful
soap. Those who have not
tried Royal Vinolia Soap
have still to realize how
much a good soap adds to
their pleasure and benefit of
their daily ablutions.

of his inspiring our operations or presenting any real opposition. The Allies to us to go to the front. It is a very simple matter. First Lord, in which only a vague reference is made to certain points. The public opinion is not to be taken into account. I think very few people will actually attack the thing they should be to the contrary. The reason why the Allies to us to go to the front is because the enemy's harvest of ships was poorer than the harvest of the British Navy had made good on the depths. For some time the Allies have been in a position to make a plan to send a fleet to the Mediterranean. The Allies to us to go to the front is because the enemy's harvest of ships was poorer than the harvest of the British Navy had made good on the depths. For some time the Allies have been in a position to make a plan to send a fleet to the Mediterranean.

WHY'S IN A NAME? Says the immortal Bard. It all depends on the name.

on the name. If you know that a thing really is what its name proclaims it to be, then there is A GREAT DEAL indeed in a name, and when we say that our stores are UNIVERSAL we mean it in every sense of the word as applied to groceries, provisions, wines and spirits, cigarettes and tobaccos.

NOTWITHSTANDING the abnormal times in which we are living, we can still supply you with all NECESSITIES and LUXURIES from cheese, bacon and butter to oysters, caviare and asparagus; from the modest currant to the delicious fruit salad; from the popular whiskies to the choicest wines and liqueurs; and from the wild woodbine to the fragrant Bouquet Rouge. In fact we cater for all palates and all pockets and we can guarantee that if you place your orders with us you will not be DISAPPOINTED.

Tea

If you would escape the ills of impure water use tea. To make tea the water must be boiled. Boiled water is tasteless, but boiling water added to Brooke Bonds Tea makes the finest possible drink.

Refreshing, stimulating and beneficial in all respects. See Brooke Bonds name on every tin.

In this market Brooke Bonds tea can be had in two qualities—Red Label and Green Label. Red Label is really fine Indian tea of finest Darjeeling flavour; the Green Label is a sound wholesome Indian tea. Packing and blending is done in the Company's factory in Calcutta, whence it is shipped to East Africa direct.

ALLIED WAR COUNCIL
Central Body Established
CONTINUAL SURVEY OF WHOLE
FIELD OPERATIONS

LONDON, November 15.
The first meeting of the Allied War Council, the central body established to coordinate the operations of the various Allied Governments, took place at the headquarters of the British War Office on Wednesday, November 14th. The Council was presided over by the British Prime Minister, Mr. Lloyd George, and consisted of representatives from the Governments of the United States, France, Italy, Greece, and the British Empire. The Council's primary task is to coordinate the military and naval operations of the Allies, and to ensure that the various Allied Governments are working in harmony towards the common goal of defeating the Central Powers. The Council will also be responsible for the distribution of resources and the coordination of intelligence gathering.

ITALIAN WITHDRAWAL

Enemy's Vigorous Efforts

OUR ALLY'S REARGUARDS' STUBBORN FIGHT

(Various Sources' Account.)

LONDON, November 17. Whilst fighting rages unceasingly in the Italian theatre, the Italian army continues to withdraw. Fresh troops are being hurried forward to the points of withdrawal.

An official German communication, transmitted by wireless, says:

"Our detachments advancing along the mountainous front have broken the resistance of the Italian rearguards. An outstanding movement on the part of the Italians in the Middle Tropic mountains between Tolmezzo and Gemona, and also the hill of San Giacomo, we have already taken. We are now pushing forward a strong, well-equipped fighting force developed along the Italian rearguard lines. We are advancing vigorously through the deserted bridges. We forced a crossing and threw the enemy back in a wretched manner."

LARGE ENEMY GET THROUGH

An official Italian communication, transmitted by wireless, says:

"We received our withdrawal of our line in the valley. The larger units retired without being followed. Numerous engagements occurred between Tolmezzo Hill and the confluence of the Muzon and Livorno Rivers in which we succeeded in defeating the enemy's advance. Our companies achieved the bombardment of enemy troops along the latter Tropic mountains front."

LONDON, November 18. The Italian-German communication claims that Anglo-German troops around the Livorno, and continued to overcome the resistance of the Italian rearguards.

The communication continues:

"We are advancing along mountainous roads and are still in close and tight towards the River Pavia."

An official Italian communication received by wire says:

"Our troops continue to arrive and to establish themselves in the positions chosen for resistance, which our rearguards will hold until the end of the Italian retreat."

LONDON, November 18. The Italian has been seen withdrawing behind the River Pavia, where they are expected to offer a stubborn defence. It is stated that the enemy is here in large numbers.

ANGLO-ITALI

An official Italian communication, issued by wireless, says:

"We repulsed attacks on our rearguard posts in the Lario Valley. Local engagements occurred between the Val Sogno and the Pavia Valley."

"At Livorno one of our rearguards, which was surrounded, was captured in the mountains of the occupied village. From the capture of the rearguard detachment, from the enemy and crossed the River Pavia, the bridge over which some lives were lost."

A German official wireless message, received from Berlin, says:

"The Anglo-Italian forces, pressing forward in the Val Sogno and the Upper Pavia Valley, captured Italian troops consisting of a desperate character."

"We repulsed Italian rearguards who made a stand in the West of the River Livorno. We have captured the River from the mountains as far as the sea."

A later German official wireless message says:

"The pursuit of the Italians in the mountainous region."

LONDON, November 18. The Italian retreat is now accelerating, and it seems that our ally's rearguards are doing a desperate business. The Italian has gained a number of engagements against the enemy, who attack a retreat over Angelo.

The Italian communication reports that, in the neighbourhood of Asiago, the enemy captured the Italian advanced posts at Gallinara and Monte Suro, taking 150 prisoners.

The Italian retreated on enemy vanguards at Tasso in the Sogno Valley.

BRIDGEHEAD DESTROYED

The Italian repulsed the enemy on the Valdobbiadene heights, round the right bank of the River Pavia, and destroyed the bridge across the Pavia River at Valer.

A German communication states that along the Italian front attacked and pressed back the German forces near Angelo.

The communication adds:

"We captured the stubbornly defended bridge-head at Valer."

LONDON, November 18. Desperate fighting is raging in the Italian front, and the enemy's advance is being stubbornly opposed.

"We captured the stubbornly defended bridge-head at Valer."

An official Italian communication, issued in Rome, says:

"The enemy stopped the attack, which pressed forward in the Anghiari, and in the direction of Gallinara, Monte Longa and Molinella-di-Gallinara. The enemy after a bitter struggle occupied the southern end of the attack, but we continued attacking, taking a number of prisoners. We offered a valiant resistance."
