A VAGRANCY CASE.

MORE GOOD WORK BY THE SALVATION ARMY.

A Youth Taken in Hand.

In the Magistrate's Court yesterday, a case was heard in which a young boy, of about 12 years of age, was charged with vagrancy. His name was Francis Joseph, and he was a native of the district. He was brought before the court by the Salvation Army, which has been successful in turning him into a useful member of the community. The boy had been found wandering about the streets, and the Salvation Army had taken him into their care. The Magistrate, after hearing the evidence, found the boy guilty of vagrancy and sentenced him to be taken into the care of the Salvation Army for a period of three months. The boy's father was also present in court, and he expressed his gratitude to the Salvation Army for their help in dealing with his son's problem.

ANOTHER FIND IN EGYPT.

PRINCES WHO LIVED 4,000 YEARS AGO.

The discovery of a new tomb in Egypt has led to the discovery of the remains of two princes who lived 4,000 years ago. The tomb was found in the Valley of the Kings, and it contained the mummies of two princes, along with other valuable objects. The discovery is considered to be one of the most important in the history of Egyptology. The princes were found to be members of the royal family, and their tombs were found to be well protected. The discovery has led to a better understanding of the life and customs of the ancient Egyptians, and it has provided valuable information about the history of the country.

The interruption of a cable in an extraordinary manner. It may be due to some unfortunate accident to the breaking of some of the main wires of which it is formed. A cable which is generally so hard to break, and which has withstood the most severe strains that have ever been put upon it, is not immune from the possibility of being broken. The interruption has occurred. It is not clear how it came to be broken, but it is a fact that it has been broken. The cable is now being repaired, and it is expected that it will be in service again in a few days.

POLO IN AFRICA.

CONCLUDING NOTES ON THE TRAINING OF HORSES.

Knowing the Game.

[By "Barnum"]

When a young pony is taken out to pasture in the riding school, there is a month's training with him and he should be given before he is allowed to enter a polo ground.

He should be allowed to gallop and canter freely, and gradually introduced to the work of a polo pony. He should be allowed to gallop and canter freely, and gradually introduced to the work of a polo pony. He should be allowed to gallop and canter freely, and gradually introduced to the work of a polo pony.

Four Tips

The pony should be trained to gallop and canter freely. 3. The pony should be trained to gallop and canter freely. 4. The pony should be trained to gallop and canter freely.

THE GOVERNOR WILL BE IN TOUCH WITH THOSE WHO HAVE RETURNED THE COURSE OF THE LATE ADMINISTRATION.

Mr. Short asked the Under-Secretary of State for the Colonies whether Mr. H. H. Wilson's engagement with the medical department of Kenya was terminated on the 6th November, 1922, and if so, when it was proposed to finally settle his position or compensation arrangement.

OPTICAL SERVICE.

This means more than the mere supplying and fitting of glasses. Of great importance is the examination which determines the success or failure of an attempt to make your eyes more useful and comfortable. In order that your eyes shall be able to do the work required of them, all the requirements reported of them, all the examinations of your eyes must be made by one who is qualified by long and successful experience to do so. If you need glasses we shall be pleased to arrange for you the most perfect and most suitable with your own convenience.
