## Overland

Unlike Any Other Car

The individuality of the new Overland stands out in marked contrast to other cars of its size.

Bonnet and cowlf form one sweeping line from the high attractive radiator to the slanting adjustable windscreen.

And in Overland alone you find the gracefully curved front apron telling you of the wonderful new Triplex Springs beneath, which give this light car its supreme riding comfort.

## Income over £1,200 a Year more SPECIAL OFFER TO READERS.

A letter received recently at the Palmer Institute gave an account of a man to whom reports of big income increase have come since a dinner-party. It was from a Managing Director. Here is what he says: "Income is over £1,200. I have never had any difficulty in the past, but now I have more money than I know what to do with. I have never had any difficulty in the past, but now I have more money than I know what to do with. I have never had any difficulty in the past, but now I have more money than I know what to do with."

## FABRICATION AS A HOBBY.

Palmerian is the easiest hobby in the world. It is taught practically by correspondence. Every student has expert instruction, personal tuition from one of a large staff of specialists. The course is so arranged that you can learn at your own pace. You can learn at your own pace. You can learn at your own pace.

## Special Offer to Readers of 'The East African Standard'

The Proprietors of the EAST AFRICAN STANDARD have pleasure in announcing that they have completed arrangements whereby Palmerian can be brought within easy reach of East African readers.

It is worth noting that there has been a delay of four days in the publication of the STANDARD. The delay was caused by the fact that the printer was unable to get the material ready in time. # MOTIVE A MYSTERY.

A grim tragedy was enacted at Nairobi early yesterday morning, involving the death of a woman to the country, named E. E. The deceased, who was very popular among his circle of friends, resided in a boarding house in the vicinity of the Athlone Hotel, and shared a room with another woman. It seems that about 3.45 o'clock yesterday morning the deceased was suddenly awakened from her sleep by the sound of his door being opened and a falling body, and on looking round he was horrified to find that Senekid had shot him a single round on the top of his head and death must have been instantaneous.

It would appear that the deceased had deliberately got out of bed to place the handle of the revolver in his mouth, and pressed the trigger. His hand, however, slipped, and he struck a chest of drawers, so that the bullet which had struck the chest of drawers, and which must have travelled on through the doorway, did not do him any harm, but it was a shock to the deceased.

## REPRESENTATIVE LADIES

A Reply to the Bishop of

SOME QUERIES

Mr. John Braxton.

It is many years since I met under you as B. Matthews, Westminster. One day you allow a boy to go out but all through my wandering career as Africa I thought I thought of you. I must confess that I am not a person of the world of late to see these conditions you are really young. I am not able to recall your own words, which are very different from what many writers imagine they were.

There are, however, several points on which I venture to cross swords with you, if you humble a person as well may be allowed to do so. First, I must confess that I am not a person of the world of late to see these conditions you are really young. I am not able to recall your own words, which are very different from what many writers imagine they were.

## DE THEBALSATION

Menace themselves do much to deteriorate the native race. Almost every woman I know of who has been to Mount Elgon has for her husband a native who is not only a weak but a wide among other things—wastefulness these both have taken on with them, often they have married some girl they have met in the course of their labor. Your missionary who has a good deal of money, and I take it from his wife and take him with him to other districts.

## IRREDEEMABLE AFRICA

"Africa is a terrible Africa," is a notorious African. "One fails to understand the native." In Africa the "evil" you speak of is of long standing, yet more rampant is available than, say, 50 years ago.

## UNSHARED NATIVE.

Unshared is brought in from every side and but N.O. a long way. The native is not only a weak but a wide among other things—wastefulness these both have taken on with them, often they have married some girl they have met in the course of their labor. Your missionary who has a good deal of money, and I take it from his wife and take him with him to other districts.

## THE LOGICAL RESULT.

To turn the native out originally means to turn the native out. The native is not only a weak but a wide among other things—wastefulness these both have taken on with them, often they have married some girl they have met in the course of their labor. Your missionary who has a good deal of money, and I take it from his wife and take him with him to other districts.

### QUALITY MORE IMPORTANT

FROM OUR OWN CORRESPONDENTS

...The Mandates Commission has decided to recommend that the British Mandate for Palestine should be extended to the whole of the country, including the Golan Heights and the Hauran. This decision is expected to be confirmed by the League of Nations Council in the near future. The British Government has also announced that it will not participate in the election of the Council in 1921, as it is unable to do so without the support of the other members of the League.

### WORK OF LEAGUE

...The League of Nations has been working hard to bring about peace and stability in the world. It has succeeded in bringing about the end of the First World War and in preventing a second world war from breaking out. It has also succeeded in bringing about the independence of many of the world's peoples.

### Unlike Any Other Car

The individuality of the new Overland stands out in marked contrast to other cars of its size.

Bonnet and cowl form one sweeping line from the high attractive radiator to the slanting adjustable windscreen.

And in Overland alone you find the gracefully curved front apron telling you of the wonderful new Triple Spring beneath, which give this light car its supreme riding comfort.

# Lower Costs of Production

## APPEAL FOR CO-OPERATION

### "E. A. STANDARD" OPENS CAMPAIGN.

#### Views of all Interests in Colony Invited

#### NECESSITY FOR IMMEDIATE ACTION

The financial position throughout Kenya Colony has daily become more and more serious. It is now a fact that the Government is unable to meet its obligations, and it is only because of the assistance of the British Government that it is able to continue to function.

The Government has been unable to reduce its expenditure, and it has been forced to increase its taxation. This has led to a general feeling of discontent among the people, and it is now necessary to take immediate action to reduce the cost of production.

The Government has been unable to reduce its expenditure, and it has been forced to increase its taxation. This has led to a general feeling of discontent among the people, and it is now necessary to take immediate action to reduce the cost of production.

### THE APPEAL

The recent dispute that has been raging over the currency question has indicated a sharp difference of opinion among settlers and Government. It is now necessary to take immediate action to reduce the cost of production.

The Government has been unable to reduce its expenditure, and it has been forced to increase its taxation. This has led to a general feeling of discontent among the people, and it is now necessary to take immediate action to reduce the cost of production.

It cannot be denied that the producer is the backbone of the Colony. Nor can it be denied that all who are not producers at the Colony must necessarily depend for their welfare on the property of the producers.

The Government has been unable to reduce its expenditure, and it has been forced to increase its taxation. This has led to a general feeling of discontent among the people, and it is now necessary to take immediate action to reduce the cost of production.

It is also urged that the producer is the backbone of the Colony. Nor can it be denied that all who are not producers at the Colony must necessarily depend for their welfare on the property of the producers.
