## COLONEL HAMMOND AT THE CONVENTION.

### Reduce Rates for Coffee, Flax and Sisal

### FREIGHTS ON IMPORTS TO BE RAISED

### NEW YORK GRIEVANCES DISBURSED

Mr. Conway Rayner is opening the subject of the Convention of the Association of American Railway Commissioners. Colonel Hammond, Special Commissioner, has been elected with the reputation of investigating the activities of the Uganda Railway preparatory committee. It is expected that the railway will be an institution of which they were indignantly proud and at the last meeting of the Convention they had approved a resolution to collect exact data, which formed the subject of a report which is called on the Secretary to the Convention.

### COMMITTEE'S REPORT.

The committee then read the following report:—  
At the last meeting of the Convention, Mr. Frederick Spirit Messers H. W. Bushman, C. E. Anderson (Governor) were appointed as a Central Committee. The Central Committee of the Association of American Railway Commissioners is a body of representatives of the various States of the Union and of the various countries of the world. It is the duty of this committee to investigate the activities of the various railway companies and to report on the same to the Convention. The committee has been busy since its formation and has held several meetings. It has received many suggestions from the various States and countries and has been busy in considering them. It has also been busy in collecting data on the activities of the various railway companies. The committee has now finished its report and is presenting it to the Convention.

Anderson, the governor, proposed a resolution that the Special Committee of the Association of American Railway Commissioners should be empowered to investigate the activities of the various railway companies and to report on the same to the Convention. This resolution was adopted by the Convention. The committee has also been busy in collecting data on the activities of the various railway companies. It has received many suggestions from the various States and countries and has been busy in considering them. It has also been busy in collecting data on the activities of the various railway companies. The committee has now finished its report and is presenting it to the Convention.

**DIET AND DANGER**

(By Seizer)

A reporter very often wandering round looking for some good news, some queer case, pleasant incident, the average public eye is attracted to the insanitary streets in Nairobi.

Going down the Broomfield Road the other day, I saw a man in a white shirt and trousers, who was carrying a large bundle on his back, and who was walking towards me. I saw that he was carrying a large bundle on his back, and who was walking towards me. I saw that he was carrying a large bundle on his back, and who was walking towards me.

IS GOODYEAR TYRE AVERAGE.

Where road conditions are ideal naturally pneumatic tyres will give longer and more satisfactory mileage. Rough, rocky or stony roads increase both tread and fabric wear. But a fair idea of what Goodyear tyres can average from all kinds of roads in all parts of the world is given by a survey recently completed where courses from all parts of the world were counted and facts obtained. This data showed the average life of Goodyear tyres to be 6074 miles.

Recollections of a Great Explorer

**EARLY AFRICAN DAYS**

"Captain Burton" was one of the heroes of my boyhood, one of those great adventures of which I have heard to long I might some day be allowed to share. I was a boy of ten when he was in the country. I had just read of his birth. I read his works in my school. I read his life and was so interested in his travels, his adventures, his adventures, his adventures. I was so interested in his travels, his adventures, his adventures. I was so interested in his travels, his adventures, his adventures.
