THE WORD "SERVICE"

often misapplied to PHOTOGRAPHERS and its real meaning abused, when we CLAIM

to render you satisfaction service, it means the performance of work which is really and to your SATISFACTION.

Send your next business films to us and we will demonstrate to you our satisfaction; which we will by the word "SERVICE."

# NOTICE OF REMOVAL.

Head Office of Messrs J.D. ISHERWOOD & SONS now moved to the RAND BUILDINGS in DUNBAR STREET, adjoining Messrs. Macmillan Bros. the NEW STANLEY HOTEL, and still recently fitted for the KARDONIA TA ROOMS. All Enquiries, Orders etc. will be attended to promptly.

THE WORKS are situated in COMMERCIAL STREET (south of Pungu River) near the Public Works Office. The registration works in our up-to-date works are open to meet our CUSTOMERS' requirements exceptionally.

We have an excellent workshop with our old premises occupied by the BIRCH BROS & BIRNBAUM & CO.

Head Office, P.O. Box 136, Nairobi.

J. D. ISHERWOOD & SONS, Engineers, Welding Experts, Machinists, Motorists etc. etc. etc. Nairobi.

# PELMAISM

Special Offer to Readers of "The East African Standard" Herein is announced that they have completed their comprehensive theory of Pelmanism can be brought to the notice of all our African readers.

It is the aim of Pelmanism to give a course of instruction in the study of the mind, and to show the student how to use his mind to the best advantage. The course is divided into two parts: the first part deals with the theory of the mind, and the second part deals with the practical application of the theory to the study of the mind.

## How the Pelman System Works

This kind of a guide to the study of the mind is not only a help to the student, but it is also a help to the teacher. It shows the student how to use his mind to the best advantage, and it shows the teacher how to help the student to do so.

Fill in and Post one of these Coupons to-day.

The Manager, The East African Standard, Nairobi. Please send me one of your Pelman System books, and also a copy of the book 'The Mind and its Uses' by Dr. J. D. Isherwood & Sons.

WOMEN SHRINK SOOLENERS

It is a well known fact that women shrink as they get older. This is due to the fact that the skin becomes thinner and the muscles lose their elasticity.

**SOME GOOD TALES**

"Times" - Miscellaneous Editor's Reminiscences.  
**GREAT BAINS**  
Colonial Cavalry & Coyt Spring, on the 21st and 22nd of May 1917, but one man, namely myself, was present at the scene. The publication of Colonel French's story in the "Times" is a very interesting one, and it is a pity that it is not more widely known. The volume was a result of the present operations of the 1st and 2nd Divisions of the 1st Army Corps, which were engaged in the capture of the town of Ypres, Belgium, on the 21st and 22nd of May 1917.

**ON THAT LONELY STRETCH OF ROAD**

Miles from Home, Ganga, or Railway Stations  
 homeward bound and with just comfortable time  
 get back before lighting up. All seemed  
 with the world, without warning-fumes  
 through the bonnet, accompanied by a cloud of black  
 smoke. In a few moments the car would have  
 been destroyed by fire-but-

The owner was a demobilized officer. In the Army he had seen  
 Pyrene used, not only on cars, but on kettles, beds and campstoves.  
 Now he has a Pyrene Fire Extinguisher fitted on his own car, instead  
 of having to stand by while an expert, he can, by calmly  
 using the latest portable fire Pyrene.

Fits a Pyrene on your dash board, and in your Garage; you  
 will thereby OBTAIN A REDUCTION ON YOUR  
 INSURANCE PREMIUM!

# PROPHETIC SEVENTY.

When From the Economic Point.

# THE C. A. SWITZER.

In the course of his prophetic work, the author has been able to predict the future of the world with a surprising accuracy. The book is a masterpiece of prophecy, and is a must for every student of the subject. It is a book that will open your eyes to the hidden forces that are at work in the world, and will show you the way to escape the coming catastrophe.

The field of production in this country is a vast one, and is being rapidly expanded. The Government is doing its utmost to encourage the growth of the industry, and is providing the necessary facilities for the expansion of the industry. The result is a steady increase in the production of goods, and a consequent increase in the standard of living of the people.

There has been some improvement in the market for the various types of goods. The price of goods has fallen, and the demand for goods has increased. This is a sign of a healthy economy, and is a result of the Government's policy of encouraging the growth of the industry.

The Government is doing its utmost to encourage the growth of the industry, and is providing the necessary facilities for the expansion of the industry. The result is a steady increase in the production of goods, and a consequent increase in the standard of living of the people.

