Captain Salkeld, who recently came down from Nairobi, returned to Kis-mayu by the Juba on Sunday.

Captain MacGaskill, who has been

Mr. C. F. Elliott, Conservator of Forests, has returned from Nairobi, and pro-ceeded to Melindi, Lamu, and Kismayu by the Juba.

Messrs. Smart and Alderson left Saturday's mixed for up-

Mrs. Mayes arrived by the Nudden, nd left on Saturday for Nandi, to join her susband, Captain Mayes, D. O. for that part.

We understand that Captain Bai-oy, King's African Rifles, returns from Kis-mayu, where he has been acting for Major Harrison, by the Juba, on her next trip.

Count Hechenyi and Count Sze-chenys, of Hungary, who returned to the Coast last week from a shooting trip, killed some haf-a-dozen lious, we understand. One of the party was chased by a rhimo, and was photographed the distance between the parties (that is the thino, and the Count) being ab 20 yards. Personally we should prefer companion to be armed with a gun rati

This is a tribute to the West of In the 1st a critical to the second of the following summarises the character of the sure, bright West Country girl:—

A girl she is when the skies are bright, A woman when life goes wrong; Sweetness in sunshine—in darkness, light; Saucy and straighthand strong.

Mrs. Alec. Tweedie, writing in the Queen, defends the use of tobacco by wo-men. She says: "So many women work their brains to-day, not only at a profession, but over panifold demestle duties, which are but over manifold domestic duties, which are often far more exhausting and exacting than paid work, that if a cigarette soothes their nerves or brings them any pleasure they should surely not be denied that joy."

#### THE NEW NATIONAL BANK BUILDING

OPENED ON MONDAY.

The prehitecture of Monbasa

The architecture of Moubass, a negligable quantity at best, and the accommendation of the saft and of the general public has been immensely utwarded it who building of the National Bank of India new building opened for binnesse on Monday.

The building is not yet completed, but when it is it will have coxt close upon a lac of rupees. The new building which is see platfall in appearance as it is convenient in accountedation in the property of the control of the contro In place of the old general counter there are separate paying that and re-ceiving departments. Strong rooms with walls of exceptional thickness (some 3½ feet) have been built, and the famous steel safe from the Gov-ernment Square Office is also being brought up in sections for greetion in the new building.

in the new building.
All the offices are on the pround floor, and are surrounded by a tank of exceptional depth, beneath the verandah. The public department and he Manager's Office are very high and very airy, and the upper story is supported on steel beains resting on walls about two feet thick. The outer walls have been built of free-stone and are very solid.

1 tastion there is a very large diffi-

Upstairs there is a very large din-ing room in the dentre, with bed, buth, and dressinglyrooms attached and up, as well as downstairs a verandah runs around the building, where at all times there is a fresh

where at all times there is a iresh breeze blowing.

When the vexations restrictions imposed upon settlers are removed, and when the Foreign Office repents its grandsmotherly attitude and gives its grandsmotherly attitude and gives us a paper currency then the country will go ahead, and the volume of business done by the Mombisa branch of the National Bank of India, branch of the National Bank of Iridia, Ltd., will be large enough to more than justify the present outlay. The Bank is showing the Government a grand example in the matter of

#### MACDONALD OF UGANDA.

#### GERMAN EAST AFRICA.

A banquist was given recently by the German Colonial Seciety in honour of Colonel Leutwein, Governor of German South-West Leutwein, Governor of German South-West German East Africial Colonel Leutwein, an after-dimer speech, admitted that there was a feeling of depression in German South-West Africa; Dar great mod of the Proceedings of e German women to emigrate to Ger South-West Africa with a view to providing wives for the colonists had proved suc-

Count Gotzer spoke of a similar depres-sion in German East Africa, which he con-sidered to be largely one to the better sidered to be largely one to facilities for locomotion enjoyed by neighbour-torritories. He held that the developthe time to electricate the copy that prospective to make the control of the relative to the copy that product for the failure of the Protectorate. It must be removed that the German authorities had removed to the country, the slave traffic and raids for invey and that it would lake time to execution; the pupies to posential trade. There was a short-ange of absour in the count districts, due to the country of the country o he had, with the assistance of the mission-race, make the deprement of exacting 12 day's labour in the year on certain plantations from every mainty. One-third of the gnotics word to the chief, another third to the cer-tain the control of the control of the con-second. Count Gotzen used that it was not true that there were to many officials in German. East Africa; there was work for all who were there. He would, however, be glad to see a largue number of business men in the Protectowsta.

