NAIROBI CHAMBER OF COMMERCE.

Retiring President Reviews the Year's Work.

VARIOUS SUBJECTS OF COMMERCIAL IMPORTANCE.

"Safe to Say that the Worst is Over."

In his very able review of the Chamber's activities during the past year, there does not appear to be any subject of importance...

The following report by the President of the Nairobi Chamber of Commerce was read at the annual meeting...

Before proceeding with the annual business part of the meeting, the retiring President of the Chamber...

Next year, the Chamber will be celebrating its 25th anniversary...

The Chamber is expected shortly to receive the report of the Finance Committee...

A good start

Much depends on a good start but it is the finish that counts.

Unless your tea starts good it can never be good when it reaches you, but the mere fact of starting fresh, will not ensure it ending fresh.

It is the combination of tea and tin that makes Brooke Bond 'Red Label' unrivalled.

The tea is unequalled when packed, it is so packed that it loses none of its virtue en route to you.

Brooke Bond vacuum packed Tea

It costs no more than ordinary tea.

RED LABEL IS THE BEST QUALITY. The name of the tin is the guarantee. It means the tea will arrive in the best condition.

YOU ARE ADVISED TO PAY A VISIT TO THE CASH BOOT STORES BEFORE RUSHING YOUR PURCHASES THROUGH THEM. HOLD NO SALES BUT ALWAYS BELL GRAPE.

The matter has occupied a great deal of the attention of the Chamber and the members on several occasions all of which with the exception of that on tobacco were very interesting and profitable. The new Ordinances which come into force on September 27th, have been accepted both by Uganda and Kenya Governments. It is of the utmost importance that the Chamber should be able to advise its members on the subject of the new Ordinances. The Chamber has already issued a pamphlet on the subject of the new Ordinances and is now preparing a second pamphlet on the subject of the new Ordinances. The Chamber is expected shortly to receive the report of the Finance Committee.

U.S. Royal Cord

the Individual Type

PERFECT in grace of design, in balance, in beauty of appearance—the individuality of U.S. Royal Cord is apparent on sight.

And if you could use a U.S. Royal Cord into sections, you would see the individuality in the construction of the tyre—refinements of manufacture that make the performance of Royal Cord individual, too.

Strength and resilience is built up with layers of starchy cords, each cord interlaced from the other by a coating of live rubber, and each successive layer laid at right angles to those above and below—distributed in the same way. This internal friction is maintained, and an enduring resistance to internal wear built into the tyre.

Built into the tyre. That is the point. That is why Royal Cord looks good and are good—giving greater mileage, more lasting road and perfect freedom from tyre-worries.