## Newland, Tarlton's ANNOUNCEMENTS.

We have at Last received a consignment of the famous

### Wooler Motor Cycles.

Only a limited number of these machines will be available from this shipment and intending purchasers should lose no time in communicating with us.

## THE Wooler

is a distinctive type of its own. Every part of the cycle gear, giving 9 speeds. The finish and appearance is all that could be desired—Streamline tank, cream and black with thin blue line—the outfit is one that gives pride of ownership.

A great feature of the Wooler is its petrol economy—vide the following extract from

"TRUTH" (10th September 1919)

".....(The Wooler) averaged in the first essay 307 miles to the gallon and in the second 311, as compared with an average of about 100 by other machines. This astonishing result was due, not as is popularly supposed, to Dr. A. M. Low's device for measuring the petrol, a device used by all the other machines, but to the efficiency of the Wooler engine unit and transmission, the spring frame and other special features." Last year the Wooler established

### A. H. WARDLE & Co., Ltd., CHEMISTS, NAIROBI AND MOMBASA.

THE EAST  
**AFRICAN STANDARD**  
MOMBASA TRICK AND NAIROBI ADVERT  
MONDAY, OCTOBER 20, 1920.

There seems to be a widespread feeling on the part of the natives who have settled in Nairobi, and are settling elsewhere, that the Government is unscrupulously attempting to dispossess them of their land.

It is a well-known fact that the Government has been purchasing land in Nairobi and other parts of the country for the purpose of settling European immigrants. This policy has been carried out in a most unscrupulous manner, and the natives who have been dispossessed of their land are now being forced to live in the most miserable conditions. The Government is not only taking away their land, but is also taking away their homes and their means of livelihood. This is a most unjust and oppressive policy, and it is to be hoped that the Government will soon be forced to abandon it.

It is a well-known fact that the Government has been purchasing land in Nairobi and other parts of the country for the purpose of settling European immigrants. This policy has been carried out in a most unscrupulous manner, and the natives who have been dispossessed of their land are now being forced to live in the most miserable conditions. The Government is not only taking away their land, but is also taking away their homes and their means of livelihood. This is a most unjust and oppressive policy, and it is to be hoped that the Government will soon be forced to abandon it.

"Each in a good or bad manner" is the title of a new book by the author of "The Story of the British Empire," which is now being published by the author. The book is a history of the British Empire, and is written in a most interesting and readable style. It is a must-read for all those who are interested in the history of the British Empire.

In the case that the Uganda Railway has been abandoned, it is to be hoped that the Government will be able to find a more suitable route for the railway. The railway is a most important link between the coast and the interior, and it is essential that it should be maintained.

Many of the most interesting and valuable articles in this issue are those which deal with the history of the British Empire. These articles are written by some of the most distinguished historians of the day, and they provide a most interesting and readable account of the history of the British Empire.

A point of interest in the history of the British Empire is the fact that it was founded by a group of men who were determined to establish a new world. These men were the first to venture across the Atlantic Ocean, and they were the first to establish a permanent settlement in North America.

The most interesting feature of the history of the British Empire is the fact that it has been able to maintain its position for so long. This is due to the fact that the British Empire has been able to adapt itself to the changing conditions of the world, and it has been able to remain a force to be reckoned with.

It is a well-known fact that the British Empire has been able to maintain its position for so long because of the fact that it has been able to adapt itself to the changing conditions of the world. This is due to the fact that the British Empire has been able to remain a force to be reckoned with.

Published for the Proprietors by the East African Standard, Nairobi. Price 2/6 per copy. Subscription price 10/- per annum in advance.

THE

# Wooler

as a distinctive type of its own. Every part of the cycle is sprung. The engine is a fin with 2 1/2 p. foot controlled gear, giving 8 speeds. The finish and appearance is all that could be desired—Streamline tank, cream and black with this blue line—the outfit is one that gives pride of ownership.

A great feature of the Wooler is its petrol economy—vide the following extract from

"TRUTH" (10th September 1919)

"...with ('the Wooler') averaged in the first easy 307 miles to the gallon and in the second 311, as compared with an average of about 100 by other machines. This astounding result was due, not as is popularly supposed, to Dr. A. M. Low's engine for mounting the petrol, a device used by all the other machines, but to the efficiency of the Wooler engine unit and transmission, the spring frame and other special features." Last year the 'Wooler' established

AMINO PAIN FOR THE PAIN.

25 KILLED & 41 WOUNDED.

"E. A. G..." Special case on the ground.

For information, Oct. 20.

A very serious case of outbreak occurred here today.

Several thousands of natives are reported to have taken to the hills.

The Police reported that the outbreak was caused by a number of deaths.

Although 22 people were killed, including the Police, the outbreak was not a result of being struck with a bullet.
