TREATING INSOMNIA

Instensia, saya Dr. Siegmann, should al-ways be regarded as a symptom and not as a disease. It is the nost frequently deserved at the same of the same of the same of the neurosis and it is then very troublesome and other insomms is due to skep being too light. It is rare that hypoticis have a satisfactory constraint manner, by suppress cerebral activity when occasion requires.

occasional manner, to suppress activity when occasion requires.

Insuming should be treated principally in a psychological manner and in order to do this it is necessary to study the patient, the character and the cause of his insumin. If there exists no bodily affection capable of prevening sleep, his treatment ownside regular continuous and the contract of the c ed on the same therapeous estators as as indicated for norvousness. In the first plac it is necessary to regulate one's manner living, suppress but habits, too long walks exaggerated hydrotherapic practices and reading at nights. Water is advantageous united the form of prolonged lukewarm baths o humid wrappings. Lying in the open-air act much more favorably than walks. Electricit does not play such an important role as for-nierly, but may be used, especially under the form of static affluvia; continuous currents

form of stalle 'affluvia'; continuous currents cause disagrames is emantion; prescribed en captionally, to avert exhaustion: Those only should be observe which involve the slightest accessory troubles. Morphins, especially, strong troubles, according to the support should be given be according to the con-string the strong according to the strong troubles. The transfer of the proposal seen to be the most recommendable hyposites. But Dr. Negmann seems to re-distance to the control of the distance of of distance o

OUR SHORT STORY. All Rights Reserved in East Africa, Uganda and Zanzibar. A KNIGHT OF SPAIN

By JOSEPH HOCKING Author of "Lest we Forget," "Greater Love,"
"O'er Moor and Fee, "The Birthright,"
"Mistress Nancy Molesworth," &c.

"Yes." said Senor Enrique Sagasta. Yes, I respect you very much. have known you from your boyhood, and have watched your career with interest. I have seen you studing while other youths were idling. I have seen you growing in knowledge while others remained ignorant. Moreover, I have rejoiced over your onsiness capacity and success. I will admit that your career has been wellnigh wonderful. I saw you on the estate of my old friend, Senor Baller-I saw you on the no, a bare footed child. I know, too, as you grew up that you did your best to save him from ruin."

"But I could not do it, senor."

'No Carlos, you could not do it. because he refused, not only to help you, but to allow you to do what was necessary. Then all those splendid orange graves and vineyards and "the best orchards became ruin. Ballerno discharged, you, when you alone more partial or the best word him. Well, you wanny the bas wested his partial warmly. The bas wested his partial warmly amongst the could be the best and the well-discharged by the base when a best of the partial warmly amongst the could be the best with the base wested his partial warmly amongst the partial warmly amongst the base was the base the base warmly amongst the base was the base warmly amongst the base was th graves and vineyards and names in Spain." ceed, that you have been able to get hold of Ballerno's estates; you got them housely, too. Indeed, I think you dealt with your old master in a Christian and the state of the you dealt with your old master in a Besides, he is a good Catholic, and Quixotic way, and thus made your-has still some influence. True, the Quixotic way, and thus many your has still some influence. True, the self many thousands of pectata poorer, lands are mortgaged; but what then? Still, that was your affair. You are lands are mortgaged; but what then? I have you want to make you are making and the many on the place. He now owner of the Ballerno Casa, you could put money on the place. He now you want to make you want to make you want to be a support to the place and the self-ball was a support to the place. He was the property of the place and the place are the place are the place and the place are the pl have paid for it, and you are making money. After all, it would

said the young man, with partoniane pride. "I ande up my mind years ago that I would prove myself worthy of what I hoped to obtain. Seven "But the Senorita," urged Carlos. of what I hoper to obtain, several years now have I loved the Senorita Would she be happy with him?

Would she be happy with him?

