**Let Us Pause!**  
 Living expenses have increased enormously recently. How wages increased proportionately? (Loud cry of "No! No!") That being the case, we must examine our position. The first question to be answered is: "Are we earning as economically as possible?" Probably you will have to reply that, from this is not so. If you are creating a waste, you will have to reply that, from this is not so. If you do not know what it is going to cost—when the same month to month, you don't know what it is going to cost—when the same month to month, you don't know what it is going to cost—when the same month to month, you don't know what it is going to cost? Why not know your liabilities beforehand? Why not know the best of everything? You are live in a house surrounded by expensive grounds, containing a leasehold acre? All these things may be had

THE BRITISH SOLDIER

Two Short Stories

AN INDESCRIPTIVE DESCRIPTION

(By C. Young)

Special to "The East African Standard"

There was a noise of singing in the street and the British soldier, who had been turned for a moment to watch the parade and the way they looked around him and the way they were from their eyes.

"What about you when I first came over," said the American, "was the way you address me?"

"I'm not sure," said the American, "but I think you were right."

SHIRAZI ADVERTISING

"Mark me," said the Frenchman, "for I am sure that you will always prefer."

"I shall be glad to do so," said the American, "but I shall be glad to do so."

It was decided to return the **Franklin** of her letter to Mrs. Franklin for her.

A letter was read from the Commissioner of Police with reference to the adulteration of milk in Nairobi.

It was pointed out in the course of the discussion that the milk was from pure sources and that the adulteration was done in Nairobi. Mr. Thurman stated that the milk was of 25 per cent. water.

It was agreed that until the Municipal Health department was able to ascertain as to apply to milk adulteration.

A lady member writes: "Your paper contains a valuable column to the effect of 'Time when some one is getting a divorce'." I am glad to see that the article is so interesting and that it is so well written. I should like to see the article in the paper on the first of the month. I am sure that it will be a very valuable addition to the paper. I am sure that it will be a very valuable addition to the paper. I am sure that it will be a very valuable addition to the paper.

**Not Speculation, But a Sound Investment**

**Two Sixth Avenue Plots at £1,500 each.**

- 1 We have just received cable instructions from a client to accept £1,500 each for two Sixth Avenue plots, situated between the Palace Theatre and W. C. Hunter's Café premises.
- 2 No such attractive buy in Nairobi's properties has been on the market for a long time past. Any company or individual who wishes to purchase any buildings, has never selling at around £3,000 each since the outbreak of war. The two plots now offered at £1,500 each are a 50' x 150' (twice the size), and therefore equivalent to one-fourth the price.
- 3 There is nothing speculative about Sixth Avenue. Its future is already assured. After the war it is likely to develop more rapidly than any other part of the town. There are no other plots to be had elsewhere.
- 4 We confidently recommend the purchase of these plots to investors as offering every chance of greatly enhanced value after the war.

**Let Us Pause!**

Letting expenses have increased enormously recently. Have wages increased  
proportionately? (London "The Times," 12th July 1917). That being the case, we must  
reconsider our position. The first question to be answered is: "Are we  
living as economically as possible?" Probably you will have to admit that  
this is not so. If you are wanting a more sane plan to help you, then  
there is a remedy, you don't know what it is going to cost—that the more  
you know your liabilities, the more you know your income, the more  
you know your position, the more you know your position, the more  
everything? Why not try to have a better account of your position  
established a bank account? All these things may be had

The first question to be answered is: "Are we getting on economically as possible?" Probably you will have to admit that this is not so. If you are getting on as well as you can, what the main thing to think of is: "Why continue in this state of financial uncertainty? Will it be going to be? Why continue in this state of financial uncertainty? Why not live in a home surrounded by spacious grounds? Why not live in a home surrounded by spacious grounds? ["STANDARD" SPECIAL CABLE SERVICE]

LONDON, September 30. It is regarded as extremely significant that since the onset given to the Stockholm Conference by British Labour, such the failure of the German Government to make any statement, and since Russia's remarkable recovery, there should have come from Germany reports of such a nature.

