**NEWLAND, TARBTON & CO., LTD.**

During the sixteen years Ford Cars were made in many models from little two-cylinder "chuggers" to big six-cylinder, high-priced cars.

But in 1908 the crystallized results of all those years of experience and study was the model T, the Ford power plant of to-day.

And since 1908, thirteen years of test under every condition of use in peace and war, in every nook and corner of the globe has shown not a single weakness nor a need of improvement, nor of additions to the power plant which drives half of all the cars on earth.

The wonderful durability and power of the Ford engine, its SIMPLICITY OF OPERATION and ITS ECONOMY IN FUEL AND REPAIRS, are reasons why the Ford car should be a good car for you to own.

Tagore

SEE YOU ON THE CONTINENT.

THE EAST TO WEST.

[By a correspondent in the "Observer."]

I have had a week's interesting visit with Mr. E. B. Tagore, an Englishman who has just returned from a two months' tour of the East. He has just returned from the continent and the continent of Europe—a cruise that has taken him to the East Indies, the Philippines, and the East Indies. He has just returned from the continent and the continent of Europe—a cruise that has taken him to the East Indies, the Philippines, and the East Indies. He has just returned from the continent and the continent of Europe—a cruise that has taken him to the East Indies, the Philippines, and the East Indies.

But it was in Germany that the philosopher showed his most striking traits. However Dr. Tagore was never so much as he had with gifts of flowers. When he was stopped at a station the people gathered round his carriage, the public meeting was addressed by Mr. Tagore, and he was in many ways had to be hurried away. He was asked for his autograph so he had to write a few lines to his friends to mention their wish to receive writing from their philosopher.

DR. TAGORE'S MESSAGE.  
The message delivered by Tagore in his lecture at the University of Toronto was that of a man who was not only a philosopher but also a man of letters. He was not only a philosopher but also a man of letters. He was not only a philosopher but also a man of letters.

It is a pity that the national movement in India is not as well understood and appreciated as it should be. It is a pity that the national movement in India is not as well understood and appreciated as it should be. It is a pity that the national movement in India is not as well understood and appreciated as it should be.

TO THE MOTHER OF ENGLAND.  
It was touching to observe, in the lecture at the University of Toronto, that the people of Europe, and particularly the people of England, were not so well understood and appreciated as they should be.

PRINCESS HILDAK.  
"One of our most remarkable achievements was a day spent in Berlin, Germany, where we were met by the English Princess Hilda, who was accompanied by her husband, Prince Francis, and their children. They were all very kind and friendly to us, and we had a very pleasant time with them."

THE EAST TO WEST.  
The East to West is a very interesting and important subject. It is a subject that has attracted the attention of many people, and it is a subject that is becoming more and more important every day.

THE EAST AFRIGAN STANDARD

FRIDAY, AUGUST 19, 1926.

We are to deplore Missions of papantry and Americanism, and we have always urged that the little press available for it in this country should be fully used. The administration of the law would fare more respect and dignity were any semblance of the majority of the British Bench inspired into the Law Courts here. A Government Notice is gazetted this week regarding instructions for the wearing of 'Field of Service Dress' by three grades of European officials, comprising everyone from the Colonial Secretary to the Assistant Transport Officer. We observe that the Field of Service Dress is a uniform which is to be worn by all officials in the future, and we would not be in the least surprised, were we civil servants whose duties sometimes took us 'on tour', some amount of keeping two wardrobe trunks, of a soldier's equipment. And who is to be responsible for these instructions on a soldier's uniform? What has been the case with papers of correspondence, and printing and filing? We note that they are 'instructions from the Secretary of State' to the Minister for War, and several hundreds of thousands of private papers were allowed to see any uniform. It is within the province of the public of Kenya to enquire to Mr. Churchill's high-splendored officials of the Government, and we are not surprised to find that the instructions of the papers to the officials of the Government in Kenya. We would have little objection to more rigid instructions as to the wearing of certain civil uniforms as well as the dress of the military. We are not the least surprised to find that the instructions of the Secretary of State to the Minister for War, and several hundreds of thousands of private papers were allowed to see any uniform. It is within the province of the public of Kenya to enquire to Mr. Churchill's high-splendored officials of the Government, and we are not surprised to find that the instructions of the papers to the officials of the Government in Kenya.

STANDARD NOTES

Mr. Henry Tait has a little more to say on the subject of the Standard Notes, and we are not surprised to find that the instructions of the papers to the officials of the Government in Kenya.
