Their soft Nashua-processed nap is a wonderful thing for although made of pure cotton, Nashuas hold warmth about as well as all-wool blankets costing several times as much. This has been proven by repeated tests. Here is a table showing the relative warmth-retaining quality of 5 blankets tested at the Massachusetts Institute of Technology.

All Wool Blanket 100 per cent	Nashua Woolnap (all cotton) 88 per cent
All Wool Blanket 80-9	Nashua Woolnap 87-2
Ordinary Cotton Blanket 58-3 per cent.	

Each of the wool blankets used in these tests cost more than 3 times as much as Nashua blankets.