THE CULTIVATION OF VEGETABLES.

> PART IV. By R. L. REISCHACH.

(In the Rhoderia Aftertiser). Modes of Planting. For garden culti-

on, or small patches of ground, drawing or digging trenches are probably the best methods. I have no doubt that threshing the earth into hills, as is done for awest polations and planting one set in each hill would be an excellent plan. By this means each plant could be moulded with fine soil when needed, and the hills being above the level of the ground would ensure good drainage, and it cess in the cultivation of the potato are cess in the cultivation of the potato are good drainage, and a good body of pulverised soil. In heavy wet ground a good plan is to threw the soil up in ridges. These are really rais-ed beds about 44 feet wide, with trenches 13 in. wide between thun, but soil taken from the trenches is thoroughly broken up-and used for covering the sets, and for modifing the plants later on. The trenches act as so many drains during heavy rains-and keep the ridges comparatively dry. Some growers spread the manure on the ridges or in the drills or trenches just previous to planting, and lay the sets on it but this is young tubers come into direct contact with the manure, which causes them to scab, and toms of the trenches, or of the top of the bottoms of the trenches, or on the top of the ridges, if that system of cultivation is adopted and cover it to the depth of a couple of inches with fine soil, then lay the sets and cover on. If only a garden, or small piece of grouns ap. If only a garden, or small piece of ground is to be planted; it will be better if it is evenly manured and well dug over sometime previ-ous to planting, and when the sesson comes round the trenches can be opened and the sets planted without any turban manuring Dibbling in the sets is a system followed in: England to a considerable static, but unless the soil has been well cultivated previously it is not a system to be recommended nere. The sets are likely to be placed at unequal depths, and of being placed uppermost, and in performing the work the ground gets trodin performing the work the ground gas ston-den unnecessarily, the consequence being that if dry weather gillows, the soil cales, and the budge are unafile to push through it; whereas, if rain follows immediately after planting, it collects in, the holes and, as likely-as roll, causes the sets to rol.

DISTANCE APART. The distance at which Dispasce Avair.—Inc distance at which the sets Miguald be placed apart yaries with the mature of the soil, and vigour of the kind grown. In firsh soil, a greater distance should be allowed than in poor soils. In general the distances should be \$2\$ to \$ feet between the rows, and \$18\$ to \$25\$ inches between the sets in each row; but, as a rule, the greater the distances, the better the yield.

The depth to which the sets should be covered also varies somewhat, but, 4 jo 5 inches in heavy, and 5 to 6 inches in light soils, are about the proper depths.

SUBSEQUENT CULTURE.-This consists in keeping the ground free from weeds, earthing up the plants as they advance in growth, up the plants as they award and fine-and keeping the soil stirred and finemore it is pulverised the better—but taking

#### THE BISHOP OF MOMBASA'S TOUR.

A VISIT TO THE C. M. S. STATIONS IN GEBMAN EAST AFRICA

We had a very pleasant quarter of an hour's chat a day or two since with the Right Rev. W.G. Peel, D.D. Bishop of Mombasa, who recently Mr. and Mrs. Wafker, of Nairobi, returned from his tour through that part of his See which is in German East Africa. Marching from Dar-es-Salam he reached Kilimatindi. on the main read from Dar-cs-Salam to the Lake, visiting, the main stations in the Usagara and Ugogo districts which are within his See. Myumi is the furthest station at present, with Bugiri due north, but it is contemplated to continue the work says the further into the interior.

The Bishop of Mombasa's See extends from degree 38 west up to the shore of Lake Tanyanyika, and across half of the Lake. The French Fa-thers and the Universities Mission of Missio have stations in the most Eastern part, the first C.M. S. station being at Nyangala, other stations in the Usagara district being Mamwe, Mvumi and Bugiri,

East of degree 38 is in the spiritual care of the Bishop of Zäuzibar.

