ZANZIBAR'S YEAR OF TRADE PROSPERITY.

ABNORMAL BALANCE IN FAVOUR OF THE ISLAND.

Great Britain's Share Shows Decrease.

New Customers for the Clove Crop.

A HEALTHY POSITION.

Zanzibar's healthy trade position in 1922 is indicated by the figures of the various trade goods imported, exported or re-exported, dutiable quantities and statements, showing the various articles imported from and exported to India and Burma, Ceylon, Java, Territory, United Kingdom, East Africa, France, United States of America, Germany and the Empire of British Africa. The study of the above figures will show a healthy, robust outlook for the year. All the 1922 trade has been largely reduced, and more normal conditions prevail. Since the inception of the war, the market for goods has been steadily increasing, and the balance of trade has been in favour of the island. The figures for the previous year are as follows:—The value of the goods imported in 1922 amounted to 1,320,000 tons weight, valued at 22,500,000 shillings, as against 1,100,000 tons weight, valued at 18,000,000 shillings in 1921. The value of the goods exported in 1922 amounted to 1,200,000 tons weight, valued at 20,000,000 shillings, as against 1,000,000 tons weight, valued at 16,000,000 shillings in 1921. The value of the goods re-exported in 1922 amounted to 1,100,000 tons weight, valued at 18,000,000 shillings, as against 900,000 tons weight, valued at 14,000,000 shillings in 1921. The total value of the goods imported, exported and re-exported in 1922 amounted to 3,620,000 tons weight, valued at 60,500,000 shillings, as against 3,000,000 tons weight, valued at 48,000,000 shillings in 1921. The above figures show a healthy, robust outlook for the year. All the 1922 trade has been largely reduced, and more normal conditions prevail. NO CABLES.

STAMMERING A LEFT HANDED HABIT?

Careful Care of a Child.

A case of a left-handed child who stammered was brought to me by the mother. The child was 10 years old and had been stammering since he was 4 years old. The mother had been told that the child was left-handed and that this was the cause of his stammering. I advised her to have the child written with the right hand, and to have the left hand written with the left hand. The child was written with the right hand, and the stammering disappeared.

HOME RACING.

THE GRAND NATIONAL AND LINCOLNSHIRE. Positions and Probabilities. (From Our Own Correspondents)

London, Feb. 1. It is long now about six, but we can now give you the Grand National and the Lincolnshire. The Grand National is the presence of a horse which has been in the race for a long time, and having the best chance of winning.

There is no doubt about it that the strength of his training last year, which was very attractive, probably will be the cause of his being sent to the race.

At the same time, it is a horse that has a strong chance of winning the race, and it is a horse that has a strong chance of winning the race.
