CLEARING AND FORWARDING, STORAGE, SHIPPING.

Clearing and Forwarding. We have no trading department and consequently have no consignments of our own to clear before sending to consignments for opportunity agents. Our European staff has had 7 years' experience in the Customs and Railway Departments at the Coast. Storage. Our storage accommodation is situated in East Africa. We have thirteen godowns with a storage capacity of 15,000 tons. Shipping. Our private siding enables us to handle exports at a minimum of expense to open-country planters. Produce is offloaded direct from trucks into our godowns pending arrival of steamer, and again loaded into trucks for rail to the Pier for direct shipment. Enquiries invited

London, Dec. 15. Austria and Bulgaria. The League of Nations has begun to receive from Austria and Bulgaria the proposals for the League which they have approved and voted to the effect of not taking part in the discussion and settlement of the question, but in any discussion and settlement, he attaches the greatest importance to the preservation of the appellate jurisdiction of the House of Lords and greatly doubts whether that institution or any other tribunal otherwise constituted would give litigants, particularly in the case of Irish the present prompt, efficient and satisfactory nature. There are, however, matters connected with the judicial Committee which it would involve us in heavy fighting if we sought out of the League to be established in buildings which would appear to be better than the present one. There is no doubt, however, that the League would provide the settlement of the dispute, and certain cases would require speedy action. The Lord President of the Council, Secretary of State for India, and Lord Birkenhead have made representations on this subject to the Government. The volume of all the work from the Indian side, and the Indian side and Indian life and custom. He was glad to think that the Treasury would provide a more adequate remuneration which would attract men of sufficient standing and ability.

NAVAL CONSTRUCTION. Opinion of the Dominions Wanted. In the House of Commons at 10.30 on Monday, Dec. 14, the Secretary to the Admiralty stated that British and Dominion ships, the 'United States', Japan, France and Italy. In the House of Commons, Mr. P. H. (Co. C.) Enquiry requested that witnesses at the Imperial Defence Committee's enquiry on the subject of naval construction, should include possessors of special knowledge of the Dominions, and that the committee should be invited to consider the views of the Dominion Premier, and that the committee should be invited to consider the views of the Dominion Premier, and that the committee should be invited to consider the views of the Dominion Premier.

London, December 16. Mr. Churchill reviewed the history and the position in Mesopotamia, drawing attention to the Government's efforts to reduce the commitments, which had been undertaken by the British Government, and his success in breaking up the coalition. We were only now emerging from a campaign in which we had been fighting for our lives. We had to return to the reduction of the Government's commitments. Mr. Churchill declared that the House of Lords would give the additional £5,000,000 for Mesopotamia, but that it would involve us in heavy fighting if we sought out of the League to be established in buildings which would appear to be better than the present one. There is no doubt, however, that the League would provide the settlement of the dispute, and certain cases would require speedy action.

GENERAL TOWNSEND. Mr. Townshend made his maiden speech in the House of Commons on Monday, Dec. 14. He spoke for about an hour, and dealt with the question of the League of Nations. He said that the League of Nations was a great step forward, and that it was necessary to support it. London, December 16. The House of Lords rejected the Governor's Health Bill yesterday evening. This was the second time that the Bill has been rejected by the House of Lords. The Bill was introduced by the Government on December 13, and was intended to give the Governor of the Province of Ontario, Canada, the power to appoint and dismiss judges. The Bill was supported by the Government, but was opposed by the Opposition. The Bill was rejected by a majority of 10 votes.

Take Regular Doses of Common Sense.

Use Medicine Only for Needed Purposes.

A RETURN of common sense would do more for public health than all the medicine in the world. Though most of us need only a little plain food to keep strong we overwork, worry, drink a good deal, neglect our exercise, sleep but little. These bad habits had the blood with care and care poison the kidneys, weaken under the strain of filtering poisonous matter for supply to our stomachs.

A more frequent habit of using Doan's Backache Kidney Pills is a prophylactic measure to prevent a dangerous, nerve-troubling condition of the urinary system from developing. It is a guard against worse troubles. It is time to use common sense to moderate the bad habits and to help the kidneys to do their duty. Doan's Backache Kidney Pills prevent kidney waste and remove uric acid from remaining in the blood. They prevent the uric acid from coming away from the kidneys and urinary organs. Doan's Backache Kidney Pills are obtainable at all druggists or at 25¢ a box from Doan's Medicine Company, 531 North Dearborn Street, Chicago, Ill., U.S.A.
