**FOR SALE**

TO INVESTORS AND BUSINESS MEN.

The undersigned has been instructed to offer for sale those valuable leasehold building plots situated in Government Road and Victoria Street, Nairobi, close to the proposed City Square and next to the National Bank of India.

The terms are very attractive and business men are now given a rare opportunity of procuring their own plots on easy terms, and as available land in the centre of the town is becoming scarce and will undoubtedly greatly increase in price in a short time, investors would do well to avail themselves of this chance, which is perhaps the last sale of central business sites for some years.

The particulars of the plots are as follows:—

| FRONTAGE   | DEPTH  |
|--|--|
| Plot No. 1, 50 ft. to Government Road                | x 46 ft. with party wall                                       |
| " 2, 30 " to "                                       | x 46 "   |
| " 3, 25 " to "                                       | x 46 "   |
| " 4, 50-6' to Govt. Rd, 46 ft. to Duke Street corner | plot opposite National Bank of India                           |
| " 5, 30 " to Duke Street                             | x 38-6'  |
| " 6, 50-6' to Victoria Street                        | x 46 " to Duke St. corner plot opposite National Bank of India |
| " 7, 25 " to "                                       | x 46 "   |
| " 8, 25 " to "                                       | x 46 "   |
| " 9, 45 " to "                                       | x 46 "   |
| " 10, " to "   | 30 ft. x 33 " with portion of party wall                       |

The terms of payment are:—  
Deposit 25 per cent of purchase price at time of purchase,  
25 per cent 6 months after date of sale,  
25 per cent 12 months after date of sale,  
25 per cent 18 months after date of sale.  
Interest at 7 per cent on unpaid balance from date of sale

# Save Money

Every penny saved today helps to win the war, and, therefore, thrift must be practised by every Britisher throughout the Empire. In these days of high-priced foodstuffs, a credit balance at the end of the month, after household expenses have been met, is the exception. We can help to make it the rule. Our foresight in buying, and the fact that we cater for large numbers, secures economical living, and money saving.

In our columns on the Settlements Swahili land settlement scheme yesterday, we thought we succeeded in pointing out that there have arisen with regard to the origin of the capital to be invested in the scheme, the more interested will naturally be in the success of anything in the nature of victimisation or unfair treatment of the ex-settler, the whole scheme of which is so much in the air. We must say quite frankly, however, that though we have extolled the scheme, we have not overlooked the fact that we have to disapprove any marked weakness, and so our mind is certainly not so much as it was. The fact must not be overlooked that the whole scheme as presented in the "Official Gazette" and in the "Official Gazette" is a definite prospectus minute detail that the principle is accepted. What the adoption of the scheme is. We have to disapprove the fact that the scheme is so much in the air. A most interesting game of Football was played on Thursday last, May 24, on the Railway Institute Grounds, between the M.T. v. Medina. The M.T. lined up as follows:-  
 Major, Binnet and Wynne; Parnham, Dope, Maysner, McKelroy, O'Connell, Duffy, Dehennery and Wable.  
 The game was fairly even in the first half, but in the second half, although the M.T. were playing with some men short they scored two goals after a most strenuous struggle.

The Nairobi Orchestral Society will hold a practice on Thursday next, May 23, at 7.15 at the British East African Club, Nairobi.

After some of all descriptions and other business have been added to the agenda of the Council of the Orchestral Society.

A whole day cricket match will be played tomorrow (Friday) between the M.T. and the East African Club. The match will be played on the ground between the Great Inland and the Railway Station Institute, on the 30th inst.

**NAIROBI'S CHAMBER.**

**An Interesting Meeting  
A SUMMARY OF WHAT  
HAPPENED**

The Vice President, Mr. Playfair, occupied the chair. There was a gratifying attendance of Members.

Although the printed agenda disclosed only a few items there was a great deal of business done. The report of action and correspondence brought forth many discussions, and the chairman deserves great credit for his businesslike methods. Through these methods the meeting occupied a few minutes past 6 p.m., with all the business completed.

Reading out the Report of Action the Secretary read the report of the Indian Sub-Committee dealing with the long hours worked by Indians.