The progress of mission work th. Bishop found to be most satisfactory. Since his last visit to the district in | Under the above headings, the

Question what was the difference between 8 to refer the roops and of the Essere Question and there is every hope that the same in the immediate future 1 to will be improved in This is an old whose and contact of set up for from the immediate future. Now If a second of the amount of the amount pressure is a treatment of the immediate future. Now If a second of the amount of the amount pressure is a treatment of the immediate future. Now If a second of the amount of the amount pressure is a treatment of the immediate future. mitte immediate future. Now if a great Lundon daily, deems it worth while to spend columns of space day after day to remove the defects in the santary condition of a collection certainly unravalled in the world, and of unque advantage from an instorical and educational point of view—surely it is our duty to call the attention of the authorities to what we consider to be the solution of the island of Volumbas. It is an unsavoury subject, and one of the days were a Celebrian cock, and one that were conditions of the saland of Volumbas. It is an unsavoury subject, and one that we have liebstated to touch, but seeing the apparent flidifference of the authorities to what we have liebstated to forther course. every change must be for the sperse. It is gretty certain, therefore, that Macedonia will be put off with very small instalments of a immistrative improvement unless heavy pressure is applied at Constantinople. But, nearly certain to lap all Christendom in flames.

The Northern Powers have done right good service to civilised humanity, therefore, by postponing that terrible struggly by their

## MOMBASA TIMES A .UGANDA ARGUS.

SATURDAY, MARCH 21, 1903.

One of the funniest sights on the Uganda line is that of the average native carefully cleansing his feet, hands and face, with liquid mud.

Passengers to the Lake by Tuesday's up mixed encountered a severe storm after leaving Mackinnon Road. The sky suddenly assumed a shady olive grey tint, and the rain came down in torrents. The streams washing across the line were at times so All that parcel of land or jing across the line were at times so shandla known as the Nairobi strong that the engine had to be swamp, containing 180 acres or there; shopped and wheel down, while the abouts, situate between the Railway, iferman picked large hallstones of large gund tace Course Road in the township of Nairobi, the property of and heavy rain was again encountered before reaching Voi

The find of water at Mackinno Road is being carefully followed up At present the supply is somewhat small, but a determined attempt is being made to trace the source, and as there is a natural fall to Mackin-Affithe tand is most variance to non-Road Station, it is to be imposured for cultivation, the soil being larger quantities will be forthcoming.

The Athi plains are just now teem-

Sir George Whitehouse, and Mr he obtained on application to the Sandiford are, we believe, still on the Receiver, or at the Offices of Messa, other side of the Lake. Sir George, Touks and Allen, Solicitors, Mombiasa and Nairobi.

Mr. and Mrs. Hardisty are doing the Committee of the Planters and we are told the Port Floraice. Let the launch of the children are the picture of health.

> The telegraph line between Nairobi and Port Florence is interrupted.

There is considerable grumbling amongst the merchants at Nairobi special train for the Coast on Thursorer the delay in forwarding goods from Mombasa. Every day sees a number of them waiting in vain on the station of the coast of the station of the coast of the coas the station, with consignment notes in their hands. It appears that the the station, with consignment notes in their hands. It appears that the by the special train on Thursday to the Coard Railway are getting up it to the Coard. of goods themselves just now, necessary for the carrying on of the system.

Thursday, was detained through in- Zanzibar for school in England.

There is tied up in the Park (?) Nairobi, at the present time, a zebra. which we hear is to be sent Home for Mr. McAllister. It appears to be

Messrs. Smart and Alderson will probably settle in the Ukamba Pro-vince. They are at present settled in a tent on a shamba, about a mile and half from Nairobi.

Rumours of finds of payable gold are current again. Copper and silver, too, seem to have been found, but under conditions that would not pay to work at present. Men who ought to know say there is every indication of diamondiferous soil between Nairobi and Kikuyu.

Mr. Miller, of the Accounts Depart-Nairobi on Wednesday.

the Antwerp East African Trading constants the stores and attached Company, baves on a month's busis to a train going up-country. The ness tour in Uganda towards the end of the month. His well-earned to a siding at Kingup, but by some unaccountable means, it started backling and as the gradient from Kingup. As long as the Railway is a non-paying concern, we feel sure the Landsched Company of the control of t cleared about twenty yards of jungle, and scattered its contents all around. The stores have since been removed, but a steam crane will be necessary to shift the truck

was sent around "Natron to see what of or o tons of potatoes at the begin-support could be obtained for a peti-tion to the National Bank of India for a single fare; and the Secretary to open a branch there. We under of the Association informs us that stand that, as a result, an official of the Railway and Messrs. . TUESDAY, MARCH 24, 1903.

