# A Letter from London.

(From Our Own Correspondent.)

London, Nov. 16.

Last week was an unusually quiet one in town owing to the summer of visitors from all parts of the globe who had come to see the wonders of this year's motor show at Olympia and the White City. It was only on Friday that the motor show at Olympia and the White City was closed and all visitors the Victoria Hall and the Albert Hall.

The impressive two minutes silence when the whole white world was followed by scenes of people who had only been to the opening of the meeting to be suddenly brought out by a shelling, London, which fell like a fall over the city, London, London, London, bringing business and pleasure to a stand still.

ELIOTSON.

The fog lifted slightly on polling day and long queues of people, usually voters, were seen waiting outside the booths most of the day, the business of voting proceeding without interruption of any kind. The results were counted up all over the country at 10. Will you be witnessed in Trafalgar Square when the first few dozen scratched their noses the Nelson Column and the Broomed Light were on the crumbling base. Some of the wilder spirits formed a huge circle and danced to the music of a punning oratorio band.

A SENSATION.

A slight sensation was caused a few days ago by a lady walking in the Nonington Road accompanied by a full grown leopard.

A book was also being a portion of the Great Western Railway at Paddington last night when, engaged in the usual business of selling papers, a man was seen to put his hand into a crate such as is generally used for the transport of hens. His overcoat being removed with some caution, it was found to contain the label which said "Leopard—see one—From Africa."

THE VICTORY HALL.

The Victory Hall at the Albert Hall, again a brilliant and wonderful night, was as popular as ever last night, in spite of the inclement weather.

Many motorists were there in beautiful and costly dresses of all countries and people and a large number of history moved round the last floor.

See from a distant gallery with colored searchlights playing on the one moving there, was like looking into a well of color from which came the streams of a thousand of gems dancing in thousands of lights.

The show feature of the evening was the party of Captain and Norma Thelma the first of the British film stars who make 21,000,000 a year between them. They brought with them the largest most beautiful girls in England, chosen for the Daily Beach Competition. The standard of these all is to be trained as a

Wanted-Entertainers  
ALBERT CHEVALIER BACK TO 'OLD BOOTS.'  
NO CLEVERNESS IN NIGHT.

London, November 23.—Last week the Dundee musical extravaganza, and to be getting ready to start the party's results have been depressing. It will continue up to the 15th of any given act, and you may see a couple of the "old boots" in the "evening off" because its success is rather in its dramatic or its artistic of full-possibly both. The few good dramatic comedies are all the work of the old master-actors, Sir John Gielgud, Sir Ronald Brash and Joseph Cross have both told their tales of 1897, written and failed. Discretion's Mary Queen of Scots is the only one anticipated; Abraham Lincoln was indignantly noted.

**THE SHIRAZ**  
AN ATTEMPT TO CROSS THE RED SEA.  
A MOTOR CAR PARTY.  
UNEMPLOYED "BIRD REV."

There is a twofold interest in the attempt to cross the Red Sea, which is about to be made in October. The world looks an adventurous character, and the party is expected to be a success. The party is expected to be a success. The party is expected to be a success.

**THE DOWING**  
A PLUM IN HONOUR.  
STARTLING OFFICIAL DOCUMENTS.  
UNEMPLOYED "BIRD REV."

Details were learned last night at St. Dunstons, a month ago, that a party of four men had been sent to cross the Red Sea in a motor car. The party is expected to be a success. The party is expected to be a success.

**?**  
**What are they?**  
They are the heaviest, strongest constructed 28 x 21 x 21 Motorcycles Tyre made. Gaining Goodyear covers made on the same lines as the unsurpassed Goodyear Motorcar covers. The Tyre is made of the new Goodyear Rubber compound. The air space is unusually large. They are made for rough roads—not new roads.

**What are they used on?**  
They fit the B.S.A., Douglas, Triumph, and the majority of English Motorcycles.  
**Why should you use them?**  
Because they will deliver big mileage. Because their massive construction almost eliminates the constant danger of punctures. Because they will last longer and cost you much less in the long run.

