Economics in 1921

A YEAR OF DISINFLATION.

70,000,000,000 DEBT SINCE 1914.

1914.

Money. Wigwagworth and Co. Ltd., London. E.C. have issued a particularly informative pamphlet on the money market in 1921. It is the use of which they discuss other points of view of the economic story of the year. They say: "The year 1921 will go down to posterity as the most critical in the history of Europe. A severe fall in prices was accompanied with gold prices and insupportable decline of currencies whose currencies were once so stable as gold itself."

The most striking feature of the situation is the stability of the European money market. In 1918, the price of gold was 177 shillings. In 1919, it was 177 shillings. In 1920, it was 177 shillings. In 1921, it was 177 shillings.