#### Decasional Notes.

AN IMPORTANT Reuter's Agency is informed that a strong and EXPEDITION. Iormentina astronomic unusually well-equipped expedition is on the point of be ing despatched to South Africa by the Chartered Company for the purpose of completing up to Lake Tanganyika the scientific survey of Rhodesia. The expedition will be absent about three years, and will sail from Enggland in time to reach Cape Town at the beginning of April. A geodetic survey has already been made from Cape Town to the Rhodesian border by the Cape Government, and right through Southern Rhodesia by the Chartered Company, but the work now in contemplation has only been rendered possible by the completion of the Cape to Cairo telegraph up to Home. Tanganyika, which now gnables the explorers to synchronise with the observatory at Cape Town-an indis. Waring have arrived from Fort Terpensable part of the observations.

The expedition will have far-reachexact geographical position of many there are quite a number of deputaimportant centres at present inacou- tions waiting to interview him: rately laid down upon the maps. The work is under the direct supervision of Sir David Gill, Astronomer heir. Royal in South Africa, to whom the members of the expedition will report members of the expedition will report themselves on reaching Cape Town.
The leadership of the expedition has Mr. Sandbach\_Baker, Mrs. Baker The leadersup of the expedition has been entrusted to Dr. Rubin, of is an ideal hostess, and entertains upsale, who has recently been entrusted in measuring the scooletic are largely, with the help of her charming sister, Miss Salmon. in Spitzbergen. HOW THINGS ARE NOT DONE

London, 27th Pebruary (Reuter)—The following poem by Rodyassi Ripting, appear in a recent issue of the Times to morrow: THE SETTIFF

to separate you. . Above all, South School choir who came in for the Africa needs the best capacities of all its occasion made this a matter of small

Here where my back to and finding the

And the deep soil c'istens red.

I will repair the wroag that was done
To the living and the dead.

Here where the senseless bullet fell.
And the barren shrappel burst:
I will plant a tree. I will big a well.
Against the lieat and the thrist. Here in a large and soulls land

Take for the set foily and the red breach

And the black waste of it all; Giving and taking counsel each. Over the cattle kraal. Here will we hand affainst our toos The bailstroke and the storm;

nd the red and rustling cloud. The locusts mile-deep swarm Frosts and marrain and fleeds let loose Shall humch us side by side: In the boly wars that baye no truce, ... Twist seed and barrent tide.

Earth where we rode to slav or be slain. Our love shall redeem into life; -We will gather and lead to her lips again

From the far and fiercely guarded stream And the pools where we lay in wait Till the corn cover our evil dreams And the young corn our hate.

and when we bring old fights to mind. We will stor remember the str.

If there, be blood on his head of my kind

For the ungrazed upland, the untilled lea. Cry, and the field fariorn: The dead must bury their dead but ye,

Ye have a bost unlarry Bless then our God, by the new-yoked plough. And good beasts that draw. And the broad we sat in the sweat of our brow. According to Thy law.

After uscometh a multitude
Prosper the work of our hand
That we may feed with our hands food
The folk of all our land.

Here on the wastes and the trough of the plain Where the healing stillness lies.

Bless to our use the rain and the sun.

#### WORTH IT. TOO.

In the smoking room of a certain club the following varn was told (says the Licensed Victuallers' (inzette). The teller was a Major-General whose name was very prominent during the late war. It was in the early stage the war, and a certain regiment had stage the war, and a certain regiment had conducted itself magnificantly in an engagement, and half its men had richly earned the VC. It was decided, however, that not may that no most these coveted distinctions could be given, and the commanding officer of the regiment in quasition was firstled as select the one to whom the Cross should be given. This could be considered to the control of the one to whom the Cross should be given. This was a very deficiant task, and the commanding officer shirked it. Eventually be decided to the men select the one to be distinguished for themselves. To his winyrise, one may can oneverwheming number of votes, and the regiment was paraded forthwith for the decision to be made known. The announcement of the award was received with ringing cheers, and the colonel then called the regi-mental sergeant-major forward, and asked what signal act of bravery the selected man had performed to merit the votes of so many of his comrades. The sergeant-major hesitat ed for a moment, and then gravely saluting, said, "Private , sir, was the one wi brought up the beer after we had finished?"

