The Motor Was Built for the Machine and the Machine for the Motor

Fifteen years of sewing machine development have produced the

Free Westinghouse ELECTRIC SEWING MACHINE

It is the only electric sewing machine in which the motor is part of the mechanism and not an attachment.

No strain, no fatigue, nothing new to learn. The Free Westinghouse Electric Sewing Machine makes home sewing more than an economy; it makes it a pleasure.

If your dealer does not have the Free Westinghouse Electric Sewing Machine, write to us, giving us the dealer's name.

Dealers are urged to write for literature and prices. Housewives everywhere are showing an unusual interest in this machine.

Don't turn up the lamp too much or too little; the latter will make the needle lock slowly and it is turned up beyond the line of the needle...

It is essential to have the needle exactly fitted to the press in the needle.

The whole set of ironing tools should be used.
