# A Labourer's Reply to "H. B. H."

To my friend, H. B. H. (Stratford) — I have read with considerable interest the article which appeared in your issue of the 11th inst. under the signature of H. B. H. I am sorry that after the usual course of things, I have come to the conclusion that the publication of such an article does not help the subject in hand, the statement that the one who is quoted as an example of a white employer of native labour is a white employer and said one is not only ignorant but a deliberate travesty of the whole position.

I imagine in the first place that the article is written by one of the white employers of H. B. H. who is a white employer of native labour. I am sorry that the article is written by one of the white employers of H. B. H. who is a white employer of native labour. I am sorry that the article is written by one of the white employers of H. B. H. who is a white employer of native labour.

It is most gratifying to have a fact that has been stated in the article mentioned had happened, but it is equally regrettable that the fact is not stated in the article. I am sorry that the article is written by one of the white employers of H. B. H. who is a white employer of native labour.

Labour is so scarce and so valuable to the white employer in this country that to get the matter in his most material form, he will do his utmost to get the matter in his most material form. I am sorry that the article is written by one of the white employers of H. B. H. who is a white employer of native labour.
