The VALUE of SERVICE.

We do not propose to offer any apology for drawing attention to the value of service. We believe that service is an obligation imposed, to an even greater degree possibly than in any other sphere of commerce, upon the Merchant handling Agricultural Machinery and Engineering Equipment. We endeavour to fulfil that obligation.

Service Consists of:-

- (1) An ability to assist in the selection of field equipment for any particular need.
- (2) Prompt response to orders or enquiries.
- (3) Maintaining an adequate supply of spare fittings to avoid those distressing losses so often involved when unexpected mechanical breakdowns occur.

- (1) We have a trained Agriculturalist on our staff who is always at our customers disposal.
- (2) We appreciate the vital need for this where ripening crops or ground prepared for planting may be calling for immediate attention.
- (3) We have 18,182 spare fittings in stock in Nairobi.

Whatever calls are made upon us we endeavour to respond to the best of our ability. Is not this Service of Value to You?

The Ford Power Plant

The first model T Ford engine was made in 1908. It was the perfected development of Henry Ford's motor inventions dating back sixteen years to 1894.

During that sixteen years Ford Cars were made in many models from little two-cylinder "Chuggers" to big six-cylinder high priced cars.

But in 1908 the crystallized results of all those years of experience and study was the model T, the Ford power plant of today.

And since 1908, thirteen years of test under every condition of use in peace and war, in every nook and corner of the globe has shown not a single weakness.

The wonderful durability and power of the Ford engine, its simplicity of operation and its economy in fuel and repairs, are reasons why the Ford car should be a good car for you to own.

FOOTBALL

SATURDAY'S DOBBIE CUP MATCH

Parklands Only Able to Draw with K.A.R.

FAVOURABLE MATCH CONDITIONS

The fact that a considerable amount of rain fell on Friday last Saturday, did not, as was generally expected, do anything to mar the match. The weather was, in fact, very favourable for the game. The pitch was in excellent condition and the wind was not too strong. The result was a draw, which was a disappointment to many of the supporters of both teams.

The match was a very hard fought one. Both teams played well and there were many chances for goals. The referee was very strict and fair. The spectators were very numerous and the atmosphere was very good.

PROGRESS OR COLLAPSE

SITUATION OF KENYA'S FINANCES

VIEW OF THE EXCHANGE TRANSACTIONS

BY THE HON. T. TRUCK

It has now been over two years since the Government of Kenya was established. During this period the country has made considerable progress in many respects. However, the financial situation remains a matter of concern.

The Government has made significant efforts to improve its financial position. It has introduced various measures to reduce expenditure and increase revenue. These measures have had a positive effect on the country's finances.

Despite these efforts, the financial situation remains challenging. The Government must continue to implement sound financial policies to ensure the long-term stability of the country's economy.

The Government has also taken steps to improve the efficiency of its public services. This has helped to reduce the cost of government operations and has improved the quality of life for the people of Kenya.

In conclusion, the Government of Kenya has made significant progress in many areas. However, the financial situation remains a challenge that must be addressed through continued reform and sound financial management.

The Government has also taken steps to improve the efficiency of its public services. This has helped to reduce the cost of government operations and has improved the quality of life for the people of Kenya.

COMMITTEE GIVES ACCOUNT OF

ITS STANDARDS

Motion's Home on their

The following report on the

Native Location Committee

was presented at the

annual meeting of the

Native Location Committee

held at the Grosvenor

Hotel, London, on Monday

evening, May 27, 1935.

The report was presented

by Mr. T. M. Tomlinson,

Secretary of the

Committee, and was

received with interest

and approval.

The report dealt with the

work of the Committee

during the past year, and

the progress made in

the various fields of

the Committee's work.

The report was

discussed and approved

by the members of the

Committee, and the

Secretary reported that

the Committee was

pleased to note the

interest and approval

shown by the members

of the Committee.

The Secretary also

reported that the

Committee was

pleased to note the

interest and approval

shown by the members

of the Committee.

The Secretary also

reported that the

Committee was

pleased to note the

interest and approval

RACIAL EQUALITY
A SPEECH AND SOME COMMENTS
ON IT.
EXAMPLES IN DOMINIUM.

The following is an extract from a speech made by Mr. H. H. Kinnear, at the meeting of the Executive Council of the Government, on the 21st inst. The question has been raised in a great deal of connection with the reform of the law relating to the franchise in the various provinces.

There is nothing so thing as racial equality, and if we are to have equality, we must have something very strong support, the hypothesis that one race is superior to another, and that one race is more or less superior to another.

It is not only our "franchise" but also the franchise in other countries. I suppose it is strange to hear of a man who is a member of the Executive Council of the Government, and who has never had anything to do with the franchise in his own country.

South Africa, who attributed the franchise to the white race, and who has been so successful in the past, and who has been so successful in the past, and who has been so successful in the past.

The man who has had such equality in India, and who has been so successful in the past, and who has been so successful in the past, and who has been so successful in the past.

The spirit of the old measure, which was the result of the fact that we were to have a franchise in the various provinces, and who has been so successful in the past.

As we go to refresh the memory of our people, and who has been so successful in the past, and who has been so successful in the past, and who has been so successful in the past.

As we go to refresh the memory of our people, and who has been so successful in the past, and who has been so successful in the past, and who has been so successful in the past.

As we go to refresh the memory of our people, and who has been so successful in the past, and who has been so successful in the past, and who has been so successful in the past.

FOOTBALL

THE DOBBIE CUP LEAGUE

Caledonians Defeat Railway and Parklands Beat Cymkhana

INTERESTING MATCHES

In spite of distinctly unpropitious weather conditions the football matches of the Caledonian League were played on Saturday afternoon in the most interesting manner. The Railway team played an excellent game against the Caledonians and the latter were victorious by a score of 2 to 1. The Parklands team played an excellent game against the Cymkhana and the latter were victorious by a score of 2 to 1.

The group was in such a position that it was a pity that they were missing a match which has been played three times. The group was in such a position that it was a pity that they were missing a match which has been played three times.

RUN ON I. L. O.

Its the Main Road to Economy.

Making a fast climb "on top" often depends more on the lubricant than the gradient.

I. L. O. is the Ideal Motor oil for hilly country because it is a perfect lubricant compounded specially to keep carbon deposit down to absolute minimum.

Hence your engine will pull better and run longer without a need of decarbonising

Maize, Posho and Crushed Maize

To all Employers of Native Labour

Why not make forward contracts to meet your Maize and Posho requirements for the next six or twelve months?
By so doing you will not only be insured against fluctuations in the Grain Market, but you will also be enabled accurately to estimate your own requirements of working costs, which you cannot do otherwise do. The advantage of this method over that of buying on the spot should be obvious.
The B.E.A. Farmers' Association has only a limited capital, and employers are urged to make contracts now in order to avoid future disappointment.

For quotations and all other particulars apply.

The Secretary

B.E.A. Farmers' Association Ltd.

NAIROBI.
