## RAILWAYMEN FORCE THE ISSUE

Industry of Co. Licit with Coalition Government  
 Grows rapidly  
 AEROPLANES TO DEFEAT THE STRIKE

London, Sept. 28.—An agreement with the railway industry of the coalition government is reported to be in the hands of the negotiators. It is pointed out that no reduction in wages would be made in the present level until the living is considerably changed. There is little anticipation of a strike. The view is expressed that the bringing about of the most extreme 100 per cent. increase in wages, combined with the usual conditions of common public interest. It is stated that the negotiators are in a permanent way, and are receiving twenty shillings a week, and the usual conditions of work, the amount reached, owing to the fact that the railway industry is in a state of emergency, and is in a position to accept the conditions of the coalition government.  that he had received a letter from the Premier, offering him the post of Premier of the coalition government. Mr. Lloyd George further stated that he had received a letter from the Premier, offering him the post of Premier of the coalition government.

Emergency orders issued in connection with the strike enforce the strict rationing of coal, gas, and food during the war. They prescribe the compulsory requisitioning of vehicles and horses and invite volunteers to drive motor vehicles, provision being provided for the volunteers.

**A Month's Provision.**  
 The funds of the Railwaymen's Union are estimated at £1,200,000, which is sufficient to finance the strike for a month, but the real test is expected to be in the first three days, as if the essential railway services can be carried on temporarily a fallow of the Railwaymen's Union factor in the Government's favour. The enormous number of motor lorries, at the disposal of the Government for the collection to involve the support of their partners in the Triple Alliance, is being put into a still graver situation.

The Government at Westminster are employing over 2,000 men, and are expected to employ a still greater number. The latest reports from the great provincial centres show a complete standstill everywhere. The London and underground services in London are holding up hundreds of thousands of people who are waiting for the morning train. The morning train is being held up by the strike of the railwaymen. ### NAIROBI LIGHT

Experience of Municipal Committee.

**LOCAL WATER SUPPLY.**

At a meeting of the Water, Light, and Power Committee, the Town Clerk reported that the Municipal Engineer had submitted a report on the progress of the water supply works. The report stated that the works were well advanced and that the water supply would be completed by the end of the year.

The Company's Lighting Bill for 1919 has been submitted. The Town Clerk was instructed to procure from Government information as to the value during three months.

In regard to readjustment of lights, the Town Clerk reported that the Municipal Engineer had submitted a report on the progress of the water supply works. The report stated that the works were well advanced and that the water supply would be completed by the end of the year.

In connection with Kikuyu water supply, a letter from Government was received. The letter stated that the Government was prepared to supply water to Kikuyu on the condition that the water be sold at a profit. The Town Clerk reported that the Municipal Engineer had submitted a report on the progress of the water supply works. The report stated that the works were well advanced and that the water supply would be completed by the end of the year.

It was agreed that the papers relating to the water supply works be circulated for consideration by the Council and the Town Clerk was instructed to arrange to have the papers printed and to have the necessary funds collected for the same.

## The Return of BOVRIL

During the War Bovril was so indispensable to the soldiers, wounded and the people in the United Kingdom that it had to be retained in the British Isles where it is made, or sent to the fighting fronts.

With peace has come Bovril and now those who have suffered under the long strain of War can once again build up their health and strength with this magical food.

Those who for so long have been eagerly waiting for Bovril can now obtain all the supplies they need.

## PROFITEERERS

People Who Should be Hung in Egypt.

ILLUSTRATIONS BY B.E.A.

See—I enclose you extracts from the U.S. papers arrived by the last mail, illustrating the nefarious point at which the battle of the Old one of Africa, the New, has arrived. Seeing the Government in Rome as attached to the old, it is manifestly impolitic for it to challenge the new. When we have such misadventures as the old locally. One lady writes to the U.S.A.

"I am fond of my good old country, but she is, already economically, in a state of collapse. It is the present moment concerning the latter matter. Another syndicate quite recently closed the case."

"I had long ago a fish company dumped eight-ton of sardines in Table Bay. The sardines were the worst. The loss of the responsible party at the present moment is normal, and one falls into the future with terror."

"At the beginning of the month every knock at the door fills me with doubt—it may be the landlord or the shopkeeper waiting for money. The price of starvation and being trampled into the street is ever present."

"This is the condition of despairing folk three with families and with incomes averaging about £150 per annum."

Another: "An engine another letter, which carries the point, as you will observe, the writer says: 'What is hard to fashion is that we (the British Empire) have won the peace in the hands of the victors. The lion's share of the hoped income is not yet known, and yet the millions are getting more starved and poorer of 'existing' is causing every month!'"

Query: "Who has got the bone?"

"Amuse? 'Disastrous' people and those who, not feeling the 'black' price, are not so long to get all their goods."

"Let us have some real stability in the form of free coinage and stable exchange, thus to stem the tide of immorally sold property directly inflating the market."

"The receipt, which was a great relief, to the women and"

children. Let the same churchgoers who have seen to buy and sell some sporting articles, and the wife themselves out of their newly-minted money and property."

Printer's Way.

And yet another, from the Cape: "The daily Press comes with inquires to the various articles contained in the issue of the 20th October. We also read of the action taken against profiteering in England."

I would like to inform the public of the case of the Deputies of the French Republic. On conviction of profiteering, the prisoner is sentenced to death by guillotine within 24 hours of the date of conviction."

