Destined to Revolutionize the Tyre Industry

The new Goodyear cover is heavier, the tread is thicker, the fabric is tougher. There is more material in them.

You are consequently assured of a greater mileage than ever was possible on a tyre before.

More people ride on Goodyear tyres than on any other tyre in the world. This is why the prices of Goodyears can be kept low notwithstanding the greater amount of material used in the new Goodyear construction.

STROBIL AMMONIA
A woman's capabilities as an entertainer are often gauged by her smile. The key to her success lies in the offers to her afternoon guests. It happens to her, poor, first and she creates a bad impression. But if it is rich and frequent with all seducing fragrances which captures the consciousness, her popularity as a hostess is established more firmly than ever and everyone looks forward with pleasurable anticipation to her "A.I." hours.

AGRICULTURAL PASTORS

ESSAY COMPETITION

FOR

KENYA SETTLERS.

FOUR PRIZES TO BE GIVEN.

DAIRYING INDUSTRY INCLUDED.

The "EAST AFRICAN STANDARD" offers Four Prizes for the best essays not exceeding 5,000 words on any subject of importance to Agriculturalists in this Colony. The prizes will be awarded as follows:—

For AGRICULTURAL SUBJECTS.

(1) Fl. 200 00 ; (2) Fl. 100 00

For PASTORAL SUBJECTS.

(1) Fl. 200 00 ; (2) Fl. 100 00

In considering the award no preference will be given to any particular aspect and the directions should not be understood as precluding the possibility of an essay on the commercial side of the general subject being given a higher award than one on the technical or artistic aspect of the question. The competition is primarily intended to obtain information of value on agricultural subjects and awards will not be based on literary style. The essays should be sent clearly marked "Essay" on the envelope and sent to the "East African Standard" Offices, Sixth Avenue, Nairobi, on or before October 31.

The article should not be signed but a card giving the competitor's name should be enclosed in a separate sealed envelope.

The Director of Agriculture assisted by the Staff of the Department of Agriculture have kindly consented to act as judges. The "East African" will publish the result in its columns and reserve the right to use any, or any part of an article sent. The name of the author will be published unless a request is received to the contrary.

There is no objection to a competitor submitting essays on more than one subject desired.

Members of the Department of Agriculture are not permitted to compete.

It is hoped that the "East African Standard" judges that the essays will give results of importance to the Kenya Settlers and that they will contain suggestions and hints on local conditions which may be valuable both to the beginner and to the more experienced farmer. If any are carried into effect the "East African Standard" believes that such a series of essays will, when published, be of beneficial benefit and confer a signal service on the agricultural development of this Colony.
