CLEANSING SOLUTION

AS WOOL GROWS DEARER

GROWS IN IMPORTANCE

Scarcity of wool means dearer clothes. The dearer the material the less one ean afford to run any risk of it being spoiled in the wash. Economise by washing all your woollens and dainty fabrics with LUX. It will double their life and in addition, the rich lather preserves the soft fleeciness of woollens. the fresh daintiness of delicate fabrics.

LUX coaxes rather than forces the dirt from the clothes, and IT WON'T SHRINK WOOLLENS.

Plague.

Open an outbreak of plague in any portion of Nairobi I am in favour of isolation, partial in lightly sufficiend areas, rigid and absolute where it is shown the locality is an old and perennial plague spot and centro of spread. I would iraque such as large spot with overspetch circum otherwise in order to exclude the spread of rats and stop all ingress or egress of the individual to or

from such area. I am in favour of a pass-law and registration of natives dwelling within the township area, with the imposition of pass-law restriction on all native visitors from outside the area sleeping in town, otherwise freedom of native essengers who come and depart in daylight Pass Law.

vendors and seeigers who office and a coation properly controlled a short distance from the town an absolute necessity. If there is no cement use "dagga," but have

the place kept clean and a small fee to be charged for accommodation, whether permanent to working natives or casual to natives visiting the town. Even fifth localised is better than filth outside every pe so it soak door in the form of vegrand natives. European I am absolutely in favour of European control, both municipal and admi-centrel, nistrative.

Control. matriaries.

Should I be favoured with election I will do my best to carry out these objects; should I fail to receive sufficient support for election I will have satisfied in the knowledge that all my competitors are good men in whom the public may trust.