Extract from the address of Mr. Samuel-son Under Secretary for Native Affairs, to natives at Durhan: "I always wash used self in the morning for health's sake, and I wash my clothing each Sunday." Is this the truth, the whole truth and nothing, but the truth, the whole truth, and nothing but the truth? If so, what about the Sabbath obser wance? Fig. fic, Mr. Samuelson.

#### ZANZIBAR NEWS.

From the Zangibar Guerte.

States of the State of the Stat

ORDINATION. -- On Saturday last the Bishop of Zanzibar held an Ordina-Mr. Chamberlain, speaking as the Captown banquet :—I leave this shore more convinced than ever that the natural force that are drawing you together are more point that now infinitences where 'nevolat keed then those will influences where 'nevolate keed the me singing of the Kinngan the convention of The service, which was most solemn (the organ being under repair) but the fine singing of the Kiungani consequence. At the High Mass the Assistant Priest was the Rev. H. W. Spurling, The Deacon and Subdeacon were the Reyds, T. C. Simpson and C. Frewer, The Deacons of the and T. Swedi. The Gospel was sung by the Rev. Silwans Ngajewe, th newly ordained deacon. A short but appropriate sermon was preached by the Rey. Godfrey Dale. The candidates were as follows:

> Priests-Rev. J. Brent, Rev. J. C. White, Rev. S. Chiponde. Deacon-Silwans Ngajewe.

YESTERDAY the Punjeibhai Club-gave an "At Home" for the purpose gave an "At Home" for the purpose of presenting Judge Lindsey Smith with an address prior to his departure on leave. H. M. Acting Agent and Consul General and Mrs. Gave, tha Judges of H. M's. Court at Zanzibar and other notable members of the European colony were prosent, besides all the leading representives of the Indian communities Refreshments

We heartily congratulate Dr. and Mrs. Andrade on the birth of their second daughter vesterday evening

race took place ou Saturday last. South, nine boats took part namely Capt. Agnow Scratch
Chapt. Agnow 2 minutes
Mr. Churchill E.T.C. 5 .. Byron ... Hansom

rshale Dupuis 25 Course: from Nyanza to a buoy near Prison island round the Chuini and back to the Flag skip, once round, about 7 miles. The boats were sent away at a buater past three. Pat, Lulu and Kiboko being the first to cross the line, the first buoy being rounded in the same order all three boats being well together, closely followed however by the Chaza and Sururo A head wind separated the boats in their beat up to lightship, which was first reached by the Pat which had by this time the race well in hand. Chaza overhauled Kiboko on the last leg but lost on time. The final result was

one. The smoond set them choose him.

Well- as the Stah and after his appoissms—Colone Flint was forty-three years of age
when, one foggy afternoon as Liverpool Street
Railway Station, his dog chose him by supping into his cabe timobserved of human see—
The soldier was a large, unioved man of forhidding large. dding aspect and most ungenial manner; ad he almost immediately opened the little ap-door in the roof and said to the driver. trap-door in the roof and said to the driver.

What the —d you mean by keeping a dog in your cab? I think I am going to kick the damn-thing out late the road.

"Not my dog," came the voice of the driver. "If it don't hits yer, "ave mercy on

'im.

The man kept the dog, and named it Han-son. In size it resembled a large terrier, in codur, a many cute, or jaundined monkey in counternace. Heaver knows what, anything from a Notre Dame pargoys to an early New Zusland. symbolical—eith picture. The uglicat dog I ever sey! "said-the, landlady of the London lodgings."

the Lendon lodgings.

"Thank you," said the dog, "you are a master after my own heart. I will sleep on the intale outside your door—on sentry go. Never mind the draught. I'm rough haired a we shall set on together. No sentimental Never mind the draught. I'm rough haired we shall get, on together. No sentimental suggestions of the state o

"Yes, old ugly face, and you are not the only person that description fits," said the master. He would not tell the dog he was thinking of himself test the brute should take liberties and begin to encroach.

He would not test the use new accusation where the chain with the chain should read the brute should stake liberties and begin to sucrosch.

