10,000 MILES

IS GOODYEAR TYRE AVERAGE.

Where road conditions are ideal naturally pneumatic tyres will give longer and more satisfactory mileage. Though rainy or stony roads increase both tread and fabric wear. But a fraction of what Goodyear tyres can average from all kinds of roads in all parts of the world is given by a survey recently completed which covers all parts of the world where conditions and tests obtained. This data showed the average life of Goodyear tyres to be 9574 miles.

All weather tread covers. Heavy tread covers.
