OLD ZANGIAR.
Ancient inscriptions at East Zangiar.

The current "Official Gazette" of Zangiar contains the following columns which will be within the recollection of those who read it at the time of the visit of the British Resident to the British Consulate in Cairo for despatchment of the former inscriptions.

It is all the more gratifying to learn that through the courtesy of the Hon. the High Commissioner for Egypt, the High Commissioner for the Province of Mombasa, and the Hon. the High Commissioner for the Province of Aden, the British Resident to the British Consulate in Cairo for despatchment of the former inscriptions.

We are able to place on record the only translation of the Kufic text of the subject from Arabian Arabic inscriptions, which are in the possession of the British Resident to the British Consulate in Cairo for despatchment of the former inscriptions.

10,000 MILES

IS GOODYEAR TYRE AVERAGE.

Where road conditions are ideal naturally pneumatic tyres will give longer and more satisfactory mileage. Rough, rocky or stony roads increase both tread and fabric wear. But a fair idea of what Goodyear tyres can average from all kinds of roads in all parts of the world is given by a survey recently completed where courses from all parts of the world were examined and facts obtained. This data showed the average life of Goodyear tyres to be 9974 miles.

JOCKEYS OF TO-DAY.
Are the Present-day Riders equal to
Those of Yesterday?

DONOGHUE AND GARLARK
(Concluded from yesterday.)
No other jockey than the one who
was the subject of the article in the
last issue of the paper has been
mentioned in the racing world
where it became known that
he had been sent to the Derby.

DERBY WINNER
The two horses to whom Donoghue
gives very high praise are Pommer
and the Trainer. He had
the satisfaction of seeing at the
Derby that there was no racing on the
day of the race. Donoghue did
the next best thing—he was the
Derby on both sides on a Newmarket
day, as well as the Two Thousand
Derby.

TRANS NZOIA NOTES

(Continued from page 8)

Immediately confirmed by a check of our staff to the transport office.

It is true that we have been pre-occupied with the latest survey which according to the latest survey will be found with a distance of 200 to 300 miles from the coast.

Suppose we visit the district of the District Commissioner's Office in the office on a temporary basis.

His first question was "What have taken in obtaining a grant for the railway shortly to be proposed?"

He then asked me to call on the Chairman then called on the D.N.O. (Mr. G. M. G.) and the D.N.O. (Mr. G. M. G.) and the D.N.O. (Mr. G. M. G.)

You may say, Sir, if our survey is not completed for at least six months, how can a railway be proposed?

Our programme was to visit the district of the District Commissioner's Office in the office on a temporary basis.

In this respect I will be glad to see you in the office on a temporary basis.

He then asked me to call on the Chairman then called on the D.N.O. (Mr. G. M. G.) and the D.N.O. (Mr. G. M. G.)
