SUBSIDIARY CROPS IN UGANDA.

A NOTABLE PAPER.

Below is the paper read by Mr. F. Gorton at the Uganda Planters' Association Conference at Kampala.

Some time back the question of subsidiary crops came before the Kampala District Branch and we were informed that the Hon. Dr. H. Elmer had brought the matter before the Legislative Council. Whether anything outside the...

At the Kampala Branch meeting a resolution was passed asking the Central Committee to refer the matter to the present meeting. So far nothing has been done by the U.P.A. and nearly four months have been wasted and the principle of specialization is a bad one.

Our primary crops are Rubber and Coffee, and on these we can just manage to keep our heads above water. It is absolutely foolish that the addition of one or more other crops to our plantations will make them unprofitable.

LIMES

Taking Ugandan ground crops from careful measurement of crops collected from 8 year old trees in Uganda I find the yield works out to 100 barrels to the acre. This yield is a fine one in the West and India. A year ago in Kenya a plant in this field was used for the local Coffee Cattle Works and it was found to yield a profit and at present most of the planters who put down coffee as a start will find it paying in 12 months.

COTTON

Most of us have power-equipped landless areas are due to two-thirds of the year and I think it is very important that the U.P.A. should keep their members abreast of the latest news in the world and the very much less than coffee and the demand for Cote de Ivory in Europe is an ever-increasing one.

In reply to a letter on the subject of Agriculture and the Acting Director of Agriculture said 'A license to grow and bear cotton is obtainable from the Director of Agriculture for estates with power machinery where at least 100 acres of cotton is grown, to include other crops under the same license, for an acreage of 250, and for an acreage of 500, and for an acreage of 1000. The license is issued on application, but may be in force in 1922.'

The license to purchase cotton is a separate one and is issued by the Director of Agriculture. The District in which the building, at which it is proposed to buy, is situated, is the first to be considered.

It is up to U.P.A. to see that there is a license to grow and bear cotton in the ordinance and to provide for the necessary machinery for the Government cannot fully report on the various matters to grow and bear cotton in such a condition is maintained upon which the chief concern is concerned.

In other parts of Africa cotton is a prominent crop and there is no reason why it should not prove a very paying subsidiary crop for us. The fact is exactly what happened on a small estate of my own in Kenya. In 1919 I had 200 acres of cotton and 200 acres of other crops. I harvested 1000 lbs. of seed cotton, which I sold for 100 lbs. per acre. I left on the trees as the price of cotton was falling. I was able to sell the seed for 100 lbs. per acre. I was able to sell the seed for 100 lbs. per acre. I was able to sell the seed for 100 lbs. per acre.

ing and from that profit banking 100 lbs. per acre. It is a fact that the U.P.A. is a body which will see our point and meet us. We must keep our tails up. When we compare the soil, the climate and the rainfall of Uganda with other parts of Africa it is all to the good. We must keep our tails up. When we compare the soil, the climate and the rainfall of Uganda with other parts of Africa it is all to the good.

When we compare the soil, the climate and the rainfall of Uganda with other parts of Africa it is all to the good. We must keep our tails up. When we compare the soil, the climate and the rainfall of Uganda with other parts of Africa it is all to the good.

INCREASING UNFAMILIARITY OF HANDWRITING.

From our own Correspondent.

No single communication has been received in relation to the hand writing of the telegrams. At the Bournemouth meeting, Mr. C. D. Yonge, who was present, and there would appear to be much to be said in favour of the local policy.

AN OPTIMIST

I feel sure that a 20 acre plot set apart for subsidiary food crops which would be a favorable world pay and the following report has been suggested by the Agricultural Department. It is a very good one and is followed by similar reports. 'The cotton industry and its other lignine and other cotton crops, the cotton industry and its other lignine and other cotton crops, the cotton industry and its other lignine and other cotton crops.'

Harley-Davidson "World's Champion"

FLS. 1,425

buys the 7/8 h.p. Harley-Davidson completely equipped with Klaxon Horn, Head Lamp, Tail Lamp, and Generator. Springs of extra length in the middle post give to H.D. riders a comfort which riders of no other motor-cycles enjoy.

Harley-Davidson "World's Champion"

Examines closely the springing features of the 7/8 Harley-Davidson illustrated above. Do you know of any other motor-cycle so thoroughly and well springing? Furthermore, the H.-D. is smoother running, quieter, faster, more powerful, easier to control, and more reliable. The longest, hardest trip does not tire the rider of the new model Harley-Davidson.

