## IT MAKES THEIR MOUTHS WATER!

The Manager, Nestlé & Anglo-Siam Milk Co., Nairobi, E.A.A.

"Dear Sir,  
I find it hard to express my delight at a new discovery of mine—Nestlé's Fruit Cream. Quite by accident, we included amongst some special provisions a tin of your Fruit Cream, with the result that the small rubber grip plastic bowl, was transformed by a faint warmth of average warmth with going dry for while for almost some fresh granules and cream with a spreading of sugar, will make any one of you think you had in fact your piece and still!

THE ABOVE LETTER NEEDS NO COMMENT. HAVE YOU TRIED NESTLÉ'S CREAM!

# Here are the latest GOODYEAR REDUCTIONS

Never before has the money of motorists in Kenya Colony bought so much in tyre value as it buys to-day in Good years under the latest prices given below.  
Goodyear tyres and tubes DO give mileage far in excess of other tyres. The superiority of these tyres is not a theory but a perceptible reality. It is so marked as to have made Goodyear tyres the largest selling brand in the world.

## THE EAST AFRICAN STANDARD

**SATURDAY, JUNE 11, 1921.**  
A good deal of Associated plebiscite matter. One has had nearly meeting of the U.A. Chamber of Commerce, but work of real value was effected. The agents we anticipated might be important, and all the subjects reviewed the shareholders treatment they received. We do not propose to survey in detail the discussions under the various heads, but we would like to appeal attention to the subject of the report made for the directors. The only one with which the granting of inventory positions has been or some have been grave and deplorable feature of recent months in this Colony and Protectorate, and in connection with it will lead only to a further class of situation. This need for revenue in the colony will not be a solution engaged, with the return of valuable mining, though it is to be hoped that the conditions which constitute a serious impediment to the use of the many facilities available are not reaching an end. But rapid bankruptcy laws is a young and untried particular in the way of opening country such as this. We share M. P. H. Clark's regret that his position as chairman would be to a large extent in regard to the return of revenue and primitive mining charges. As a result member of the Port Advisory Board he would doubtless have been able to make valuable suggestions in the matter. The consequences made recently by the Oceanic Lines under expert management are commendable, but the additional temporary reductions which the pressure of financial effects are obvious that the limit of economy to the shippers of this country is still quite distant from the discussion on lightage charges might well have been more expressed and the duty of the Government to endeavor to discover other methods of raising the light dues should have been more emphasized. The present charges for lightage work are not the only one to be considered, but figures that are readily by a very large percentage on conditions when business seems likely to pass the Company by and they are very much by virtue of monopoly. The lack of work has not been so on the matter, and the most comes from a powerful opposition of a private or Government character. We conclude with the view that the discussion on Railway control the resolution which only the shareholders and will be decided by the Councils of Kenya and Uganda

**MORE CONFERENCE.**  
**AN EMPIRE THE DUBLIN EXECUTIONS.**  
[renews news's news.]  
London, June 9.  
The Conference of employers and miners sat all day. It is expected that the general proposal will be submitted to a delegate conference of the miners, which will decide the next step.  
Mr. Evans Williams, the chief miners' representative, stated at the conference, which has adjourned till 10 o'clock, that he had no new proposal to put forward, but he was prepared to suggest that the duration of three shillings a shift—extending over an month in order to enable wages.  
The Lancashire operatives have accepted the offer of the Miners' Labour, but the employers have deferred a decision owing to short notice.  
**EMPIRE.**  
London, June 7.  
The engineering employers to the effect and content of the proposed reduction of wages 1,000,000 workers are affected, and efforts to secure a settlement continue. The Manufacturers' and employers' representatives of the meeting expressing of the meeting.  
**COLL. COMMISSIONERS.**  
Few particulars are available in regard to yesterday's oral negotiations, but it is understood that not a single word was said about the present mood. Hurlingham's monthly progress was made and the outlook in favor of a settlement was greatly improved. One point which was agreed was reached was that it seems to be treated as a matter of production shall be mutually agreed upon by a committee of the employers and the miners' representatives. The proposed settlement of the meeting will be under heavy labor conditions with large representatives to capital expenditure.  
**TO-BY'S FOOTBALL.**  
A Dublin (U) football match will be played at Parkville today. The Parkville side will be home to Kilmacshock.

## IT MAKES THEIR MOUTHS WATER!

The Manager, Nestlé & Anglo-Siam Milk Co., Nairobi, K.E.A.

"Dear Sir,  
"I had it hard to express my delight at a new discovery of mine—Nestlé's fresh Cream. Quite by accident, we included amongst some 'beverage parties' a tin of your Pure Cream, with the result that the whole party took to it with a vengeance. The cream was so good that it was 'sold' before it was even opened. It is so good that it is being ordered for the purpose of being distributed to the public. I am sure you will be glad to supply our people and other equipment - it will always contain Nestlé's Cream."

THE ABOVE LETTER REQUIRES NO COMMENT. HAVE YOU TRIED NESTLÉ'S CREAM?

**IT MAKES THEIR MOUTHS WATER!**

The Manager,  
Nestlé & Anglo-Siam Co., Ltd.  
Nairobi, Kenya.

It had to be a necessity for the discovery of this Nestlé's Fresh Cream. Quite by accident, we discovered amongst some housewives that they had found a way to make their mouths water. They had found that the usual rather heavy cream which was transformed into a light, worthy of being used for the purpose of making a cream for the face. It was not only a cream for the face, but a cream for the mouth. It was not only a cream for the mouth, but a cream for the eyes. It was not only a cream for the eyes, but a cream for the hair. It was not only a cream for the hair, but a cream for the skin. It was not only a cream for the skin, but a cream for the whole body. It was not only a cream for the whole body, but a cream for the world.

THE ABOVE SPEAKS FOR ITSELF. HAVE YOU TRIED NESTLÉ'S CREAM?