Then, next day and the day affeir, the dog smeering to be saying; 'Observe I have had though placed Thindle the door. Next the chain of t ne the undered find must unloady man, by what strage art have you made ne love on so. There there you've made a fool of me, and I never thought to like hands and accommon and a partoxysm of affection as that thich nou! I show To-night, henceforward, he led emading against your day or the state of the st gainly carease - is the place for me?

The landlady and other outsiders saw the quation as in a concave glass—inverted—and id, "That hideous dog has made a fool of

He has brought me luck! thought the scally modest Colonel when he got a job "He has regulate the luck" thought the hardrally michest Colonel when he got a hip in at the War Office which he had honestly carried by duty ably performed. More luck, when war broke out. "Now there will be a chance for all of us." and "Brayo luck.pig." when he was given his fegument.

inck pig\_widen he was given his regiment.

"I think I shall be waited in fairing parts, he told the dog," but, meantime, you and limit be offered by the properties of the pro

Canicide to do so. No other word for it, said the Doctor.

"But if left at your Dog-Home, will be not et or pine "—I do not know much about logs," said the Colonel, "Miss me. I can, and thereby suffer in health—perhaps

due?" No, no, no, said the Doctor, with a wanderfully kind smille—for all the world as though they had been taking about a human being. "He will fret at first—lwo, three days, "After that he will be reconciled" The Colonel winced. "See," said the Doctor: "I do know something about days. He! I'd of know something about days. He! I'd of know something about days. He! I'd had so gray out again when you came back a Flight Marshid or what not."

But a week later the daparting soldier was ammoned to the Dog-Home in the country "Canicide to leave him," said the Doctor.
No other word for it. Better take him and
t him stand his chance with the rest. I
miess he has baffed us."

Siary-two or many

the yellow waves of the still flowing the of battle. And no rest yet. Plenty of such able does still. So, effer a year, the gain commander and the seasoned remained that war-spent command yeer still marshing, marshing, marshing over the rolling volu-tured to the control of the control of the under the hot sum, under the cold stars.

A poor ghost of a dog pattering by a ski med by a feverish thirst; makifig a man's art ache to see him stamble down into any the crease of fold in the ground and scratch the water which was never there. At the st halt—within sight of the strawn rocks d the low ridge—the Colonel knelt over him as he lay panting, and moistened his and washed the dust from his face. T were no Wagons on this little mova

It would have been worse but for the dog. He gave the darrif wore—two basky whispers, not barks, as, with ears worked, he hurred on and then stood motionless. The brown rocks erackled into white fame, the ridge stat death. The dog was killed at ônce—trampled out of life by the retreating teams. Fire would have lost the guns but for the dog. The Colonel was grievensly wounded, hit once, vivige, and. tost the guns but for the dog. The Cotonel have the guns but for the dog. The Cotonel was grievously wounded; hit thee, twice, and thrice. It was his first "mishap," and even the fat men at honte in the club armetage owned that it might have been worse.

They called her Nurse Venus, of the Fig. Hospital at Flower Spring. She was reall Nurse Panangkut the other Sisters at Nurse Panangkut the Other Springer Springer and Nurse Panangkut Pa Three nasty holes in him and con-delirrums chatter, chatter, night and de the singlet and the bastle of day it do not trouble anybody; but at night, when nearly all slept, she had to listen And these what he used to say, over and

over again

"Have you a licart of gold!" Are you braver than any man, more tender than any woman? On, ingly-sheed, ole, not poor goly face? Cgly to all but me. "My darrism to be a discount of the control of the contr

une, too?" said the Man-Doctor petulanly observing the red eyes, palidi, drawn face of his best nurse. "Spare yourself over this-Goner' Colonel Goner is his manne. "No Dat's not his name, she said, puzzled tooking at the card above the bad, and seeing Colonel Fluit, A.c., &c. "Isn't a " and a seeing to the card above the bad, and seeing the card above the bad, and seeing the colonel Fluit, A.c., &c. "Isn't a " and a seeing the card above the bad, and see the card above the bad, and seeing the card above the bad, and seeing the bad above the bad abov Goner Colonel Goner is his name. "N. That's not his name," she said, puzzle looking at the card above the bad, and seem Colonel Flint, &c., &c., "Isn't it?" said, th Doctor, smiling. "Then mine isn't Shooks, and he hurried away.