What is regarded as even more significant is the statement that the Kaiser, the German Emperor, the Imperial Chancellor and the Chief of Staff should have met in conference to discuss peace.

There can be no doubt that President Wilson's emphasis upon the Pope has had considerable effect on Germany, and it is thought Germany recognizes that she has only one way to escape disaster, and that is to give up her hold on Eastern Prussia.

**RUSSIA'S RECOVERY**

Situation Very Promising

MILITARY POSITION CONSIDERABLY BRIGHTER

["STANDARD" SPECIAL CABLE SERVICE]

LONDON, September 30. As I have reported, the Russian position of the Allies in Russia has been fully justified.

The situation has been handled with such tact and force by M. Kerensky that there can be no doubt that it has really turned out on a pleasingly bright note.

Great things are anticipated from the new Republic, and it seems quite probable that there will be something important to report from the fronts one or two days.

["STANDARD" SPECIAL CABLE SERVICE]

LONDON, September 30. After news of a submarine girdling operation followed by a successful attack on the submarine base at the mouth of the River Yper, it is authoritatively stated that the new methods employed by the British are so successful with regard to the sinking of ships, that they are meeting with success, and a reduction in shipping losses will be effected.

British Surge Forward on Wide Front

IMPORTANT POSITIONS WRESTED FROM ENEMY.

TWO THOUSAND PRISONERS TAKEN.

["STANDARD" SPECIAL CABLE SERVICE]

LONDON, September 30. After a prolonged and almost incredible fighting, the British troops in Flanders have again sprung to the attack. The scene of the fighting is in the Yper sector, and the troops engaged include men from all parts of the Empire.

The strategic importance has been so great, that the British have not only won a wide front, but also a wide front, and in the words of Reuters' correspondent, the day has been great and glorious for our arms.

Living expenses have increased enormously recently. How was increased proportionately? Look over a list of "Best Bets". That being the case, we must strive to economise as possible. The first question to be answered is: "Are we living as economically as possible?" Probably you will have to admit that this is not so. If you are spending a more, you will have to reply that, from month to month, you do not know what is going to come - what the money bill is going to be. Why continue in this state of financial uncertainty? Why not have your expenses reduced? Why not have the best of everything? Why not live in a home surrounded by spacious grounds containing a tennis court? All these things may be had

WEIGHTS OF PRODUCE Standardisation of Bags

EFFORTS AT CO-ORDINATION BY KISUMU CHAMBER

Considerable interest is being developed by the Kisumu Chamber of Commerce in the problem of standardisation of weights of bags for use, and efforts are being made to bring about co-ordination.

The following letter has been addressed by the secretary of the Kisumu Chamber to the agents of all shipping companies at the Coast:
Dear Sirs,—After correspondence between the Kisumu Chamber and a proposal made by this Chamber to standardise the principal weights of bags for exportation, the principal Chamber is hereby proposed to the principal Chamber in respect to the quantity per bag for each variety of produce to be exported.

The Chamber feels that this proposal, if carried into effect, would be of great benefit to the shipping companies in particular. If you are in favour of the proposal, will you please let us know so that we may be able to come in contact with the other shipping companies, the necessary steps to be taken by all the shipping companies of the Coast.

**Let Us Pause!**  
Living expenses have increased enormously recently. How have you coped  
proportionately? (Look over it for 10/6). That being the case, we must  
reconsider our priorities. The first question to be answered is: "Am we  
spending our money as economically as possible?" Probably you will have to admit that, from  
time to time, you do not know what is going to cost—that the more  
you try to do, the more you have to do. Why continue in this state of financial uncertainty?  
Why not have your liabilities reduced? Why not have the best of  
everything? Why not live in a home surrounded by extensive grounds,  
maintained a local court? All these things may be had

Living expenses have increased enormously recently. Have you not  
noticed? "Let us pause!" That's the idea, we must

time to time, you don't know what it is going to be like. The more  
bill is going to be. Why not know your liabilities beforehand? Why not have the best of  
everything? Why not live in a house surrounded by services, garden,