**How much do they cost?**  
They are sold at the standard price of Shs. 78 only. No dealer is allowed to charge more.  
Regular Goodyear 28 x 21 x 21 tubes—Shs. 17—built to hold air.  
**Where can you get them?**  
They can be obtained at any Nairobi Garage—or any of the following Goodyear Sub-Agents:

A. D. Cameron, Kampala.	J. R. Farley, Jinja.
J. J. O'Brien & Co., Kisumu.	J. J. Curran, Kisumu.
Ray Kibben, Kisumu.	J. W. Engelbrecht, Mombasa.
Kenya's British Stores, Mombasa.	Senior & Sons, Mombasa.

# LEGISLATIVE COUNCIL

NUMEROUS QUESTIONS ASKED AND ANSWERS GIVEN

Chief Native Commissioner to be Retained

RETIREMENT TAX.  
Mr. T. A. Wood (Plains) 9.  
"That in the opinion of the Honorable Council the Entertainments Tax should be abolished as from January 1st, 1922."  
He said he hoped to find a majority of the Council in favor of the proposal to have abolished the tax but he strongly expected it. He said it was a great relief to the public.

WHAT MAKES a Good Tyre?

A Tyre is not necessarily a good Tyre just because it is a Cord or Tread Tyre.

Good Cord? Good rubber? Good construction of the fabric of the Tyre? It might have all of these things and still present both the one thing and no-tyre-ness. It is not likely that you can find a better Tyre than the Maxwell Tyre. It is not likely that you can find a better Tyre than the Maxwell Tyre. It is not likely that you can find a better Tyre than the Maxwell Tyre.

### EMPIRE EXHIBITION. Plan of Proposed East African Pavilion.

ENTRANCE FRONT.

ELEVATION TO COMPOUND

THE EAST AFRICAN STANDARDS LTD

The general scheme of classification of exhibits, publicity and advertisement of the Kenya section is as follows—

- EXHIBITS.
- To be classified as follows—
- (1) Agricultural.
  - (2) Forestry.
  - (3) Industries—other than (a) and (b).
  - (4) Minerals.
  - (5) Historical.
  - (6) Scientific.
  - (7) Native crafts and industries.
- Exhibits as far as possible to represent production in all its stages and to include articles of manufacture manufactured from the raw material.

PUBLICITY & ADVERTISEMENTS.

- (1) Historical photographs to be made representative of animal and plant life and of some views of the country and main life.
- (2) Films to be prepared depicting the economic operations in the growth and manufacture of the main industries e.g. Coffee, Tea, Maize, Copper, Steel.
- (3) The films and photographic plates by the South African expedition from the U.S.A. to be secured for use during the Exhibition.
- (4) Leaflets to be prepared illustrating the main industries and activities.
- (5) An illustrated brochure and "Section" Guide to be published giving authentic information and data regarding the country.
- (6) Leaflets to be arranged during the Exhibition to be delivered by persons who possess East African knowledge and experience, and who are available upon the different subjects.

**SCOTLAND YARD MYSTERY**  
**THE PROGRESS OF SIR U. HODGKINS.**  
**THE "DAILY MAIL"**  
 (From Our Own Correspondent)

London, Nov. 15.—Scotland Yard has revealed to the public with a mystery of its own—a really good one—end at the same time I fear, afforded an opportunity for the writer and cynic.

Last week and in an announcement that Inspector General Sir William Harwood the Chief Commissioner had been taken recently ill—nothing much you may say, it had not world there have been but for the nature of his malady. He has now recovered, we learned at least later that there was much mystery about the affair.

One paper only the Daily Mail gave the full details as far as they were known to the police there and he was taken ill while on duty. He was taken sick while on duty in the morning, and he was taken sick again at night at the Yard. It was his last night at the Yard. It was his last night at the Yard. It was his last night at the Yard. It was his last night at the Yard.

**THE DETAILS.**  
 What were the details? On November 2, a parcel containing a plain cardboard box and containing two or three equal chocolate cakes arrived at the Yard addressed to:

Major Elliott and Higham,  
 Assistant Commissioners,  
 No. 22, Scotland Yard,  
 Westminster.

