THE EAST AFRICAN STANDARD

WEDNESDAY, JAN. 17, 1928.

The special article in good view to-day is one worth close study. It shows the bias on the part of the Under Secretary for Colonial Affairs, towards a black Africa. It is possible that we may be too severe in our criticism on a gentleman who is in the unfortunate position of having had no opportunity of staying in any one of the territories he is responsible for. There are two reasons which come to us for this state of affairs. One is that he should come out and see things with his own eyes. The other is that he should regard his post first as one of a responsible person, who knows East Africa, who believes in his own belief that the country which he is asked to give his best energies to should be entirely in the hands of its own people. With such a man in office, Colonial Affairs might find that their interests and policies would have a fight against their own. Name Othello, as well as against the forces of Nature. We must admit that we are not in contact with the opinion which we have the very important post of Under Secretary of State for the Colonies is a great one to hold. It is not to be envied in its responsibility. We have seen a man who has been in the post for such a long time, who has done so much for a black Africa, who has done so much for the welfare of the people of the African continent, who has done so much for the welfare of the people of the African continent, who has done so much for the welfare of the people of the African continent.

THE "KURUDU."

Next week the "Kurudu" continues releasing for their subscribers, which is in keeping with the policy of the magazine. The programme will be on the subject of the Kurudu, and the one larger. Remember that the Kurudu is a very important magazine, and it is well worth your attention. It is well worth your attention. It is well worth your attention.

U.S. Royal Cord the Individual Tyre. PREFERRED in grade of design, in balance, in beauty of appearance—the individuality of U.S. Royal Cord is apparent on sight. And if you could out a U.S. Royal Cord into sections, you would see the same individuality in the construction of the tyre—refinements of manufacture that make the performance of Royal Cords individual, too. Strength and mileage is built up with layers of heavy cords, each coated inside with the oth r by a cushion of live rubber, and each successive lay—laid at right angles to the above and built—insulated in the same way. These inner-layers are eliminated and an enduring resistance to lateral wear built into the tyre. Built into the tyre. That is the point. That is why Royal Cord looks good and are good—giving greater mileage, more riding ease and perfect freedom from wear.

FIT U.S. ROYAL CORDS—the Individual Tyres. THE MEMORIA DUTY COMMITTEE has been on the go with the Town Council. It has been approved of at any rate the majority of the members have approved of it. It is a thing which will bring the necessary funds to the aid of the committee which is so important. It is a thing which will bring the necessary funds to the aid of the committee which is so important. Fashion Gossip

Make your own frock
If you have a "mink" for a
coat, you may as well make
something for yourself...

highly with a soft dolls swing
like they are possible. But all you
know that you can bring back the
frost by a little warm hat...

If you grew
your own tea
Even if you had your
own tea-estate you could not
really be sure of having
always choice tea.

Choosing Your Colours
However smart the frock, it will
not be the subject of admiration
unless colour is used to
enhance the effect.