The Sub-Committee found that some Indian clerks were in the habit of working from 7 a.m. to 10 p.m., and asked the Chamber to take action in the matter. After some discussion the Chamber resolved that Government should be approached with a view to instituting legislation on the lines of the Shop Assistant Act of South Africa.

A communication was read from the Nairobi Law Society, a representative of which had met the Legal Departments of Government and a motion seconded had been arrived at in regard to "Marriage between Parties of different Races."

In regard to the suggestion recommended by the Chamber that a parcels deposit system should be instituted at Nairobi Station whereby parcels could be received at the parcels office and collected from there by passengers travelling by rail a letter was read from the Manager of the Uganda Railway requesting that through lack of space and depletion of the staff, the inauguration of such a system at the present time could not be instituted.

Members voted a strong protest against this decision, and Mr. T. A. Wood, was deputed to interview the Railway Manager on the subject.

Kinshasa gelosio sites was the subject of a strong report from the Sub-Committee which has dealt with the matter. The report advised the Government to purchase the Chamber and a vote of thanks to the members was recorded.

A telegram was read from the Member Chamber regarding the main subject of the Sub-Committee's action.

The question of exchange and currency was brought up in a motion by Mr. R. O. Hamilton who asked that a Sub-Committee be appointed to go into the matter.

The opinion was expressed that the high rate of exchange was caused solely by the war and some interesting figures of European Exchange were given.

A Committee consisting of Messrs. Thomas, Tate, Hamilton, Toogood, Wood and Mowbray was appointed to find out in so far as possible why the rate of exchange was so great.

This discussion on the recent increase in customs duties and rental charges which came into force on May 10, raised a storm of protest.

It was characterized as unwarranted at the present time and the lack of cooperation displayed by the Customs Department together with the inadequacy of the accommodation called forth the very letter comment.

A Sub-Committee consisting of the President with Messrs. Barr, Gull, Jacobs, Smith, Wood and Nixon was appointed with instructions to get into communication with Mombasa and interview His Excellency the Governor on the matter.

The proceedings then terminated.

**FREEDOM OF THE SEAS.**

**Dutch Ship Sailing Without Besse Permission Captured**

LONDON, May 22. Beater's Amsterdam correspondent says that the Germans have taken to submarine the Dutch Government steamer "Morges" bound for the Baltic from Rotterdam, in Holland. The grounds for such an act are that the vessel had on German safe conduct.

**BALKAN FIGHTING.**

**Allied Troops Advance to the Depth of Eleven Miles**

LONDON, May 24. Beater's correspondent reports that Franco-Balkan troops in Albania advanced to the maximum depth of eleven miles in less than three days and took a number of prisoners, and completely occupied the Sarajewo road between Fokea and Koryza. The Allied casualties were very light.

**MRS. LAZARUS'S PARTY.**

**Soldiers Entertained at the Garrison Institute.**

Mrs. Lazarus and party entertained the soldiers to a delightful concert at the Garrison Institute on Thursday evening last. The singing accompaniment of the newly enlarged Concert Room was found to be of the utmost capacity, not a seat being available when the curtain rose.

A much more sensible arrangement now obtains in regard to the seating and it may be added the finding of seats, the most abundant and economical custom which allowed men to stand, even after the curtain had risen, when they might have been summoned to partake of the solace and bliss of a seat has at last been relegated to the limbo of obsolete things, with little or no hope of resurrection.

Unpunctuality has at last received its richly deserved quietus and seats that have been booked and are not occupied as the proceedings are about to commence are, by the new arrangements of things, placed at the disposal of those who have not been allowed fortunate enough to secure seats. An old standing order is thus on the fair way towards complete eradication and no one is sorry at this. Some, no doubt, will unlearn a "causa offensiosa" here; but offence to no one is contemplated, much less intended. The general good ought always to precede the good of individuals and it is hoped that the principle now being acted on will meet with universal approval and acceptance.

Just before the curtain rose, Capt. Hook announced, with feelings of regret, that only three competitors had come forward for the prize of the Rs. 10/- which had been offered the previous Thursday evening for the best Ghost story concerning round the shore of a haunted castle within Private Paradise, with feelings of regret, had added to the decorative side of the stage. The Prize-giver, the wish for a larger competition and announced that he had extended the time limit by a fortnight in the hope that this wish would be gratified. All impetuous Tories, therefore, would be well advised to try their luck. Ten "Chips" are not to be thrust aside, in view of the fact that Nairobi is not what one would call a cheap place to live in.