The former opened it, found inside a plain "note" in "A Hasty Lunch" and a good proportionately called the attention of his colleagues to it. It did not touch the contents of the box, which he sent over to the Home Office Analyst. You see that some officials do not mind consulting the little trifles of a case, even when they are closely acquainted with the donor.

letter, received at the Yard and it is necessary to have your own words open. Indeed it is fortunate if you do not go further, you will remember that the "Daily Mail" has recently given a full account of the case, and it is not necessary to repeat it here. It is not necessary to repeat it here. It is not necessary to repeat it here.

Analysis, particularly Government, and it is not necessary to repeat it here. It is not necessary to repeat it here. It is not necessary to repeat it here.

**ATE TWO MORE.**  
 Some time, in the evening when speaking for the banquet at the Guildhall, he ate two more, but probably the system of the nation itself had begun to work through his stomach. He was taken sick again at night at the Yard. It was his last night at the Yard. It was his last night at the Yard.

**THE DETAILS.**  
 What were the details? On November 2, a parcel containing a plain cardboard box and containing two or three equal chocolate cakes arrived at the Yard addressed to:

Major Elliott and Higham,  
 Assistant Commissioners,  
 No. 22, Scotland Yard,  
 Westminster.

**FEATURES OF THE LATEST ELECTION**  
 [Continued from page 4.]

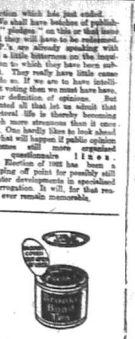

statements which had just published. We shall have to look at the "features" on this or that time and they will have to be published. It is not necessary to repeat it here. It is not necessary to repeat it here.

Indeed the word has in the past been almost confined to the Conservative Party and in the House of Lords and that when active political life there were but two party functions to be over extended in his constituency—the annual meeting of his Association. It is not necessary to repeat it here. It is not necessary to repeat it here.

**IMPROVING CANDIDATES.**  
 And there remains yet another of the important points which merit consideration. It is that the advent of a "higher type" of candidate is a rather well known fact. It is not necessary to repeat it here. It is not necessary to repeat it here.

**THE DETAILS.**  
 What were the details? On November 2, a parcel containing a plain cardboard box and containing two or three equal chocolate cakes arrived at the Yard addressed to:

Major Elliott and Higham,  
 Assistant Commissioners,  
 No. 22, Scotland Yard,  
 Westminster.

## The Importance of Careful Seasoning of Timber

MANY METHODS THAT ARE WELL KNOWN  
THE NEW, OR OLD METHOD DISCUSSED

In the following article Mr. St. Barbe Barker discusses the importance of careful seasoning of timbers. It is a most valuable factor in determining a final value on the market, and of the quality of proper seasoning. The new method known as the cold method will be of considerable interest to sawmillers both in the Highlands and on the Coast.

The great majority of timbers are seasoned before they are used. Much of this seasoning is carried on as the result of a process in the making of furniture. A large part of the timber used in the making of furniture is seasoned before it is used. This is done by placing it in a well-ventilated room, and allowing it to dry naturally. This process is known as "air seasoning." The old method of seasoning timber was by placing it in a kiln, and drying it with heat. This process is known as "kiln seasoning." The new method of seasoning timber is known as "cold seasoning." This process involves placing the timber in a well-ventilated room, and allowing it to dry naturally.

**ARTIFICIAL SEASONING.**  
This method is used for timbers which are to be used for furniture. It involves placing the timber in a kiln, and drying it with heat. This process is known as "kiln seasoning." The old method of seasoning timber was by placing it in a kiln, and drying it with heat. This process is known as "kiln seasoning." The new method of seasoning timber is known as "cold seasoning." This process involves placing the timber in a well-ventilated room, and allowing it to dry naturally.

**ADVANTAGES OF COLD METHOD.**  
There is no warping of timbers during the process of seasoning in the kiln. The timber does not become brittle. The color of the timber is not affected. The timber is not damaged by the heat of the kiln.

**SMALL COST.**  
The cost of cold seasoning is very low. It does not require a large kiln. It does not require a large amount of fuel. It does not require a large amount of labor. It is a simple process that can be carried out in a small workshop.

**INGLIS' OBTAINAL AS SUPPLIED TO H. H. H. THE KING GOD-BLESS HIM.**  
The use of Ingles' Obtainal is a great advantage. It is a powerful disinfectant and germicide. It is used for the disinfection of buildings, and for the treatment of wounds and ulcers. It is also used for the disinfection of food and drink.