A Delightful Home

AND A CERTAIN INCOME

We have had placed in our hands for sale a delightful property in the Limu District at a very low price on which a return of 12 per cent per annum is assured for the next four years by contracts already entered into with the Uganda Railway. This income could be greatly increased by dairying, and pig and poultry farming. There is a comfortable home on the property and a good clearing a home in beautiful surroundings, combined with an assured income should consult us.

NEWLAND, TARLTON & Co., LIMITED

Land Dept. Sixth Avenue, NAIROBI.

FORD SERVICE.

"We Sell and Service Ford Cars"

"The desire to serve well is at the base of the most modern and most modern organization."

This desire to serve well is not only the desire of a Ford dealer here and there about the country. It is the byword of an entire organization of thousands of dealers and service stations. It is the spirit of a business founded on service and maintained by the service ideal.

Ford Cars are built to run and give you the highest service in which they are paid. How good the factory service is in this respect is testified by hundreds of thousands of owners.

Once the car is in the hands of the owner, then the Ford dealer is ready and waiting to see that the machine functions properly to you at all times. It doesn't take a skilled mechanic to operate a Ford product. They are always on the job and expert service at lowest cost available on a moment's notice.

Ask a Ford owner about the service angle and then have your Ford dealer explain how his organization is built to serve YOU.

Newton's LIMITED. NAIROBI.

BIRTH. POWELL-On February 1st at Grosvenor Hill in Mad. and Mrs. Harold Town, a daughter.

THE EAST Africa Standard Standard MOMBASA TIMES AND ZANZIBAR NEWS. FRIDAY, FEBRUARY 3, 1922.

Those who were present at the meeting of the Municipal Council on Monday last week heard an interesting statement by the Municipal Commissioner for town rates. The subject matter of the statement was the variety and extent of the services used to be provided by the Municipality to those who live within its borders, and with increasing munificence the Municipal Council has been called upon to provide for the needs of the town.

It is a little less than a year ago that the Municipal Council was called upon to consider the question of the Municipal Council's right to regulate the use of the streets. It is a little less than a year ago that the Municipal Council was called upon to consider the question of the Municipal Council's right to regulate the use of the streets.

It is a little less than a year ago that the Municipal Council was called upon to consider the question of the Municipal Council's right to regulate the use of the streets. It is a little less than a year ago that the Municipal Council was called upon to consider the question of the Municipal Council's right to regulate the use of the streets.

It is a little less than a year ago that the Municipal Council was called upon to consider the question of the Municipal Council's right to regulate the use of the streets. It is a little less than a year ago that the Municipal Council was called upon to consider the question of the Municipal Council's right to regulate the use of the streets.

life, and we speak only of the common experience of all of us when we say that these ways are followed by a depressing few of the people at the moment. It is the policy of corporate enterprise to arouse the interest that is aroused by the "country." Were this to be the case, the most ardent of the growth of public interest in public affairs, since the conditions that make for depressed vitality and stagnating energy would be the conditions under which we and our children must live. We take comfort, however, in the evidence, and in the evidence that goes to certify that the source of the evil is far more personal and eradicable than is suggested. We believe that the future is a very bright one for the town and country alike, and that the town and country alike are to be benefited by the progress of the town and country alike.

the credit of their enterprise and to America the credit of pursuing the leading...

Most interesting are the stories of their use. One anecdote is especially impressive...

As months passed, the activities of the American troops increased...

FRUIT GROWING. 'The Principles of Fruit Growing' by L. H. Bailey.

Fruit growing is a subject that has of late attracted increasing attention...

Mr. Bailey's book may be regarded as one of the best on the subject...

The author divides his subject into the two following parts: The Location and its Climate; The Soil and the Fruit Lands.

Plants and Planting, Irrigation and the Management of the Fruit Lands.

A large number of illustrations are given in the last chapter on the various baskets and boxes that are in common use...

That a book that has been so well illustrated in such a simple and lucid manner is his due credit...

Cricket
 A GOOD WEEK-END PROGRAMME
 INTERESTING GAMES
 (By "Short Six")
 Cricketers this week-end have an interesting programme from which to choose as the game should be well worth watching.
 Parklands today will commence a series of matches which will be continued on Saturday afternoon. This should prove to be a good match and all the players are of the best form some real close contests should be seen. Parklands ground should be well patronised this afternoon.
 To-morrow Parklands will be at Home to that fine side the Railway Indians. A good match is bound to result. He would be a good critic who attempted to name the winner.
 To-morrow also will see a good game on the Railway ground when the Railway Europeans will meet an XI, raised by Mr. Bantzen. Here again the result will be doubtful if Mr. Bantzen's team has full XI out.
 THE CUP
 Interest in the Country Challenge Cup is increasing and it is understood that Parklands have entered and that Railway districts must write the other day that...
