ONE POINT OF VIEW. from our own correspondence.

London, March 1. Modern points in finding gold are difficult to test itself away from highly civilized countries. The Ferguson bill goes on with relatively few exceptions. # DRAMA SIDE-TRACKED.

Dr. J. H. Hester, 1115 St. Louis St., Chicago, Illinois, has just returned from a trip to Nairobi, Kenya Colony, and has written a sensational account of a case which he has just investigated. The case, which is being published in the "Chicago Tribune" and "Chicago Herald-Examiner," is a sensational one, and is being widely discussed in Chicago and throughout the world.

Dr. Hester's account is that he was called upon to attend to a case of insanity in Nairobi. The patient, a woman, was brought to him by a nurse, and he found her in a state of extreme excitement. He examined her and found that she was suffering from a severe case of insanity, and he was obliged to place her in an asylum.

**THE PROBLEMS THAT BESET THE FARMERS.**  
The street way for the Farmer to overcome these problems is to install up-to-date machinery and obtain heavy labour costs as low as possible. It is impossible to do this without the aid of the producers of other countries.

A Fordson costs a 3,400 equal to the price of 30 Tractor Oats.

A Fordson does the work of 3 teams of Oats, and does it better.

A Fordson turns only one man to drive a plough, 3 teams of Oats need at least 9 men.

A Fordson will do the work with one plough that 3 teams of Oats will do with three ploughs, a saving of 18 men.

A Fordson is cheaper to run than any other tractor on the market.

It runs on kerosene—cheaper the order the better.

A Fordson will, with care, last for years, but if it gets "old" a "strapped" machine will be on your farm for long as a Ford or one like this will be to your Tractor "it" again.

Spare parts are always obtainable.

A Fordson does not require "care" of valuable land for mowing. It only couples 40 sq. yds. of your land.

(From Our Own Correspondent.)

After 20 years' service in Lloyd's Bank, Mr. H. de Witton, on his retirement, has gone to Zanibar, this week, as a missionary—a real change. I may suppose, from the usual slowness of Liverpool, Mr. de Witton was always heavily interested in church work, and attached himself to St. Marcellus's, Westminister. Boys of the parish found him a splendid friend, and, during the war, when he lived at the clergy house, he gave the school children, from across the road, and many from Africa, his personal real change.

Subsequently, missionary work appealed to him intensely, and this interest was fostered by the Bishop of Zanibar during his recent visit to England. And so Mr. de Witton has gone out to live the rest of his life in the service of the Unchristian Mission.

One who has known him since he was three—sixty years ago—sent me to send him "E. J. Stentor," the following message: "As a man who is too good to bury, I am glad that a wrong with him, I have never seen him buried. He has no knowledge of African languages; the mission may kill him. He was told before leaving that he would do good work by giving his money to the mission and remaining at Westminster—but his heart was set upon that." And that's what they think of Mr. de Witton in London—just as Zanibar people will be able to prove the man's worth when they have known him a little while.

A letter received recently at the Palmist Institute gave some  
ones to a staff to whom reports of the Institute were made  
became such a common-place. It was from a Manager  
of the Institute. The letter was very interesting in that  
it mentioned that the Institute's income is over £1,200  
per month. It is interesting to note that the Institute  
has a very small staff of only 10 persons. The Institute  
is situated in the suburb of Pretoria in the Union of  
South Africa. The Institute has been in existence since  
1908 and has since that time been steadily increasing

**Special Offer to Readers of  
"The East African Standard"**

The Proprietors of the EAST AFRICAN STAND-  
ARD have pleasure in announcing that they have  
completed arrangements whereby the Standard can  
be brought within easy reach of East African  
readers.

Itinerary there has been a delay of four to six months in  
bringing for a series of inspection, two months to get a sample  
from Durban (the nearest Port of Call) and another two or  
three months remaining here and getting lesson books.

How this delay may be obviated, THE STANDARD has been  
frankly with a plentiful supply of lesson books. They can  
be sent on to be printed here in Nairobi, and all the  
rest of the world.

Furthermore, owing to the stabilizing of the rate of exchange  
THE STANDARD has secured special terms for its readers. The  
rate of 7s. 6d. can be obtained through the Standard Office  
for the 30s. This offer only holds good for a limited period, and  
readers who are conscious of the universal need for Palmist  
should seize the opportunity now.