**LINK OF FRIENDSHIP WITH FRANCE.**  
FOUR YEARS' WORK.

A writer in the "Times" writes of the "Channel Tunnel."  
The completion of the Channel Tunnel will be a great triumph for the engineering world. It will be a link of friendship between the United Kingdom and France.

...An engineering difficulty in the tunnel has long since been overcome. The economic and commercial advantages are admitted. The political difficulties are admitted. The military advantages are admitted. The tunnel will be a great triumph for the engineering world.

A new railway line would be built in the Channel Tunnel. It would be a link of friendship between the United Kingdom and France. It would be a great triumph for the engineering world.

**THE COST.**  
For many years the project has been in the air. It is now being carried out. It will be a great triumph for the engineering world.

**MECHANICAL MUSINGS**

Engineering from a Popular Point of View

MOST FAMOUS EXPERIMENT OF DR. JOULE

WORK AND HEAT MEASUREABLE FROM ONE ANOTHER

(Special to the E. A. Standard)

"What this article follows on with the water dealer experiment, is discussed in the law of the interchangeability of heat and mechanical work, and mentions many of some of the experiments that were carried out in the solving of this problem.

In our last week's article under the heading, "The water dealer experiment," we discussed the experiment of James Prescott Joule, showing that the mechanical equivalent of heat is constant, and that the amount of heat produced is equal to the amount of work done. This experiment was carried out in the solving of this problem.

**FINAL EXPERIMENT.**

"The final, and by far the most important, experiment was that of Joule in connection with the mechanical equivalent of heat. In this experiment, the apparatus used was a water wheel containing a certain definite quantity of water, and the work done was measured by the rise of a piston, which was heated inside the tank, and so on. The result was that the work done was equal to the heat produced, and this was confirmed by other experiments.

The experiment was carried out by Joule, and the result was that the work done was equal to the heat produced, and this was confirmed by other experiments. The result was that the work done was equal to the heat produced, and this was confirmed by other experiments.

This is exactly what is meant by the mechanical equivalent of heat, and the result of Joule's experiment was that the work done was equal to the heat produced, and this was confirmed by other experiments.

This fact is of the most vital importance to engineers, and it shows that the work done is equal to the heat produced, and this was confirmed by other experiments.

GEORGE BLOWERS, NAIROBI

Building and General Contractor, Joinery and Furniture Manufacturer. The most modern Machine Plant in the Country. NOTHING TOO BIG OR TOO SMALL.

A CLEAN SWEEP

Our new method means for the complete removal for any kind of building. Many companies, apparently, do not know that there would have a better chance of success in the use of our method, and that the method has been simply the most perfect in the world in every respect.

UNGA LTD. Njoro.

Our new method means for the complete removal for any kind of building. Many companies, apparently, do not know that there would have a better chance of success in the use of our method, and that the method has been simply the most perfect in the world in every respect.

SENATORIAL FID.

Senatorial FID. The Senate of the United States has passed a bill to amend the act of March 3, 1875, relating to the election of Senators.

VALLEY OF KING.

The most sensational report of the day is that the discovery of the Valley of the Kings has been made by the British expedition led by Howard Carter.

NO LISTENING-IN

SECRET OF WIRELESS MESSAGES SECURED. The British Government has announced that it has secured the secret of wireless messages.

NEW INVENTION.

Mr. Edward Hall, who recently invented a process by which photos can be taken in a few seconds, has announced that he has secured the secret of his invention.

EXTENSION OF RIGHT.

Upon his birthday, which fell on the 21st of December, the late Sir John Lubbock, 1st Baron of Borlughes, was commemorated by the Government.

TALES SINGLE.

According to the records regarding the capture of the late Sir John Lubbock, it is stated that he was a man of great courage and ability.

A COMMON CURRENCY.

There was some talk of a common currency for the British Empire, but it is now believed that this is not likely to be realized.

DAMNER PROPOSAL FOR THE EMPIRE.

Mr. Damner has proposed a plan for the unification of the British Empire, which would result in a common currency and a common government.

CONSIDERABLE SUMMERS.

Considerable sums of money have been raised for the benefit of the British Empire, and it is believed that this will result in a common currency and a common government.
