Writing in "THE BRITISH MEDICAL JOURNAL," April 23rd 1921, The President
of the Tuberculosis Society of Great Britain said—

"The amount of tuberculosis amongst the adults and young children in milk obtained from dairy cows suffering from tuberculosis is so
large that it is estimated that over one million dairy cows in this country alone are tubercular, and that these are to be improved
in the dangerous state of affairs. Sterilized and proprietary milk are quite safe, and free from tubercle, and should be used in preference
to unsterilized cow's milk."

The ground all round the house was full of the heavy snow. The snow, the most amazing weather, had fallen and was all frozen. It was a very cold day as we were out at 10.30. The winds blew low and heavy. During the night the thermometer made the best fall to twenty-five, which meant that several degrees of frost were on.

LARGE REDUCTIONS.
U. S. TYRES
 (UNITED STATES) RUBBER Co.
ARE GOOD TYRES.

BECAUSE

- 1 They are the result of the vast experience of probably the pioneer and largest rubber company in the world.
- 2 The special process of vulcanization used creates a tough and flexible tread which is not cut by sharp stones, etc., and yet gives very long wear.
- 3 The extra ply and carefully thought out design make the body of the tyre equally as strong as the tread, the various styles of which have been tried at after many years of experimental and practical test.
- 4 Only the best materials and workmanship are put into the tyre. Excellent vulcanizer are assured. Mileages of 10,000 and more miles have proved common.

U. S. TYRES
(UNITED STATES RUBBER CO)
ARE GOOD TYRES.

BECAUSE

1. They are the result of the best experience of probably the greatest and longest rubber works in the world.
2. The special process of vulcanization used is common to tough and flexible tread which is not cut on sharp stones etc, and yet gives very long wear.
3. The extra ply and carefully thought out design makes the body of the tyre equally as strong as the tread, the various sizes of which have been tried and proved to be the best.
4. Only the best materials and workmanship are put into the tyre. Excellent mileage are earned. Mileage of 10,000 and more miles have proved constant.