He is a had, vicious man. She does Valentin, your daugheer, ask Señor in the is a pan, vicious man, one over in my heart: I will never ask Señor not love him, neither does he love Sagasta for her hand, un'il I can her."
place her in a beautiful home, and intil I can move any low by superior the same and the same and the same arches and homour at her feet. And lowe? All but we grow out of that now Lam able to do this I come to sort of thing. Besides, what I will you, and I say. Señor, I lowe the my daughter will do 'The Marquist Señorita, I have loved her seven del Antromeda, he comes to me, and years, give her to me for my wife.' says? 'Give me your daughter.' and and Agricultural Settlers

The young man, Carlos Saragossa, if I say) was a representative of the best type of Spaniard. He was taller than of Spaniard. He was taller than ordinary, and although he possessed distinctively Spanish features, they are less telsily, and more refined than was common. Moreover, he mayed and spoke with decision. The indulent indifference, so common to the control of the c "This Journal published Monthly will be found to be of the He was short, and stout, and pome gether popular. The priests Statistics are up-to-date, and the Magazine is well worth the small subscription asked."

Local Ba. 4-8.

SUBSORIPTIONS PER ANNUM: Posted Locally Ba. 5-8.

Characteristics are up-to-date, and the Magazine is well worth the same, he possessed sometime of the dignity associated with the spanish gentry. He was very proud and knew how to treat his inferiors to La Libertal, saying that England on the worth of the same, he was very proud and knew how to treat his inferiors to La Libertal, saying that England over, he claimed to belong the through the worth of the system of the same than the same that th himself Alcalde, or Mayor of the town. Then you never go to Confession or of Amarillio, situated in the ancient to Mass; you are in short a Protessingdom of Valencia. As such he tanks you are in short a Protessingdom of Valencia. As such he tanks one of the grandees of the town correction of the Council of the and claimed acquaintance, if not friendship with on Nidaldays, or the mobility who lived in the vicinity.

We have the Region of the Valencia of the Nidal State of the Nidal St His house, moreover, was larger company employed me I went to

and more imposing than any other in the town, being in reality an old Moorish palace, and as the two sa in the courtyard, situated within the precincts of the house, he east a look of pride on the marble column and pavement, and noted with satisfaction the play of the fountain, which threw its waters so far that the fragrance of both orange trees and lower-beds became more pungent

"Yes, although you have not spoken to me before, I have seen our love for my daughter Valentin, said Senor Sagasta; "and although at one time I was strongly tempted to forbid your coming to my house. I did not do so. It is true I am the Alcalde, but then I am a man of liberal tendecies, and I said: 'He is a good lad, although of humble birth. But this is a serious matter, Carlos. Valentin is my only child, and has been sought after by many. But what would you? I am also rich, and although the Marquis del Andromeda

is poor, he bears one of the best

in fact we have been informed that guage principle involved some attention.

largely followed by the East African that British Shipping has been done commercial Public up to the present out of a valuable freight.

time.
As far back as 1903 the Govern- CONTINENTAL CORRESPONDENCE nent realised (when it was somewhat orcibly brought to it snotice) that the ____ The Lord Mayor of London. Sir Willia forcibly brought to it notice) that the its system of buying indulged in by life and the property of the first and the system of buying indulged in by life and the system of the desired of Departments was most most induced in the system of the system of

sting of a number of Officials any three of whom should be considered sufficient to form a quorum This Board alone has really the power toenter intocontracts for Governm purchases and part of this Board's duties are to see that no merchants are aggrieved. Furthermore sful tenderer is bound by this w to pay to the Treasurer a sum equal to 25% of the total price of the goods tendered for or to give secut that amount to the satisfac ion of the Treasurer.
In the Juba Coal Transaction this

law has been as far as the Public are aware deliberately over-ridden. The Tender Board was not called the Contractor was not called upon to give security, invitations to tender were not issued publicly by advertise ment nor was an invitation sent round to the firms and contractors recorded on the Government list as required. In Great Britain readers of this article will how it was possible for a duly even we in East Africa find i difficult to understand. We do not consider it to be a

all likely that the Chief of Customs

ook it upon himself to fix up this contract in a manner contratoruleunless he had high support and consequently we must take it that during this Officer's recent visit-to Nairobi the contract was brought to the notice of Mr. F. J. Jackson, the Acting Commissioner. Mr. Jackson sanctioned the contract Isons - Calcutta, Bombay, Madras, Kurrichee, Debli, Tulicorin, Cawopore, Labore
Amritear, Chittagong.

