ASK FOR "W. L. 100"

Underwear for Men

Unquestionably the best value in East Africa.

A COMPROMISE.

"W. L. 100"

The majority of medical men recommend the majority of ordinary men in a hot climate prefer cotton. In 'W.L. 100' you get the best compromise combining the good qualities of both. It has enough wool in its texture to give the desirable effect of cotton while the greater proportion of the two materials give the added virtue of being Unshrinkable. It scores still further by being Inexpensive.

A perfect substitute for all wool. This Vest is made from Pure Wool with an admixture of Cotton. It has the absorbent and non-chilling properties of Pure Wool with the additional advantages of low price and unshrinkability. The present high price of Wool has made this vest more popular than ever.
