This vital question to the well being of Mombasa has been brought before the Government of the Country at frequent intervals during the past few years, but as guaranteed by private capital have been planned only to be rejected for the lack of the requisite Admininistrative sanction, and as a consequence Mombasa to day is without a water supply or the prospect of one ir the near future. Apart from the health standpoint—sufficiently urgent in itselfwe would point out that we are handicapped in the inability to supply shipping with fresh water, thus detracting from the usefulness of Mombasa as a port of call, minimizing the value of our magnificent natural harbour at Kilindini and diverting all accruing benefits

Fourthly Remonal of our court of annual We are given to understand that it is on templated to remove the Court of Appeal for East Africa from Zanzibar to Mombass This on the ground of public convenience and expense we anticipate with every satisfaction and trust that the Home Government will expedite it in every way possible.