Mr. Jackson sanctioned the contract home must have done so on the principle that what one Commissioner has made his successor. has made his successor can unmast, not necessarily an un-common act except when an officer is acting, developed in England and taken over to lit is common knowledge that it Germany. But it is well-known that in this is usual when an officer is 'acting,' last contary ever since the numberal refers is usual when an officer is 'acting,' last contary ever since the numberal refers to the contact of the contact o Fixed Demonra—Deposits are received for finds in force when he takes up the William has sow the opport indide in force when he takes up the the result of a century is no application. However, this is after all administrative work of the 6 office. during the absence of his superior development of municipal institutions eived for that he follows the policy which he William has now the opportunity for not

nciple and a presumable in- In the schools the that the 'Juba Coal Transaction' will prices, in this instance it is beyond not be allowed to slide into oblivion, the power of the Government to of international visits that serve the goo besides the matter having been taken up by those private firms, who were purchased could have been secured scored done out of the opportunity of tender-ing for the supply of the 1,000 tens of unference is that it could. It may and in England are giving the coal which is acceptable to the great Mail shipping companies We welcome the public spirit might have been found by the which is evidenced by this movement. Tender Board suitable for the and it is a good sign that the Public coasting steamer "Juba" and thus a interested are no longer content to considerable saving might have been leave it to the Press alone to fight effected. In any case one of the its battles, a policy which has been issues is perfectly clear and that is

Kept from auntle?" cried Syd, staring. You've told her?"

"What are you doing that for?" he cried. If I allowed you to return.
"Never you mind, Sir Illiton. You've got to stop here."
"That's right, uncle. Come, steady! No stay longer in that hashed woman house."

The Editor will be glad to receive contribution The Editor was be goes to tolders it the duty of this column. The Editor considers it the duty of Settlers in a new country to said their brother Settlers' by giving them the benefit of the results of any

RYE-GRASS AS A FODDER CROP.

with great vigour, giving, under favourable circumstances, two or three cuttings annually furnishing an abundant pasturage. Humid districts are admirably suited to rye-the

plied with moisture, are very favourable. "In general it requires stiffness as well as moisture in the soil: it can be grown even on the heaviest clays provided they are drained."

The more the plant is grazed, the shoots; the more it is trodden on by that £30,000 worth of mik had be cattle, the better it seems to thrive, with during the last year. The interest of the cattle of the more does it tiller and throw up fresh

is then at its best, and if left longer will become hard, woody, and deficient in patritive value

It a pasture containing a large proportion of ryce-grass is to be grazed, it should not be stocked too late because as soon as the flower of the common dark white ratios, per out stalks appear the produce is not so to the common dark white ratios, per out stalks appear the produce is not so to the common dark white ratios, per out readily eaten. This nears is to be readily eaten. This point is too frequently overlooked, and it is owing

add a few pounds of red clover. As to its use in large quantity in permato its use in large quantity in permission more than the permission of the permissio

pasture should never contain more than 10, or, better still, 5 per cent. pasture should never contain more than 10, or, better still, 5 per cent, than 10, or, better still, 5 per cent, full still an yee, grass. Each grade in a protecting erope, early sowing is preferable to graces use yet are a excellent feetlike ing-crop, early sowing is preferable to of Italian rye-grass.

ing-crop, early systing is preferable to gradually seeming the pans with murogen as late sowing, which is practised when it is sown alone. Sometimes it is sown alone. Sometimes it is sown with wheat, but in this case it is sown with wheat, but in this case it goes from the following analysis of an egrows faster than the wheat, and the produce of the latter is diminished.

The Pine Apple.

The pine-apple, testinal satirary, belongs to the American order Broundware. It manus of mobile american order Broundware. It manus of a factors. It is a doubtless derived from the Spanish pines, mainter beautiful to the Company of the Company

OROP.

