When this child is 80

If you keep a tin of Brooke Bond tea for eighty years or more, you would find, when you opened it, that the contents were as good as ever.

By buying Brooke Bond tea you are getting not only the finest tea there is, but tea that will keep good in any climate.

Ask for Brooke Bond Tea in the patent vacuum-packed tin.

CORONA The Corona Writing Machine

There is no longer any reason why you should dread the enormous distances of main journeys. Carry CORONA and keep up with your work. It will shorten the trips and prove a real pleasure to you.

FORD LUBRICATION.

In East Africa, many FORD Car owners, who are influenced by the excessive temperature rather than the actual requirements, make a serious mistake in the selection of their lubricating oil.

The operating temperature is the only heat factor which need be considered when determining the correct lubricant for an engine. The effect of the excessive temperature upon the operating temperature is so slight that it does not in any way influence the selection of the correct oil.

Gargoyle Mobiloil "E"

A true saving lubricant. Under all conditions, Mobiloil fully satisfies all the demands of the special nature of the FORD car.

SMITH, MACKENZIE & CO.

E. A. ECONOMIC PROBLEMS
Sir Horace Byatt Explains How They May be Solved

ADDRESS TO LAMUN STUDENTS

Lord Innes, my friends, the duties of undergraduate students...

In addressing the Lamun Class, the first objective was to point out to you the importance of the present...

Local economic conditions.

Byatt explained that a constant state of belatedness in a number of cases...

The Nairobi Dairy is a very important part of the Kenya economy...

Business Possibilities.

Byatt pointed out that the East African Standard...

Byatt concluded that the East African Standard...

ORD LUBRICATION.

In this Africa, every FORD Car owner, who is satisfied, by the climatic temperatures rather than the actual requirements, make a serious mistake in the selection of their lubricating oil. The operating temperature is the only heat which should be considered when determining the oil used in lubricating for any engine. The effect of climatic temperatures upon the crystalline structure is so slight that it does not in any way prevent the selection of the correct oil.

Defies heat like a Salamander

In the hottest section in India the best correct tea packet in this tin, because the air has been exhausted from it, leaving a vacuum—the most perfect form of heat insulation.

The Brooke Bond vacuum-packed tea is the one sure safeguard against heat, damp, and insects. It preserves the flavour perfectly so that you get your tea as fresh as the day it was packed.

Ask for Brooke Bond Tea in the patent vacuum-packed tin.

Brooke Bond Tea in the patent vacuum-packed tin.