**STAR TURN OF THE EVENING.**

The few introductory remarks over the large audience and the success to the enjoyment of a good performance.

The ladies of the party, Mrs. Flint, Mrs. Barnes and Miss Banbury captivated the hearty approval of all present and were forced to respond to boisterous positions for encore. Each lady did full justice to her ability and was quite up to the standard of previous occasions.

The male element consisted of Sergeants Martin and Symons, Mr. Brent, Privates Wolfe and Blackburn and Lieutenants Moutferrer of the K.A.R.

The two Sergeants have often appeared at the Garrison Institute before and, as on former occasions, they found ready access into the abundant appreciation of his audience. Lieutenant Moutferrer was undoubtedly the star turn of the evening. He has a stage pose all his own and one no man can hope to imitate; a visage (also his own) which easily lends itself to grimace, contortion and expression of every sort, and which is as much provocative of laughter as his vocal efforts themselves.

The act of moving to mirth even the most stolidly impassive nature is his, and this is an act which so few possess. It is rumored that he will appear again at the Institute next Thursday. Mr. Brent also was well appreciated, especially so in the "pooom turn" which he gave away with an excess. Private Blackburn sang well and had to respond to encore, but he would do well to qualify his utterance a little so as to make it possible for one who listens to him to get rid of the idea that he is singing in a key.

Private Wolfe, or as we like to call him "Sammy" has a talent for humour, but he was unhappy in the choice of his subject, which gave him no scope for his powers, mainly to the regret of his many admirers, who know from past experience what he can do.

The singing of the National Anthem and a vote of thanks to Mrs. Lazarus brought a pleasant evening to a close.

**Holland Waals Ships from America to Carry Grain**

LONDON, May 22. Beater's correspondent in New York states that the United States Government in reply to Holland's request that the three Dutch ships now in America should be permitted to carry the balance of grain promised to Holland by President Wilson. The Government has informed Holland that Dutch ships should be sent from Holland for grain.

**COFFEE**

TO THE EDITOR "E. A. STANDARD."

Sir,—As the question of getting rid of accumulated coffee stocks in this Protectorate, as well as Uganda, is a matter of deep concern, and affecting considerable anxiety to those interested in the coffee industry, it will, I think, be of considerable interest, especially to coffee Planters, to have some idea of what is taking and has actually taken place, in regard to the position of East Indian Planters, and if would I think, be appreciated, if you could see your way to giving space in your columns for the following authenticated information:—

(1) "G.O. No. M.S. 1291, Revenue Department, Madras dated 2nd April, 1910:—

"Information has been received that the Shipping Controller has instructed the Calcutta Licens Conference that coffee should in future receive the same treatment as other non-priority cargoes. The complete embargo on the export of coffee has thus been removed, but the Board of Trade have agreed to allow the import into the United Kingdom of only 1574 tons of coffee from India during the current year. This represents half of the import in the year 1917. Shipping difficulties may make even this concession ineffective, as shipments will be limited to freight space obtained in competition with other non-priority cargoes."

(2) Telegram received by the United Planters' Association, South India, from one of their old and deeply interested Planning Members (Mr. Mooklet) from London, March 29th.

"Prospect Greece buying large quantity coffee in India immediately an exporting."

(3) Telegram received by Nerton, Planters' Association, Bangalore.

**"COFFEE"**

"Government ordered purchase five hundred tons coffee in India possibility of Greece buying two thousand tons there—Mooklet's 29th March, 1910."

From information I have had direct from India, the stock of East Indian coffee awaiting sale, and/or shipment, amounts to something like 5,000 odd tons; this is due to the dislocation shippers have had to face within the last year, in respect to freight. This should remove any misconception which may exist, in regard to the idea, that Indian Planters have been receiving more favourable treatment, than in this country.

From telegraphic advice I have not from London, I am glad to believe, there is a possibility of the Home Government being prepared to take 1,000 tons of coffee from this country, but at the moment I can make no definite statement on this point, but hope for fuller and detailed information shortly.

Yours faithfully,