The fruiting stem grows from the centre of a cincil of long flowers and the training training to the country, a perennial, and the Italian (I. Indicens), an annual, or, more strictly speaking, a biennial.

English rye-grass prefers a somewhat heavy soil, on which, provided it is fairly fertile, the plant grows and with the mils seem at the base of the briefs from the provided of the briefs from a compound fruit. The first is fairly fertile, the plant grows and with the mils from a compound fruit. The and compose the crown. The flowers do not seem to be self-fertile and there are usually

to seeds.

The pine-apple fruit contains sugar, acids, and a digestive ferment. This ferment is, no double, destroyed when the fruit is heated in single control of the control of the

Results of Co-operation.

A Combination of milk sellers in the Somer-set Wilst, and Dorset Farmers' Association are doing an immense trade through their cattle, the better it seems to thrive,
and the latter must be considered a
great point in its favour.

Cutting should take place immediately after flowering, as the plant
in mediately after flowering, as the plant

Ginger.

Standard spectra. The journal is too free purely averaged to bad management in this respect that the copponents of rye-grass are enabled to point out the large quantities of this grass left untouched by stock, whereas under proper treatment it is seldom that a flowering stem of rye-grass are seldom soon alone. Stebler says a the excellent parture on the allivial soils of North Germany are formed by sowing a mixture of tree grass and white covering the rye-grass are founded by sowing a mixture of the allivial soils of North Germany are formed by sowing a mixture of the allivial soils of North Germany are formed by sowing a mixture of the allivial soils of North Germany are formed by sowing a mixture of the allivial soils of North Germany are formed by sowing a mixture of the allivial soils of North Germany are formed by sowing a mixture of the allivial soils of North Germany are formed by sowing a mixture of the pre-grass and first makes the first consignment arrived by per come. The property should be a subject to the soil of the Mixture of the pre-grass differs much from the perminal variety, although the collivation and uses of the two are the same. The Italian is awned; the English is awnless. Warm, moist soils are best suited to the Laian is awned; the English is awnless. Warm, moist soils are best suited to the Laian is awned; the English is awnless. Warm, moist soils are best suited to the Laian variety, particularly rich marks, loomy savery heavy clays eleast suited.

In ordinary farm cultivation it yields a good crop for two, sometimes fire, and now required the property for less than its propose, yet the requestion of the collection of the property of the soil is suited.

Although sometimes sown alone, the managements of the property of the soil is suited. In his propose, yet the property of the soil is suited and the middleman outriey. The Registration of the propose of another than the propose propose, yet the property of the soil is suited.

In ordinary farm cultivation it yields a good crop for two

WHITEODETER CLOVER (T. repens),
is a small species, which solid creeping stems, which produce many branches as they run along the ground, and give of roots from the nodes. The flowers are white or place to coloured and very loosely arranged. The flowers exhibit bear no leaves, differing in this respect from most of the other vanities of clover. The colour of the seed is a bright yellow.

The Author of Our New Serial is a man of great Our New Social is a vivid and realistic story of maginitive power

The roots are shallow, feeding chiefly the better; early sowing ensures the on the surface soil. This variety has establishment of the crop before the been cultivated for a long time in advent of the hot weather. Holland, hence the common name—

same severe winers, and its prime maxing into have mounced pubescence is hiely to be disadvantageous, unless the hay varieties is the red clover, to which, making season is very favourable, unless otherwise unfacted, the following remarks apply.

Red clover is the variety most subject to clover sixhness.

A temperate climate is best suited
PERMANIA BAR CHONAIT. prateuse
permine). A variety of the above,
to so distinct that by some it has
been regarded as another species.
Compared with the common red, its
flowers, foliaged and stem are of
a disrect colour; the leaflest are narrow,
ter and, together with the stems,
much more downy or harry, and the
roots are more fibrous. As its name
indicates, this, kind is more perminnent than common red clover in its
divariation.

productive, its growth is not retianed by stock, and, owing to its creeping habits and large fibrous roots, it
occupies much valued be space which
would be better taken up by more
profitable plants.