How many would be galvanized into this form of 'justified' blood? Africa, and particularly Cape Town? We know of the rise in all three aspects to the well-being of the poor, such as flour, sugar, butter, milk and clothing."

I wish to give you another item of the condition of the poor, viz., coffee. In the Cape Peninsula the poor are not allowed to consume tea, and one cause the coffee is being withheld in the knowledge that the price of coffee has risen 50 per cent; the price of flour is as high as 10/- per sack. Cape Town merchants had accurate prices of coffee to verify my statement."

I can produce samples, and prices of 12-tons showing an increase of over 200 per cent. My attention to the coffee containing public tea. Who are the profiteers in this case? Why?—I am, etc."

ART-PROFITEER.

PORTUGAL'S NATIONAL DAY.

Representative Gathering at the Vice-Consulate.

A brilliant function was held at the Portuguese Vice-Consulate on the October 5, the ninth anniversary of the Portuguese Republic, when Dr R. Ribeiro held a reception.

Among those who responded to Dr Ribeiro's invitation were: Captain Caldwell, representing His Excellency the Governor, Sir Charles Borelli, the American and Italian Consuls, Colonel Phillips, Hon. Cooper, Barth, Answorth, Milne, Mackenzie Ross, Martin and other leading officials together with Rev. Father Bernard, Guyan and Foley. The Lord Consulate was also represented by their leaders.

The reception, which was a great relief, to the women and"

aspects, makes an historical event in the history of the Portuguese Community in Africa, and the first time when the people with their own hands have taken part in the celebration of the anniversary of the Portuguese Nation in such a fitting manner."

BOXING PURPOSES.

Explanation of a Little Snippet.

The Editor, N. A. Standard.

See—My attention has been drawn to a letter in your contemporary regarding the case of the Thacker Boy in prison at the last boxing contest. The original name and name for the prize was the 'Lion', which is suitable only for a dog, I am, however, in this case, maintaining the name as it was in the original advertisement for the prize, which was in the 'N. A. Standard' of the 15th of October, 1919. This offer stands as in all the copies of the original advertisement, and is not to be altered in any way. ### LEAVING IT TO CHANGE.

When you want to buy a car you don't say "please Mr. Motorman send me a car"—No—you say what make of car you want because you've heard or know by experience the car best suited to you.

Usually it's the best car you buy—at least we all know "ours" is the best car.

Now, when you send that chit down town for tinned groceries or provisions you should write down the "brand" you want because the Storekeeper is anxious to send you just what you want and it isn't fair to expect him to read your thoughts—in fact he probably can't.

If you write Crosset and Blackwell's or just "C & B" for short, you will get something that will do your table credit whether it be Soups, Sardines, Tinned Fish, Meats, or Tongue, Pickles, Sauces, Vinegar, Canned, Fruits, Salads, or even flavouring Essences and Currants and Raisins.

They are all the very best of their kind, thoroughly dependable and every Storekeeper sells them.

Next time just add "C & B" please Agent:

Understanding more a days is no thing it not simple. The smallest quantity of money is worth it. Two gamblers, which combined in one man known by the name of cam-knicker. Usually made of silk or even light but warm material, they stretch up to a minute, and are made of the same fabric. They are particularly useful for the travelling hunter, as they give little effect to the natural and fresh or continue while the general body is made of the divided skin principle, so that, by itself, the general body by no means so much as the same would suggest.

Returned Soldier, young man age 27 years, sober, reliable, hard-working and trustworthy. Desires situation as manager or assistant on farm. Nine years practical experience livestock and agricultural. Applicant coming up-country, applying to Mombasa, P.O. Box 11, Rose c/o East African Standard.

Editor, E.A. Standard. Sir,—May I ask as a member of the general public that see published in the columns of the Professional and the British taxpayer, the original capital, and to date says that it has still been by the flow of the railway. I have heard that there are two main (Government guaranteed) which the railway has to pay £20,000 annually. I speak only from memory and ask that expert readers in face of general ignorance to make a definite pronouncement on this vital question.

The Editor, E.A. Standard. Sir,—I believe the facts to be approximately as above stated and in support of Mr. H. Healey's arguments in the paper I refer largely discredited for the following reasons: (a) R.E.A. does not bear the original cost, however excessive, nor the interest thereon. It is borne by the taxpayer at home.

It is simple to make the knicker on the "open" plan, without a flap. The little leg must be joined and neatly folded on the wrong side, and the remainder of the opening turned in on the wrong side and fastened with a button or fastener.

After all the passer is coming back. Tight skirts are doomed. The pattern is already installed on one little grey frock a popular actress wears in a London play, and by this time, they say, it will be the norm.

REGING AND FORT SMYTH.

The following report upon double inoculation, delivered to H. E. Pitt-Rivers...

Y. Northcote, W. E., the Commission appointed to enquire into and report upon the results...

(1) The number of animals inoculated in the two Districts was 675...

(2) From the evidence before us we are satisfied that the mortality is not to be attributed to the actual operation of inoculation...

(3) The Veterinary Pathologist examined the results of the inoculation...

These results are of the highest importance.

Table with 4 columns: District, No. of animals, No. of animals inoculated, No. of animals dying.

From these figures three deductions may be drawn:

(a) Cattle in poor condition react more severely than those in good condition...

(b) Different classes of stock give very different powers of resistance to the disease...

(c) The mortality in the retentive districts in February and March, 1920 was greater than in any other year...
