EXCITING RACING IN MOMBASA HARBOUR.

M'Buni Defeated by Three Minute

An afternoon in the early part of the week was given up to Yacht Bacing in Mombasa Harbour. The weather was fine and a brisk South. West wind was blowing, increasing in force as the afternoon wore on. The entries were seven all told and the handicapping was were seven all fold and the handicapping was applied according to measurement on the water line; sail area not being taken into account. The course was triangular, the Italian Man-of-Wer. Marcantonio Colonna's present in harbour being the starting and faishing position.

The racing was carried out under Interna-tional Sailing Bules, which throughout the afternoon were admirably kept, no complaint was made nor had the judges any unfavoura-ble comment to add to their decisions.

A steam launch with two judges. Lieut Lupi, R. N. and Mr. E. Meyer on board, kept walch over the course between the 'Colonna and the outer flag boat which was anchored off the Harbour cultrance and two judges Signor Cremachi and Mr. W. H. Tanner ignor Cremason and Mar. followed the stationed on the Man-of-War, followed the inner course stretching from the Colonna to the Freretown anchorage. The course had to be sailed over three times in all, the distance being, per bee-line, about six miles.

Open Letter to The Right Hon'ble Winston Churchill. P. C., H. M. Under Secretary of State for the Colonies. (Continued from last week.)

On the Legislative Council.

Sir. our Legislative Council is his Protectorate is becoming a bar To go back to History we may

remind you Sir, that the new Cons-titution was granted to us by His titution was granted to us by Hiss Maysity, the King in reply to our humble petition presented to the representatives of the British People-sitting in the time honoured House of Commons. The Constitution was shall be a provided by the State of the Constitution was shall be a provided by the State of the State of the didn't read to us in the presence of shall be a so respired a 3 continuous and shall be a so that the state of the State of the State of the State of the didn't read to us in the presence of shall be a so that the state of the stat His Excellency, the Governor, in May this year and we were both tempora-rily satisfied and grateful to His Majesty for the concessions granted.

Mat, however, is the position of affairs to-day, five months later!

The non-official representation has affairs to-day, five months later! The non-official representation has been cut down to the minute of the months o has on the other hand been increased.

The result of this political more has been that our principal objects in asking for a Legislative Counteil to the countries of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the Liberty of the Subject and North Properties of the North Properties

present running throughout large areas of the Indian Peninsular has caused your colleagues of the India
Office to establish a powerful Committee to ascertain where and how far the existing laws and methods f making these laws are at fault ; if then the people for whom the Indian codes were specially compiled are dissatisfied how much more reason is there for us in East Africa to object to the application of their principles by our local Gov in spite of our non-official representtatives constant and protestations

On Ha Land Board

With the presumable desire of H Government to allow us, the coule of this Protectorate, to participate in working out our uture, a Land Board has been reated consisting of a number of both Official and non-Official Memis little reason to find fault, except ing in the fact that the Coastland re insufficiently represented.
This Land Board at its first

sitting unanimously (officially and non-officially) decided to recommend that all grants to Asiatics, British idians or otherwise, cease forthwith and that further Indian Immigra tion should be entirely discouraged We are, therefore, face to face with this position. The public Body which controls our only available asset is unanimously in favour of converting this country into a white man's land whereas the public Body which controls our legislation is determined, by a majority, to oppose the application of the whiteman's

On the all important question of Crown Land transfers, the Land Board supports the people in asking Lord Elgin has refused this reques for the present on grounds which are mystical through his Lordship sunderstanding the insecurity of the present Crown Land leases. In Conclusion and on Patience.

Sir, you are gifted with more than the average ability and therefore is should be possibly less difficult for you to devise a way out of the difficulties which now beset us, and though we do not expect a sudden transformation yet we do expect early mprovement and are prepared to continue that patience, which have so persistently shewn in the past for a further period, believing as we do that our country is second to no other country similarly situated. Sir, our Legislative Council is pidly proving a menace to the a climate infinitely superior. On the Highlands we can grow the foodstuffs so necessary to the health of the European dwelling in the low lying tropics and on the coastlands we can grow all those products on which a country may grow rich and prosperous for all time.

NATIVES AND THE LIQUOR BILL.

"While admitting that selling drink to Natives is a crime towards the whole Community—" Thus the admission of the Select Committee admission of the Select Committee created to consider the Bill for regulating the sale of Wines-Spirits and Malt liquors, and presumably this dictum meets the view of the whole Council as the Report was adopted without demur or objection In the admission above the Council will have the support of all right

When the two liquor Bills are considered side by side we find that considered side by side we find that whereas a native may freely sell to another native liquor of a particu-larly dangerous type, in that it maddens to frenzy those who indulge too freely, a white man may not sell to a native the mildest form of malt beer, which would neither hart his constitution soy. hurt his constitution nor be a cause

That the use of liquor by natives crouses the brutal instincts and induces crime and physical deterioration. That natives encouraged in the habit of drinking are inclined to reject any desire to advance and further when they have no means to purchase liquor to satisfy their cravings they, in the majority of cases, are incline to steal rather than

work to secure the necessary where-In the instance of the Province of Seyidie it is difficult to realise what particular section of the African people the Mover of the Bill desires to reach. The African mahom-medans who are the most important section of the Provincial population not only themselves refuse to touch

intoxicating liquors, thereby follow-ing the preachings of their Prophet, but also are solidly opposed to the sale of intoxicating liquor to their native instances savages just emerging from their former state of barbarity. The Mahommedan rulers in the olden days prior to our occupation recogsed to a certain extent that the ray natives of East Africa were nations for whose moral welfare they were entrusted to look after and this principle is one which we may ourselves adopt without besitation

herefor it is a most debatable question whether by legalising the sale of liquor under the proposed Bill we are fulfilling the responsibility
which undoubtedly rests upon us.
The Hon. the Senior Commissioner the member of the Council

responsible for the Native Liquor Bill stated in his introductory remarks that "the Bill is of special importance to the Coast Zone of the Protectorate for it is believed that a well thought out and efficiently administered native out an emcienty administered native liquor law will have a profound effect on the development of that valuable region." The mover how-ever, does not suggest by whom 'it is believed that the Bill will assist in the development of the Coast Region nor does the mover explain by what stretch of imagination he considers how the depreciation of the productiveness of the cocconut palm in nor ble member stated that 'it is laborated the control of the believed the stated that 'it is laborated the stated that 'it is laborated the stated the s securing an intensely evil liquor, will assist in coast development. Had the

It is generally conceded that the ission boys at the coast have not improved in 'morals' since their conversion to christianity. We do not believe there is any person so foolish as to suggest that the teachtooms na to suggest that the teach. It is seasonat the unamous will not of christian principles is likely to be used in consequence of the vising of cause moral deterioration and there. Uganda Railway, whilst it is used for we must look elsewhere for the cause. If the Mover of the Bill will of conomic importance to the Calor, it is the cause of the cause cause. If the mover of the Diff wind take the trouble of circularizing the Missionary Societies of B. E. A. he will find that they are unanimous in ondemning the sale of intoxicating

condemning the sale of intoxicating liquors to native.
