The Commission has now given its verdict on the East African problem, and it is a verdict which will have far-reaching consequences for the future of the continent. The Commission has found that the present situation is the result of a long and complicated process of colonization, and that the only way to solve the problem is to establish a system of self-government for the African peoples. This is a bold and far-sighted decision, and it is one that we all should welcome. It is a decision that will bring peace and stability to the African continent, and it is a decision that will make a real difference to the lives of the people of Africa.

Murder
GULPITS
CRIME.

The report of the coroner's jury in the case of the murder of a young girl, who was drowned in a well, was given yesterday. The jury found that the girl had been pushed into the well by a man who had been drinking heavily at the time.

The man was identified as the driver of a motor car which had been seen near the well at the time of the tragedy. The jury also found that the man had been drinking at a public house near the well.

The man was charged with the murder of the girl, and was committed to prison for trial. The girl's father has expressed his deep grief at the loss of his child, and has asked that the man should be severely punished.

The man's defence counsel has argued that the man was not guilty of the murder, and that the girl had fallen into the well accidentally. However, the jury has rejected this defence, and has found the man guilty of the murder.

The man was sentenced to a term of imprisonment for the murder of the girl. The judge has expressed his sympathy for the girl's father, and has said that the man's crime was a heinous one. The man will be kept in prison until his appeal is heard.

The man's appeal has been allowed, and he has been released from prison. The man has expressed his gratitude to his legal team, and has said that he will be able to start a new life.

We have stated our intention for a number of years past that we should revise the Constitution of the Government and the manner in which it is administered. It is now our duty to state that we have decided to do so, and we have appointed a committee to inquire into the subject. The committee will report to us in a few days.

Home Finance
EXPENDITURE
EXCEEDED REVENUE.
The total expenditure for the year 1920-21 has exceeded the total revenue by a considerable amount. This is due to the fact that the Government has had to incur a large amount of expenditure on the war, and has not been able to raise sufficient revenue to meet the cost of the war.
